

PROSPECTUS

\$70,000,000
CHARDAN HEALTHCARE ACQUISITION CORP.
7,000,000 UNITS

Chardan Healthcare Acquisition Corp., which we refer to as “we,” “us” or “our company,” is a newly organized blank check company incorporated in Delaware and formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination with one or more businesses or entities, which we refer to throughout this prospectus as our “initial business combination”. Although we are not limited to a particular industry or geographic region for purposes of consummating an initial business combination, we intend to focus on businesses that have their primary operations located in North America in the healthcare industry.

This is an initial public offering of our securities. We are offering 7,000,000 units at an offering price of \$10.00 per unit. Each unit consists of one share of common stock, par value \$0.0001, and one warrant, which we refer to throughout this prospectus as “warrants” or the “public warrants.” Each warrant entitles the holder thereof to purchase one-half (1/2) of a share of common stock at a price of \$11.50 per whole share, subject to adjustment as described in the prospectus. We will not issue fractional shares. As a result, you must exercise public warrants in multiples of two warrants, at a price of \$11.50 per full share, subject to adjustment as described in this prospectus, to validly exercise your warrants. Each warrant will become exercisable on the later of one year after the closing of this offering or the consummation of an initial business combination, and will expire five years after the completion of an initial business combination, or earlier upon redemption.

We have granted Chardan Capital Markets LLC, the representative of the underwriters, a 45-day option to purchase up to an additional 1,050,000 units (over and above the 7,000,000 units referred to above) solely to cover over-allotments, if any.

We will provide the holders of our outstanding shares of common stock that were sold as part of the units in this offering with the opportunity to redeem their shares of common stock upon the consummation of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account described below, including interest (net of taxes payable), divided by the number of then outstanding shares of common stock that were sold as part of the units in this offering, which we refer to as our “public shares.”

We have 24 months to consummate our initial business combination. If we are unable to consummate our initial business combination within the above time period, we will distribute the aggregate amount then on deposit in the trust account, pro rata to our public stockholders, by way of the redemption of their shares and thereafter cease all operations except for the purposes of winding up of our affairs, as further described herein. In such event, the warrants will expire and be worthless.

Mountain Wood, LLC, an affiliate of our sponsor, has committed to purchase from us an aggregate of 2,900,000 warrants, or “private warrants,” at \$0.40 per private warrant (for a total purchase price of \$1,160,000), with each warrant exercisable for one share of common stock at an exercise price of \$11.50 per share. These purchases will take place on a private placement basis simultaneously with the consummation of this offering. All of the proceeds we receive from these purchases will be placed in the trust account described below.

In March 2018, our sponsor purchased an aggregate of 1,437,500 shares for an aggregate purchase price of \$25,000. On September 14, 2018, we effected a 4 for 1 dividend in the nature of a stock split that resulted in there being an aggregate of 2,012,500 shares outstanding, which we refer to herein as “founder shares” or “insider shares,” which includes an aggregate of up to 262,500 shares that are subject to forfeiture to the extent that the underwriters’ over-allotment option is not exercised in full or in part.

There is presently no public market for our units, common stock, or warrants. Our units have been approved for listing on the NYSE American stock exchange under the symbol “CHAC.U” on or promptly after the date of this prospectus. Once the securities comprising the units begin separate trading as described in this prospectus, the shares of common stock and warrants will be traded on the NYSE American under the symbols “CHAC” and “CHAC.WS,” respectively. We cannot assure you that our securities will continue to be listed on the NYSE American after this offering.

We are an “emerging growth company” as defined in the Jumpstart Our Business Startups Act of 2012 and will therefore be subject to reduced public company reporting requirements.

Investing in our securities involves a high degree of risk. See “Risk Factors” beginning on page 18 of this prospectus for a discussion of information that should be considered in connection with an investment in our securities.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

	Price to Public	Underwriting Discount and Commissions⁽¹⁾	Proceeds, Before Expenses, to us
Per unit	\$ 10.00	\$ 0.071	\$ 9.939
Total	\$ 70,000,000	\$ 500,000	\$ 69,500,000

(1) Includes \$100,000 payable to B. Riley FBR, Inc. for acting as a qualified independent underwriter. Please see the section titled “Underwriting” for further information relating to the underwriting arrangements agreed to between us and the underwriters in this offering.

Upon consummation of the offering, \$10.00 per unit sold to the public in this offering (whether or not the over-allotment option has been exercised in full or part) will be deposited into a United States-based trust account at Morgan Stanley with Continental Stock Transfer & Trust Company acting as trustee. Except as described in this prospectus, these funds will not be released to us until the earlier of the completion of our initial business combination and our redemption of the public shares upon our failure to consummate a business combination within the required period.

The underwriters are offering the units on a firm commitment basis. Chardan, acting as the representative of the underwriters, expects to deliver the units to purchasers on or about December 18, 2018.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under "Risk Factors" and our financial statements and the related notes included elsewhere in this prospectus, before investing. Unless otherwise stated in this prospectus:

- *"we," "us" or "our company" refers to Chardan Healthcare Acquisition Corp;*
- *"initial stockholders" refers to all of our stockholders immediately prior to the date of this prospectus, including our sponsor and officers and directors to the extent they hold such shares;*
- *"founder shares" refers to the 2,012,500 shares of common stock held by our sponsor, our directors, and affiliates of our management team prior to this offering (including up to an aggregate of 262,500 shares of common stock subject to forfeiture to the extent that the underwriters' over-allotment option is not exercised in full or in part);*
- *"private warrants" refers to the warrants we are selling privately to our sponsor and/or its designees upon consummation of this offering;*
- *"sponsor" refers to Chardan Investments, LLC, an entity affiliated with Jonas Grossman, our Chief Executive Officer.*
- *the term "public stockholders" means the holders of shares of common stock which are being sold as part of the units in this public offering, or "public shares," whether they are purchased in the public offering or in the aftermarket, including any of our initial stockholders to the extent that they purchase such public shares (except that our initial stockholders will not have conversion or tender rights with respect to any public shares they own); and*
- *the information in this prospectus assumes that the underwriters will not exercise their over-allotment option.*

Unless the context indicates otherwise, share and per share amounts reflect a 1.4 for 1 dividend in the nature of a stock split that took place on September 14, 2018.

Certain financial information contained in this prospectus has been rounded and, as a result, certain totals shown in this prospectus may not equal the arithmetic sum of the figures that should otherwise aggregate to those totals.

You should rely only on the information contained in this prospectus. We have not, and the underwriters have not, authorized anyone to provide you with different information. We are not, and the underwriters are not, making an offer of these securities in any jurisdiction where the offer is not permitted.

General

We are a blank check company formed under the laws of the State of Delaware on November 1, 2017. We were formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business combination, which we refer to throughout this prospectus as our initial business combination, with one or more businesses or entities, which we refer to throughout this prospectus as a target business. To date, our efforts have been limited to organizational activities as well as activities related to this offering. Our efforts to identify a prospective target business will not be limited to any particular industry or geographic region, although we intend to focus our search on target businesses operating in North America in the healthcare industry. We have not identified any acquisition targets. From the date of our incorporation through the date of this prospectus, there have been no communications, evaluations or discussions between any of our officers or directors and any of their contacts or relationships regarding a potential initial business combination with our company. Additionally, we have not engaged or retained any agent or other representative to identify or locate any suitable acquisition candidate.

We anticipate structuring our initial business combination to acquire 100% of the equity interest or assets of the target business or businesses. We may, however, structure our initial business combination to acquire less than 100% of such interests or assets of the target business, but we will only consummate such business combination if we will become the majority stockholder of the target (or control the target through contractual arrangements in limited circumstances for regulatory compliance purposes) or are otherwise not required to register as an “investment company” under the Investment Company Act of 1940, as amended, or the “Investment Company Act” or, to the extent permitted by law, we may acquire interests in a variable interest entity, in which we may have less than a majority of the voting rights in such entity, but in which we are the primary beneficiary. We will not consider any transaction that does not meet this criterion. Even though we will own a majority interest in the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination.

Our sponsor was founded in November 2017 and is affiliated with Chardan Capital Markets LLC, the representative of the underwriters in this offering, an investment firm and a provider of investment banking services, primarily focused on emerging growth companies in the healthcare industry. Chardan conducts business across North America, Europe, Asia (including Israel) and Australia. Since its inception, Chardan has executed over 400 equity capital markets transactions, raising approximately \$19 billion of capital in both public and private markets.

Our management team is led by Dr. Gbola Amusa, Jonas Grossman and George Kaufman; each has extensive experience in healthcare both before and during their current tenure at Chardan.

Dr. Gbola Amusa currently leads Chardan’s equity research team, a team that has published over 500 research notes since 2013, with a major focus on covering biotechnology companies, particularly those with disruptive potential in the genetic medicines space.

Jonas Grossman leads Chardan’s capital markets team which has executed over 400 transactions since inception. In addition to its broader emerging growth and SPAC activities, the team has completed over 130 offerings for healthcare companies raising over \$5.0 billion since 2005 and over 60 offerings for healthcare companies raising over \$3.5 billion since the beginning of 2016. Chardan has a healthcare-focused corporate access team which sponsors two healthcare conferences and manages in excess of 100 non-deal road shows per year for both private and public healthcare companies. The corporate access team serves as a nexus for issuers and healthcare investors (venture capital, private equity, and asset managers) in North America, Europe and Australia.

George Kaufman leads Chardan’s investment banking group, which, in addition to working on the deals described in the preceding paragraph, has advised on the business combinations of 11 SPACs, as well as participated in key roles in the 4 previous Chardan-branded SPACs.

Together, Mr. Grossman, Mr. Kaufman, and their teams have acted as underwriter on 68 SPAC IPO’s since 2004 that generated gross proceeds of approximately \$9.0 billion. Since the beginning of 2016, Chardan has ranked as the most active book running or lead-managing underwriter of SPAC IPO’s, acting in such capacity on 25 SPAC IPO’s that raised gross proceeds of approximately \$3.4 billion in that period.

We believe that the network of contacts and relationships of our management team will provide us with an important source of prospective target businesses. In addition, we anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity groups, investment banking firms, consultants, accounting firms and large business enterprises.

We have also assembled a group of independent directors who have a broad range of operational, scientific and industry experience within healthcare. Over the course of their careers, our directors have developed a broad international network of contacts and corporate relationships, and they have gained extensive experience with acquisitions, divestitures and corporate strategy and implementation, which we believe will significantly benefit us as we evaluate potential acquisition or merger candidates as well as following the completion of our initial business combination.

As more fully discussed in “Management — Conflicts of Interest,” if any of our officers or directors becomes aware of a business combination opportunity that falls within the line of business of any entity to which he or she has pre-existing fiduciary or contractual obligations, he may be required to present such business combination opportunity to such entity prior to presenting such business combination opportunity to us.

We are an emerging growth company as defined in the Jumpstart Our Business Startups Act of 2012 (which we refer to herein as the JOBS Act) and will remain such for up to five years. However, if our non-convertible debt issued within a three-year period or our total revenues exceed \$1.07 billion or the market value of our shares of common stock that are held by non-affiliates exceeds \$700 million on the last day of the second fiscal quarter of any given fiscal year, we would cease to be an emerging growth company as of the following fiscal year. As an emerging growth company, we have elected, under Section 107(b) of the JOBS Act, to take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act of 1933, as amended (the “Securities Act”) for complying with new or revised accounting standards.

Acquisition Strategy

Our acquisition strategy is to identify, acquire and, after our initial business combination, to build a public company. Our selection process will leverage our team’s network of industry, venture capital, hedge fund, private equity and lending community relationships as well as relationships with management teams of public and private companies, investment bankers, attorneys and accountants, which we believe should provide us with a number of business combination opportunities. We intend to deploy a proactive, thematic sourcing strategy and to focus on companies where we believe the combination of the relationships, capital, capital markets expertise and operating experience of executives at Chardan Investments, can help accelerate the target business’ growth and performance. We will initially focus on emerging growth healthcare companies in healthcare niches including, but not limited to, biotechnology, medical technology and digital health.

Industry Opportunity

- *Large Healthcare Markets*

The healthcare industry consists of sectors within the economic system providing curative, preventive, rehabilitative, and palliative care for patients. The industry includes organizations providing such goods and services, as well as the doctors, nurses, and other healthcare employees. Total healthcare spending in the United States reached nearly \$3.4 trillion in 2016 and is expected to grow by an average 5.6 percent annually over 2016-2025, according to a CMS report released in February 2017. Total healthcare expenditures are thus expected rise to 19.9 percent of the US Gross Domestic Product.

- *Supportive Macro Dynamics*

The healthcare market globally mirrors a similar trend in the US of an increased contribution to the economy, due to the aging of the global population and other durable macro dynamics. For example, in good part due to the impact of healthcare on society, the global life expectancy increased from 31 years in 1900 to 72 years in 2014. As a disproportionate amount of overall healthcare spending is associated with diseases of aging, the aging of the global population will continue to drive increased healthcare consumption. In addition, less developed countries have gone through an unprecedented period of healthcare insurance and infrastructure expansion that has led the countries to have significantly higher contributions to the global healthcare marketplace.

- *Broad Universe of Potential Targets*

The target universe of healthcare opportunities is extensive, considering healthcare’s overall contribution to the economy. A factor that further broadens the universe is the high amount of innovation occurring within healthcare. In the wake of the genomics revolution, the pace of innovation is accelerating. With the streamlining of the externalization of breakthrough science from academic institutions, particularly in the United States, as mandates shifted from protecting intellectual property to externalizing it, increasing numbers of potentially disruptive healthcare innovations exist that may be underappreciated or underfunded. Early-stage companies need capital and advisory services to reach their commercial potential.

- *Macro Factors will Create Winners and Losers*

The healthcare industry is primed for new technologies and business models due to the increasing cost of healthcare and due to the increasing pressure to add value to the system. We anticipate certain lower-value segments of healthcare will be burdened by the pressures of cost cutting, while companies or segments that deliver superior products and services, with better clinical and non-clinical outcomes, will thrive. Successful companies will be data driven, consumer focused, and operationally efficient. Successful organizations will transfer best-in-class standards globally. Our team will take a holistic approach to investment opportunities and conduct stringent due diligence to screen such companies. We see opportunities in particular for companies that address global healthcare cost pressures by: succeeding in disruptive innovation, thus justifying monies spent by delivering cures or other breakthrough outcomes; delivering cost savings, to address global healthcare cost pressures; or providing access to medicines, as the marginal benefits from healthcare spending are highest when providing goods and services to those who do not already receive them.

- *Chardan is Already Positioned in Exciting Segments*

Chardan is focused on sectors with the highest potential for investment returns due to creating real value for society, specifically through disruptive innovation, generation of cost savings, and provision of access to medicines. For example, Chardan has focused on gene therapy/genetic medicines. Gene therapy involves insertion of genetic material into cells of the patients to provide the cells a new function or to restore missing or inappropriate functioning. In 2017, three gene therapies were approved for the first time in the United States, namely, Kymriah, Yescarta, and Luxturna. The sector outperformed broader biotech markets as big cap pharma increased the pace of acquisitions for gene therapy companies, as exemplified by the acquisition of AveXis in 2018. The sector has attracted a substantial funding in past five years on the potential of gene therapies to improve the effectiveness of existing treatments options. Other segments where Chardan is positioned include medical technology and digital healthcare, where better clinical outcomes and cost savings are possible.

Investment Criteria

We are focused on companies in disruptive and other value added subsegments of healthcare that have the potential for significant gains in the next five years. Our ideal company will be institutionally backed, with a high-quality management team and a demonstrated ability to raise money from the private capital markets. The segments we will target include biotechnology, medical technology and digital health.

The focus of our management team is to create stockholder value by leveraging its experience to efficiently guide an emerging healthcare company towards commercialization. Consistent with our strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. While we intend to use these criteria and guidelines in evaluating prospective businesses, we may deviate from these criteria and guidelines should we see fit to do so:

- *Healthcare Company Poised for Rapid Growth*

We intend to primarily seek to acquire one or more growth businesses with a total equity value of greater than 5 to 10 times the amount of the proceeds of this offering. We believe that there are a substantial number of potential target businesses with appropriate valuations that can benefit from a public listing and new capital for growth to support significant revenue and earnings growth or to advance clinical programs. We do not intend to acquire a start-up company.

- *Niche Leader and Specialized Business with High Growth Potential*

We intend to seek target companies that have significant and underexploited expansion opportunities in a niche sector. This can be accomplished through a combination of accelerating organic growth and finding attractive add-on acquisition targets. Our management team has significant experience in identifying such targets and in helping target management assess the strategic and financial fit. Similarly, our management has the expertise to assess the likely synergies and a process to help a target integrate acquisitions. Additionally, our management team has extensive experience assisting healthcare companies raise money as they navigate the regulatory approval process.

- *Benefits from Being a U.S. Public Company (Value Creation and Marketing Opportunities)*

We intend to seek target companies that should offer attractive risk-adjusted equity returns for our stockholders. We intend to seek to acquire a target on terms and in a manner that leverage our experience. We expect to evaluate a Company based on its potential to successfully achieve regulatory approval and commercialize its product(s). We also expect to evaluate financial returns based on (i) risk-adjusted peak sales potential (ii) the potential of pipeline products and the scientific platform (iii) the ability to achieve the system cost savings, (iv) the ability to accelerate growth via other options, including through the opportunity for follow-on acquisitions and (v) the prospects for creating value through other value creation initiatives. Potential upside, for example, from the growth in the target business' earnings or an improved capital structure will be weighed against any identified downside risks.

- *Potential Benefit from Globalization Trends and Possession of Competitive Advantages*

Target companies exhibit unrecognized value or other characteristics that we believe have been misevaluated by the marketplace based on company-specific analyses and due diligence. For a potential target company, this process will include, among other things, a review and analysis of the company's capital structure, quality of current or future earnings, preclinical or clinical data, potential for operational improvements, corporate governance, customers, material contracts, and the industry and trends. We intend to leverage the operational experience and disciplined investment approach of our team to identify opportunities to unlock value that our experience in complex situations allows us to pursue.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant.

Private Placements

In March 2018, our sponsor purchased an aggregate of 1,437,500 shares for an aggregate purchase price of \$25,000. On September 14, 2018, we effected a 4 for 1 dividend in the nature of a stock split that resulted in there being an aggregate of 2,012,500 shares outstanding (resulting in a purchase price of approximately \$0.012 per share), which we refer to herein as “founder shares” or “insider shares,” which includes an aggregate of 262,500 shares subject to forfeiture by our initial stockholders to the extent that the underwriters’ over-allotment option is not exercised in full or in part, so that our initial stockholders will collectively own 20% of our issued and outstanding shares after this offering (excluding the sale of the private warrants and assuming our initial stockholders do not purchase public units in this offering). None of our initial stockholders has indicated any intention to purchase public units in this offering.

The founder shares are identical to the public shares. However, our initial stockholders have agreed (A) to vote their founder shares in favor of any proposed business combination, (B) not to propose, or vote in favor of, prior to and unrelated to an initial business combination, an amendment to our certificate of incorporation that would affect the substance or timing of our redemption obligation to redeem all public shares if we cannot complete an initial business combination within 24 months of the closing of this offering, unless we provide public stockholders an opportunity to redeem their public shares in conjunction with any such amendment, (C) not to redeem any shares, including founder shares into the right to receive cash from the trust account in connection with a stockholder vote to approve our proposed initial business combination or sell any shares to us in any tender offer in connection with our proposed initial business combination, and (D) that the founder shares shall not participate in any liquidating distribution upon winding up if a business combination is not consummated.

On the date of this prospectus, the founder shares will be placed into an escrow account maintained by Continental Stock Transfer & Trust Company acting as escrow agent. 50% percent of these shares will not be transferred, assigned, sold or released from escrow until the earlier of (i) 6 months after the date of the consummation of our initial business combination or (ii) the date on which the closing price of our shares of common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations and recapitalizations) for any 20 trading days within any 30-trading day period commencing after our initial business combination and the remaining 50% of the founder shares will not be transferred, assigned, sold or released from escrow until 6 months after the date of the consummation of our initial business combination, or earlier, in either case, if, subsequent to our initial business combination, we consummate a subsequent liquidation, merger, stock exchange or other similar transaction which results in all of our stockholders having the right to exchange their shares of common stock for cash, securities or other property. During the escrow period, the holders of these shares will not be able to sell or transfer their securities except (1) to any persons (including their affiliates and stockholders) participating in the private placement of the private warrants, officers, directors, stockholders, employees and members of our sponsor and its affiliates, (2) amongst initial stockholders or to our officers, directors and employees, (3) if a holder is an entity, as a distribution to its, partners, stockholders or members upon its liquidation, (4) by bona fide gift to a member of the holder’s immediate family or to a trust, the beneficiary of which is a holder or a member of a holder’s immediate family, for estate planning purposes, (5) by virtue of the laws of descent and distribution upon death, (6) pursuant to a qualified domestic relations order, (7) by certain pledges to secure obligations incurred in connection with purchases of our securities, (8) by private sales at prices no greater than the price at which the shares were originally purchased or (9) for the cancellation of up to 262,500 shares of common stock subject to forfeiture to the extent that the underwriters’ over-allotment is not exercised in full or in part or in connection with the consummation of our initial business combination, in each case (except for clause 9 or with our prior consent) where the transferee agrees to the terms of the escrow agreement and the insider letter.

In addition, Mountain Wood, LLC, an affiliate of our sponsor, has committed to purchase from us an aggregate of 2,900,000 warrants, or “private warrants,” at \$0.40 per private warrant (for a total purchase price of \$1,160,000), with each warrant exercisable for one share of common stock at an exercise price of \$11.50 per share. These purchases will take place on a private placement basis simultaneously with the consummation of this offering. All of the proceeds we receive from these purchases will be placed in the trust account described below.

The proceeds from the private placement of the private warrants will be added to the proceeds of this offering and placed in a trust account in the United States maintained by Continental Stock Transfer & Trust Company, as trustee. If we do not complete our initial business combination within 24 months, the proceeds from the sale of the private warrants will be included in the liquidating distribution to the holders of our public shares.

The private warrants are identical to the warrants sold as part of the public units in this offering except that (i) each private warrant is exercisable for one share of common stock at an exercise price of \$11.50 per share, and (ii) the private warrants will be non-redeemable and may be exercised on a cashless basis, in each case so long as they continue to be held by the initial purchasers or their permitted transferees.

If public units or shares of common stock are purchased by any of our directors, officers or initial stockholders, they will be entitled to funds from the trust account to the same extent as any public stockholder upon our liquidation but will not have redemption rights related thereto.

Our executive offices are located at 17 State Street, 21st Floor, New York, NY 10004, and our telephone number is (646) 465-9000.

The Offering

In making your decision on whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled "Risk Factors" beginning on page 18 of this prospectus.

Securities offered

7,000,000 units, at \$10.00 per unit, each unit consisting of one share of common stock and one warrant. Each warrant entitles the holder thereof to purchase one-half (1/2) of a share of common stock at a price of \$11.50 per whole share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its public warrants only for a whole number of shares. This means that only an even number of public warrants may be exercised at any given time by a warrant holder.

Listing of our securities and proposed symbols

We anticipate the units and the shares of common stock and the warrants, once they begin separate trading, will be listed on the NYSE American stock exchange under the symbols "CHAC.U," "CHAC," and "CHAC.WS," respectively.

Each of the shares of common stock and warrants may trade separately on the 90th day after the date of this prospectus unless Chardan determines that an earlier date is acceptable (based upon, among other things, its assessment of the relative strengths of the securities markets and small capitalization companies in general, and the trading pattern of, and demand for, our securities in particular). In no event will Chardan allow separate trading of the shares of common stock and warrants until we file an audited balance sheet reflecting our receipt of the gross proceeds of this offering.

Once the shares of common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component pieces. Holders will need to have their brokers contact our transfer agent in order to separate the units into separately trading shares of common stock and warrants.

We will file a Current Report on Form 8-K with the SEC, including an audited balance sheet, promptly upon the consummation of this offering, which is anticipated to take place two business days from the date the units commence trading. The audited balance sheet will reflect our receipt of the proceeds from the exercise of the over-allotment option if the over-allotment option is exercised on the date of this prospectus. If the over-allotment option is exercised after the date of this prospectus, we will file an amendment to the Form 8-K or a new Form 8-K to provide updated financial information to reflect the exercise of the over-allotment option. We will also include in the Form 8-K, or amendment thereto, or in a subsequent Form 8-K, information indicating if Chardan has allowed separate trading of the shares of common stock and warrants prior to the 90th day after the date of this prospectus.

Shares of common stock:

Number issued and outstanding before this offering	2,012,500 shares(1)
Number to be issued and outstanding after this offering	8,750,000 shares(2)

(1) This number includes an aggregate of up to 262,500 shares of common stock held by our initial stockholders that are subject to forfeiture if the over-allotment option is not fully exercised by the underwriters.

(2) Assumes the over-allotment option has not been exercised and an aggregate of 262,500 shares of common stock held by our initial stockholders have been forfeited. If the over-allotment option is exercised in full, there will be a total of 10,062,500 shares of common stock issued and outstanding.

Redeemable Warrants:

Number issued and outstanding before this offering 0 warrants

Number to be issued and outstanding after this offering and sale of private warrants 7,000,000 public warrants and 2,900,000 private warrants(3)

Exercisability Each redeemable public warrant entitles the holder thereof to purchase one-half (1/2) of a share of common stock, and each private warrant entitles the holder thereof to purchase one share of common stock. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares. This means that only an even number of public warrants may be exercised at any given time by a warrant holder.

(3) Assumes the over-allotment option has not been exercised. If the over-allotment option is exercised in full, there will be a total of 10,950,000 warrants issued and outstanding.

Exercise price

\$11.50 per whole share. No public warrants will be exercisable for cash unless we have an effective and current registration statement covering the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to such shares of common stock. It is our current intention to have an effective and current registration statement covering the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to such shares of common stock in effect promptly following consummation of an initial business combination. Notwithstanding the foregoing, if a registration statement covering the shares of common stock issuable upon exercise of the public warrants is not effective within 120 days following the consummation of our initial business combination, public warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. In such event, each holder would pay the exercise price by surrendering the whole warrants for that number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of shares of common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the "fair market value" (defined below) by (y) the fair market value. The "fair market value" shall mean the average reported last sale price of the shares of common stock for the 10 trading days ending on the day prior to the date of exercise. For example, if a holder held 300 warrants to purchase 300 shares and the fair market value on the date prior to exercise was \$15.00, that holder would receive 70 shares without the payment of any additional cash consideration.

Exercise period

The warrants will become exercisable on the later of one year after the closing of this offering or the consummation of an initial business combination. The warrants will expire at 5:00 p.m., New York City time, on the fifth anniversary of our completion of an initial business combination, or earlier upon redemption.

Redemption

We may redeem the outstanding warrants (excluding the private warrants), in whole and not in part, at a price of \$0.01 per warrant:

- at any time while the warrants are exercisable,
- upon a minimum of 30 days' prior written notice of redemption,
- if, and only if, the last sales price of our common stock equals or exceeds \$16.00 per share for any 20 trading days within a 30 trading day period ending three business days before we send the notice of redemption, and
- if, and only if, there is a current registration statement in effect with respect to the shares of common stock underlying such warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

If the foregoing conditions are satisfied and we issue a notice of redemption, each warrant holder can exercise his, her or its warrant prior to the scheduled redemption date. However, the price of our common stock may fall below the \$16.00 trigger price, as well as the \$11.50 warrant exercise price after the redemption notice is issued.

The redemption criteria for our warrants have been established at a price which is intended to provide warrant holders a reasonable premium to the initial exercise price and provide a sufficient differential between the then-prevailing share price and the warrant exercise price so that if the share price declines as a result of our redemption call, the redemption will not cause the share price to drop below the exercise price of the warrants.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.” In such event, each holder would pay the exercise price by surrendering the whole warrants for that number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of shares of common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the “fair market value” (defined below) by (y) the fair market value. The “fair market value” shall mean the average reported last sale price of the shares of common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Whether we will exercise our option to require all holders to exercise their warrants on a “cashless basis” will depend on a variety of factors including the price of our shares of common stock at the time the warrants are called for redemption, our cash needs at such time and concerns regarding dilutive share issuances.

Offering proceeds to be held in trust

\$70,000,000 of the net proceeds of this offering (or \$80,500,000 if the over-allotment option is exercised in full), including \$1,160,000 we will receive from the sale of the private warrants, or \$10.00 per unit sold to the public in this offering (regardless of whether or not the over-allotment option is exercised in full or part) will be placed in a trust account at Morgan Stanley, maintained by Continental Stock Transfer & Trust Company, acting as trustee pursuant to an agreement to be signed on the date of this prospectus. Of the remaining \$1,160,000, \$285,000 will be used for offering expenses and \$875,000 of net proceeds of this offering will not be held in the trust account.

Except as set forth below, the proceeds in the trust account will not be released until the earlier of: (1) the completion of an initial business combination within the required time period and (2) our redemption of 100% of the outstanding public shares if we have not completed a business combination in the required time period. Therefore, unless and until our initial business combination is consummated, the proceeds held in the trust account will not be available for our use for any expenses related to this offering or expenses which we may incur related to the investigation and selection of a target business and the negotiation of an agreement to acquire a target business.

Notwithstanding the foregoing, there can be released to us from the trust account any interest earned on the funds in the trust account that we need to pay our income or other tax obligations. With this exception, expenses incurred by us may be paid prior to a business combination only from the net proceeds of this offering not held in the trust account of approximately \$875,000 provided, however, that in order to meet our working capital needs following the consummation of this offering if the funds not held in the trust account are insufficient, our initial stockholders, officers and directors or their affiliates may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion. Each loan would be evidenced by a promissory note. The notes would either be paid upon consummation of our initial business combination, without interest, or, at the lender's discretion, up to \$500,000 of the notes may be converted upon consummation of our business combination into additional private warrants to purchase shares of common stock at a conversion price of \$0.40 per private warrant (which, for example, would result in the holders being issued private warrants to purchase 1,250,000 shares of common stock if \$500,000 of notes were so converted). Such private warrants will be identical to the private warrants to be issued at the closing of this offering. Our stockholders have approved the issuance of the private warrants (and underlying securities) upon conversion of such notes, to the extent the holder wishes to so convert them at the time of the consummation of our initial business combination. If we do not complete a business combination, the loans will only be repaid with funds not held in the trust account, to the extent available.

Limited payments to insiders

Prior to the consummation of a business combination, there will be no fees, reimbursements or other cash payments paid to our initial stockholders, officers, directors or their affiliates prior to, or for any services they render in order to effectuate, the consummation of a business combination (regardless of the type of transaction that it is) other than:

- repayment of loans of \$85,500 made to us by our sponsor;
- repayment of loans which may be made by our insiders, officers, directors or any of its or their affiliates to finance transaction costs in connection with an initial business combination, the terms of which have not been determined;
- reimbursement of out-of-pocket expenses incurred by them in connection with certain activities on our behalf, such as identifying and investigating possible business targets and business combinations; and
- repayment upon consummation of our initial business combination of any loans which may be made by our initial stockholders or their affiliates or our officers and directors to finance transaction costs in connection with an intended initial business combination.

There is no limit on the amount of out-of-pocket expenses reimbursable by us; provided, however, that to the extent such expenses exceed the available proceeds not deposited in the trust account and the interest income earned on the amounts held in the trust account available to us, such expenses would not be reimbursed by us unless we consummate an initial business combination. Our audit committee will review and approve all reimbursements and payments made to any initial stockholder or member of our management team, or their respective affiliates, and any reimbursements and payments made to members of our audit committee will be reviewed and approved by our Board of Directors, with any interested director abstaining from such review and approval.

Stockholder approval of, or tender offer in connection with, initial business combination

In connection with any proposed initial business combination, we will either (1) seek stockholder approval of such initial business combination at a meeting called for such purpose at which public stockholders may seek to convert their public shares, regardless of whether they vote for or against the proposed business combination, into their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable) or (2) provide our public stockholders with the opportunity to sell their public shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account (net of taxes payable), in each case subject to the limitations described herein. Notwithstanding the foregoing, our initial stockholders have agreed, pursuant to written letter agreements with us, not to convert any public shares held by them into their pro rata share of the aggregate amount then on deposit in the trust account. If we determine to engage in a tender offer, such tender offer will be structured so that each public stockholder may tender any or all of his, her or its public shares rather than some pro rata portion of his, her or its shares. If enough stockholders tender their shares so that we are unable to satisfy any applicable closing condition set forth in the definitive agreement related to our initial business combination, or we are unable to maintain net tangible assets of at least \$5,000,001, we will not consummate such initial business combination. The decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us based on a variety of factors such as the timing of the transaction or whether the terms of the transaction would otherwise require us to seek stockholder approval. If we provide stockholders with the opportunity to sell their shares to us by means of a tender offer, we will file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination as is required under the SEC's proxy rules. If we seek stockholder approval of our initial business combination, we will consummate the business combination only if a majority of the outstanding shares of common stock voted are voted in favor of the business combination.

We have determined not to consummate any business combination unless we have net tangible assets of at least \$5,000,001 upon such consummation in order to avoid being subject to Rule 419 promulgated under the Securities Act. However, if we seek to consummate an initial business combination with a target business that imposes any type of working capital closing condition or requires us to have a minimum amount of funds available from the trust account upon consummation of such initial business combination, our net tangible asset threshold may limit our ability to consummate such initial business combination (as we may be required to have a lesser number of shares redeemed) and may force us to seek third party financing which may not be available on terms acceptable to us or at all. As a result, we may not be able to consummate such initial business combination and we may not be able to locate another suitable target within the applicable time period, if at all.

Our initial stockholders have agreed (A) to vote their founder shares and any public shares in favor of any proposed business combination, (B) not to propose, or vote in favor of, prior to and unrelated to an initial business combination, an amendment to our certificate of incorporation that would affect the substance or timing of our redemption obligation to redeem all public shares if we cannot complete an initial business combination within 24 months unless we provide public stockholder an opportunity to redeem their public shares in conjunction with any such amendment, (C) not to convert any shares (including the founder shares) into the right to receive cash from the trust account in connection with a stockholder vote to approve our proposed initial business combination or sell any shares to us in a tender offer in connection with our proposed initial business combination, and (D) that the founder shares shall not participate in any liquidating distribution upon winding up if a business combination is not consummated. None of our initial stockholders or their affiliates has indicated any intention to purchase public units in this offering or any units or shares of common stock in the open market or in private transactions. However, if a significant number of stockholders vote, or indicate an intention to vote, against a proposed business combination, our initial stockholders, officers, directors or their affiliates could make such purchases in the open market or in private transactions in order to influence the vote. Our initial stockholders, officers, directors and their affiliates could purchase sufficient shares so that the initial business combination may be approved without the majority vote of public shares held by non-affiliates. Notwithstanding the foregoing, our officers, directors, initial stockholders and their affiliates will not make purchases of shares of common stock if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act, which are rules designed to stop potential manipulation of a company's stock or purchasing shares when the buyer is in possession of material non-public information about the Company.

Conversion rights

In connection with any stockholder meeting called to approve a proposed initial business combination, each public stockholder will have the right, regardless of whether he, she or it is voting for or against such proposed business combination, to demand that we convert his, her or its public shares into a *pro rata* share of the trust account upon consummation of the business combination.

We may require public stockholders wishing to exercise conversion rights, whether they are a record holder or hold their shares in "street name," to either tender the certificates they are seeking to convert to our transfer agent or to deliver the shares they are seeking to convert to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option, at any time at or prior to the vote on the business combination. There is a nominal cost associated with this tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$45 and it would be up to the broker whether or not to pass this cost on to the converting holder. However, this fee would be incurred regardless of whether or not we require holders to deliver their shares prior to the vote on the business combination in order to exercise conversion rights. This is because a holder would need to deliver shares to exercise conversion rights regardless of the timing of when such delivery must be effectuated. However, in the event we require stockholders to deliver their shares prior to the vote on the proposed business combination and the proposed business combination is not consummated, this may result in an increased cost to stockholders.

Under Delaware law, we may be required to give a minimum of only ten days' notice for each general meeting. As a result, if we require public stockholders who wish to convert their shares of common stock into the right to receive a *pro rata* portion of the funds in the trust account to comply with the foregoing delivery requirements, holders may not have sufficient time to receive the notice and deliver their shares for conversion. Accordingly, investors may not be able to exercise their conversion rights and may be forced to retain our securities when they otherwise would not want to.

If we require public stockholders who wish to convert their shares of common stock to comply with specific delivery requirements for conversion described above and such proposed business combination is not consummated, we will promptly return such certificates to the tendering public stockholders.

Liquidation if no business combination

If we are unable to complete our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than five business days thereafter, redeem 100% of the outstanding public shares (including any public units in this offering or any public units or shares that our initial stockholders or their affiliates purchased in this offering or later acquired in the open market or in private transactions), which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably practicable following such redemption, subject to the approval of our remaining holders of common stock and our Board of Directors, proceed to commence a voluntary liquidation and thereby a formal dissolution of the Company, subject (in the case of (ii) and (iii) above) to our obligations to provide for claims of creditors and the requirements of applicable law.

In connection with our redemption of 100% of our outstanding public shares for a portion of the funds held in the trust account, each holder will receive a full pro rata portion of the amount then in the trust account, plus any pro rata interest earned on the funds held in the trust account and not necessary to pay our taxes payable on such funds. Holders of warrants will receive no proceeds in connection with the liquidation with respect to such warrants, which will expire worthless.

We may not have funds sufficient to pay or provide for all creditors' claims. Although we will seek to have all third parties (including any vendors or other entities we engage after this offering) and any prospective target businesses enter into valid and enforceable agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account, there is no guarantee that they will execute such agreements. There is also no guarantee that the third parties would not challenge the enforceability of these waivers and bring claims against the trust account for monies owed them.

The holders of the founder shares and private warrants will not participate in any redemption distribution with respect to their founder shares and private warrants, but may have any public shares redeemed upon liquidation.

If we are unable to conclude our initial business combination and we expend all of the net proceeds of this offering not deposited in the trust account, without taking into account any interest earned on the trust account, we expect that the initial per-share redemption price will be approximately \$10.00. The proceeds deposited in the trust account could, however, become subject to claims of our creditors that are in preference to the claims of our stockholders. Furthermore, our underwriters may seek recourse against the proceeds in the trust account relating to any future claims they may have against us. In addition, if we are forced to file a bankruptcy case or an involuntary bankruptcy case is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. Therefore, the actual per-share redemption price may be less than approximately \$10.00.

We will pay the costs of any subsequent liquidation from our remaining assets outside of the trust account. If such funds are insufficient, our sponsor has agreed to pay the funds necessary to complete such liquidation and has agreed not to seek repayment for such expenses. We currently do not anticipate that such funds will be insufficient.

Conflict of Interest

Mountain Wood, LLC, an affiliate of, is an affiliate of Chardan Capital Markets LLC, the representative of the underwriters in this offering, and certain of our officers and directors are affiliated with Chardan Capital Markets LLC. As a result, Chardan Capital Markets LLC is deemed to have a "conflict of interest" within the meaning of Rule 5121 of the Financial Industry Regulatory Authority ("Rule 5121").

Accordingly, this offering is being made in compliance with the applicable requirements of Rule 5121. Rule 5121 requires that a "qualified independent underwriter," as defined in Rule 5121, participate in the preparation of the registration statement and prospectus and exercise the usual standards of due diligence with respect thereto. B. Riley FBR, Inc. has agreed to act as a "qualified independent underwriter" for this offering. B. Riley FBR, Inc. will receive \$100,000 acting as a qualified independent underwriter. We have agreed to indemnify B. Riley FBR, Inc. against certain liabilities incurred in connection with acting as a "qualified independent underwriter," including liabilities under the Securities Act. In addition, no underwriter with a conflict of interest will confirm sales to any account over which it exercises discretionary authority without the specific prior written approval of the account holder.

RISKS

We are a newly formed company that has conducted no operations and has generated no revenues. Until we complete our initial business combination, we will have no operations and will generate no operating revenues. In making your decision on whether to invest in our securities, you should take into account not only the background of our management team, but also the special risks we face as a blank check company, as well as the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act, and, therefore, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see "*Proposed Business – Comparison to offerings of blank check companies subject to Rule 419.*" You should carefully consider these and the other risks set forth in the section entitled "Risk Factors" beginning on page 18 of this prospectus.

SUMMARY FINANCIAL DATA

The following table summarizes the relevant financial data for our business and should be read with our financial statements, which are included in this prospectus. We have not had any significant operations to date, so only balance sheet data are presented.

	June 30,		September 30, 2018	
	2018			
	<u>Actual</u>		<u>Actual</u>	<u>As Adjusted</u>
	<u>(Audited)</u>		<u>(Unaudited)</u>	<u>(Unaudited)</u>
Balance Sheet Data:				
Working capital (deficit)	\$ (40,570)		\$ (67,727)	\$ 70,398,325
Total assets	64,975		114,332	70,898,325
Total liabilities	41,000		91,007	500,000
Value of shares of common stock subject to possible conversion/tender	—		—	65,398,320
Stockholders' equity	23,975		23,325	5,000,005

(1) Includes the \$1,160,000 we will receive from the sale of the private warrants.

The "as adjusted" information gives effect to the sale of the units we are offering, including the application of the related gross proceeds and the payment of the estimated remaining costs from such sale and the repayment of the accrued and other liabilities required to be repaid such that we have at least \$5,000,001 of net tangible assets upon consummation of this offering and upon consummation of our initial business combination.

The "as adjusted" working capital and total assets amounts include the \$70,000,000 (without exercise of over-allotment option) to be held in the trust account, which, except for limited situations described in this prospectus, will be available to us only upon the consummation of our initial business combination within the time period described in this prospectus.

We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and a majority of the outstanding shares of common stock voted are voted in favor of the business combination (if a vote is required or being obtained).

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

We are a newly formed blank check company in the early stage with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a recently formed blank check company with no operating results, and we will not commence operations until obtaining funding through this offering and consummating our initial business combination. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning our initial business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Our independent registered public accounting firm's report contains an explanatory paragraph that expresses substantial doubt about our ability to continue as a "going concern."

As of September 30, 2018, we had \$23,280 in cash and a working capital deficit of \$67,727. Further, we have incurred and expect to continue to incur significant costs in pursuit of our acquisition plans. Management's plans to address this need for capital through this offering are discussed in the section of this prospectus titled "Management's Discussion and Analysis of Financial Condition and Results of Operations." Our plans to raise capital and to consummate our initial business combination may not be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern. The financial statements contained elsewhere in this prospectus do not include any adjustments that might result from our inability to consummate this offering or our inability to continue as a going concern.

The requirement that the target business or businesses that we acquire must collectively have a fair market value equal to at least 80% of the balance of the funds in the trust account (excluding any taxes payable) at the time of the execution of a definitive agreement for our initial business combination may limit the type and number of companies with which we may complete such a business combination.

Pursuant to the NYSE American stock exchange listing rules, the target business or businesses that we acquire must collectively have a fair market value equal to at least 80% of the balance of the funds in the trust account (excluding any taxes payable) at the time of the execution of a definitive agreement for our initial business combination. This restriction may limit the type and number of companies that we may complete a business combination with. If we are unable to locate a target business or businesses that satisfy this fair market value test, we may be forced to liquidate and you will only be entitled to receive your pro rata portion of the funds in the trust account, which may be less than \$10.00 per share.

Our public stockholders may not be afforded an opportunity to vote on our proposed business combination, which means we may consummate our initial business combination even though a majority of our public stockholders do not support such a combination.

If a stockholder vote is not required, we may conduct redemptions via a tender offer. Accordingly, we may consummate our initial business combination even if holders of a majority of our public shares do not approve the business combination.

Your only opportunity to affect the investment decision regarding a potential business combination may be limited to the exercise of your right to redeem your shares from us for cash.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of one or more target businesses. Because our board of directors may consummate our initial business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination. Accordingly, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into our initial business combination with a target.

We may enter into a transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we may not be able to meet such closing condition, and as a result, would not be able to proceed with the business combination. Furthermore, in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination. Prospective targets would be aware of these risks and, thus, may be reluctant to enter into our initial business combination transaction with us.

The ability of a large number of our stockholders to exercise redemption rights may not allow us to consummate the most desirable business combination or optimize our capital structure.

In connection with the successful consummation of our business combination, we may redeem up to that number of shares of common stock that would permit us to maintain net tangible assets of \$5,000,001. If our business combination requires us to use substantially all of our cash to pay the purchase price, the redemption threshold may be further limited. Alternatively, we may need to arrange third party financing to help fund our business combination in case a larger percentage of stockholders exercise their redemption rights than we expect. If the acquisition involves the issuance of our shares as consideration, we may be required to issue a higher percentage of our shares to the target or its stockholders to make up for the failure to satisfy a minimum cash requirement. Raising additional funds to cover any shortfall may involve dilutive equity financing or incurring indebtedness at higher than desirable levels. This may limit our ability to effectuate the most attractive business combination available to us.

The requirement that we maintain a minimum net worth or retain a certain amount of cash could increase the probability that we cannot consummate our business combination and that you would have to wait for liquidation in order to redeem your shares.

If, pursuant to the terms of our proposed business combination, we are required to maintain a minimum net worth or retain a certain amount of cash in trust in order to consummate the business combination and regardless of whether we proceed with redemptions under the tender offer or proxy rules, the probability that we cannot consummate our business combination is increased. If we do not consummate our business combination, you would not receive your pro rata portion of the trust account until we liquidate. If you are in need of immediate liquidity, you could attempt to sell your shares in the open market; however, at such time our shares may trade at a discount to the pro rata amount in our trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your shares in the open market.

The requirement that we complete our initial business combination within 24 months from the closing of this offering may give potential target businesses leverage over us in negotiating our initial business combination.

Any potential target business with which we enter into negotiations concerning our initial business combination will be aware that we must consummate our initial business combination within 24 months from the closing of this offering. Consequently, such target businesses may obtain leverage over us in negotiating our initial business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the timeframe described above. In addition, we may have limited time to conduct due diligence and may enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to consummate our initial business combination within the required time period, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate.

Our sponsor, officers and directors have agreed that we must complete our initial business combination within 24 months from the closing of this offering. We may not be able to find a suitable target business and consummate our initial business combination within such time period. If we are unable to consummate our initial business combination within the required time period, we will, as promptly as reasonably possible but not more than five business days thereafter (subject to our certificate of incorporation and Delaware law), distribute the aggregate amount then on deposit in the trust account (net of taxes payable), pro rata to our public stockholders by way of redemption and cease all operations except for the purposes of winding up of our affairs, as further described herein. This redemption of public stockholders from the trust account shall be effected as required by function of our certificate of incorporation and prior to any voluntary winding up.

If we seek stockholder approval of our business combination, our sponsor, directors, officers, advisors and their affiliates may elect to purchase shares from stockholders, in which case they may influence a vote in favor of a proposed business combination that you do not support.

If we seek stockholder approval of our business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our sponsor, directors, officers, advisors or their affiliates may purchase shares in privately negotiated transactions either prior to or following the consummation of our initial business combination. Such purchases will not be made if our sponsor, directors, officers, advisors or their affiliates are in possession of any material non-public information that has not been disclosed to the selling stockholder. Such a purchase would include a contractual acknowledgement that such stockholder, although still the record holder of our shares is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsor, directors, officers, advisors or their affiliates purchase shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling stockholders would be required to revoke their prior elections to redeem their shares. It is intended that, if Rule 10b-18 would apply to purchases by our sponsor, directors, officers, advisors or their affiliates, then such purchases will comply with Rule 10b-18 under the Exchange Act, to the extent it applies, which provides a safe harbor for purchases made under certain conditions, including with respect to timing, pricing and volume of purchases.

The purpose of such purchases would be to (1) increase the likelihood of obtaining stockholder approval of the business combination or (2) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of the business combination, where it appears that such requirement would otherwise not be met. This may result in the consummation of an initial business combination that may not otherwise have been possible.

Purchases of shares of common stock in the open market or in privately negotiated transactions by our sponsor, directors, officers, advisors or their affiliates may make it difficult for us to maintain the listing of our shares on a national securities exchange following the consummation of an initial business combination.

If our sponsor, directors, officers, advisors or their affiliates purchase shares of common stock in the open market or in privately negotiated transactions, the public “float” of our shares of common stock and the number of beneficial holders of our securities would both be reduced, possibly making it difficult to maintain the listing or trading of our securities on a national securities exchange following consummation of the business combination.

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares, potentially at a loss.

Our public stockholders shall be entitled to receive funds from the trust account only in the event of a redemption to public stockholders prior to any winding up in the event we do not consummate our initial business combination or our liquidation, if they redeem their shares in connection with an initial business combination that we consummate or if we seek to amend our certificate of incorporation to affect the substance or timing of our redemption obligation to redeem all public shares if we cannot complete an initial business combination within 24 months of the closing of this offering. In no other circumstances will a stockholder have any right or interest of any kind to the funds in the trust account. Accordingly, to liquidate your investment, you may be forced to sell your public shares, potentially at a loss.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Because the net proceeds of this offering are intended to be used to complete our initial business combination with a target business that has not been identified, we may be deemed to be a “blank check” company under the United States securities laws. However, because we will have net tangible assets in excess of \$5,000,000 upon the successful consummation of this offering and will expect to file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, offerings subject to Rule 419 would prohibit the release of any interest earned on funds held in the trust account to us. For a more detailed comparison of our offering to offerings that comply with Rule 419, please see “Proposed Business — Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419.”

If we seek stockholder approval of our business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 20% of our shares of common stock, you will lose the ability to redeem all such shares in excess of 20% of our shares of common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our business combination pursuant to the tender offer rules, our certificate of incorporation provides that a public stockholder, individually or together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from seeking redemption rights with respect to more than an aggregate of 20% of the shares sold in this offering. Your inability to redeem more than an aggregate of 20% of the shares sold in this offering will reduce your influence over our ability to consummate our initial business combination and you could suffer a material loss on your investment in us if you sell such excess shares in open market transactions. As a result, you will continue to hold that number of shares exceeding 20% and, in order to dispose of such shares, you would be required to sell your shares in open market transaction, potentially at a loss.

If the net proceeds of this offering not being held in the trust account are insufficient to allow us to operate for at least the next 24 months, we may be unable to complete our initial business combination.

The funds available to us outside of the trust account may not be sufficient to allow us to operate for at least the next 24 months, assuming that our initial business combination is not consummated during that time. Of the funds available to us, we could use a portion of the funds available to us to pay fees to consultants to assist us with our search for a target business. We could also use a portion of the funds as a down payment or to fund a “no-shop” provision (a provision in letters of intent designed to keep target businesses from “shopping” around for transactions with other companies on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we are unable to fund such down payments or “no shop” provisions, our ability to close a contemplated transaction could be impaired. Furthermore, if we entered into a letter of intent where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a target business. If we are unable to complete our initial business combination, our public stockholders may only receive a pro rata portion of the amount then in the trust account (which may be less than \$10.00 per share) (whether or not the underwriters’ over-allotment option is exercised in full) on our redemption, and our warrants will expire worthless.

Subsequent to our consummation of our initial business combination, we may be required to take write-downs or write-offs, restructuring and impairment or other charges.

Even if we conduct thorough due diligence on a target business with which we combine, this diligence may not surface all material issues that may be present inside a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target business or by virtue of our obtaining post-combination debt financing.

Our directors may decide not to enforce indemnification obligations against Chardan Investments, LLC, our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below \$10.00 per share (whether or not the underwriters’ overallotment option is exercised in full) and Chardan Investments, LLC, our sponsor, asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine on our behalf whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in any particular instance. If our independent directors choose not to enforce these indemnification obligations on our behalf, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including restrictions on the nature of our investments and restrictions on the issuance of securities, each of which may make it difficult for us to complete our initial business combination. In addition, we may have imposed upon us burdensome requirements, including registration as an investment company, adoption of a specific form of corporate structure and reporting, record keeping, voting, proxy and disclosure requirements and other rules and regulations.

If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to consummate our initial business combination.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, investments and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments, in particular, the Securities Exchange and Commission, or the "SEC". Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application also may change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business and results of operations.

If we are unable to consummate our initial business combination, our public stockholders may be forced to wait up to 24 months or longer before redemption from our trust account.

If we are unable to consummate our initial business combination within 24 months from the closing of this offering, we will, as promptly as reasonably possible but not more than five business days thereafter (subject to our certificate of incorporation and applicable law), distribute the aggregate amount then on deposit in the trust account (net of taxes payable), pro rata to our public stockholders by way of redemption and cease all operations except for the purposes of winding up of our affairs by way of a voluntary liquidation, as further described herein. Any redemption of public stockholders from the trust account shall be effected as required by our certificate of incorporation prior to our commencing any voluntary liquidation. Except as otherwise described herein, we have no obligation to return funds to investors prior to the date of any redemption required as a result of our failure to consummate our initial business combination within the period described above or our liquidation, unless we consummate our initial business combination prior thereto and only then in cases where investors have sought to redeem their shares of common stock. Only upon any such redemption of public shares as we are required to effect or any liquidation will public stockholders be entitled to distributions if we are unable to complete our initial business combination.

The grant of registration rights to our initial stockholders may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our shares of common stock.

Pursuant to an agreement to be entered into on the date of this prospectus, our initial stockholders, our sponsor (and/or our sponsor's designees) and their permitted transferees can demand that we register the founder shares, the private warrants, the underlying securities and any securities issued upon conversion of working capital loans. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our shares of common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to conclude. This is because the stockholder of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our shares of common stock that is expected when the securities owned by our sponsor, holders of our private units or their respective permitted transferees are registered.

Because we have not selected a particular business or specific geographic location or any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business' operations.

Although we have a stated focus on certain target businesses in a specific geographic location as indicated elsewhere in this prospectus, we may pursue acquisition opportunities in any geographic region, but may rely upon our management team's background. While we may pursue an acquisition opportunity in any business industry or sector, we intend to initially focus on those industries or sectors that complement our management team's background. Except for the limitations that a target business have a fair market value of at least 80% of the value of the trust account (excluding any taxes payable) and that we are not permitted to effectuate our initial business combination with another blank check company or similar company with nominal operations, we will have virtually unrestricted flexibility in identifying and selecting a prospective acquisition candidate. Because we have not yet identified or approached any specific target business with respect to our initial business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we consummate our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. In addition, investors will be relying on the business judgment of our board of directors, which will have significant discretion in choosing the standard used to establish the fair market value of a particular target business. An investment in our units may not ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in an acquisition target.

We may seek investment opportunities outside our management's area of expertise and our management may not be able to adequately ascertain or assess all significant risks associated with the target company.

There is no limitation on the industry or business sector we may consider when contemplating our initial business combination. We may therefore be presented with a business combination candidate in an industry unfamiliar to our management team, but determine that such candidate offers an attractive investment opportunity for our company. In the event we elect to pursue an investment outside of our management's expertise, our management's experience may not be directly applicable to the target business or their evaluation of its operations.

Although we identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified specific criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we consummate our initial business combination with a target that does not meet some or all of these guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce our initial business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by law or the NYSE American stock exchange, or we decide to obtain stockholder approval for business or other legal reasons, it may be more difficult for us to attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or even less (whether or not the underwriters' over-allotment option is exercised in full) on our redemption, and our warrants will expire worthless.

Management's flexibility in identifying and selecting a prospective acquisition candidate, along with our management's financial interest in consummating our initial business combination, may lead management to enter into an acquisition agreement that is not in the best interest of our stockholders.

Subject to the requirement that our initial business combination must be with one or more target businesses or assets having an aggregate fair market value of at least 80% of the value of the trust account (excluding any taxes payable) at the time of the agreement to enter into such initial business combination, we will have virtually unrestricted flexibility in identifying and selecting a prospective acquisition candidate. Investors will be relying on management's ability to identify business combinations, evaluate their merits, conduct or monitor diligence and conduct negotiations. Management's flexibility in identifying and selecting a prospective acquisition candidate, along with management's financial interest in consummating our initial business combination, may lead management to enter into an acquisition agreement that is not in the best interest of our stockholders, which would be the case if the trading price of our shares of common stock after giving effect to such business combination was less than the per-share trust liquidation value that our stockholders would have received if we had dissolved without consummating our initial business combination.

We are not required to obtain an opinion from an independent investment banking firm, and consequently, an independent source may not confirm that the price we are paying for the business is fair to our stockholders from a financial point of view.

Unless we consummate our initial business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking firm that the price we are paying is fair to our stockholders from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our tender offer documents or proxy solicitation materials, as applicable, related to our initial business combination.

Resources could be wasted in researching acquisitions that are not consummated.

We anticipate that the investigation of each specific target business and the negotiation, drafting, and execution of relevant agreements, disclosure documents, and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to consummate our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or even less (whether or not the underwriters' over-allotment option is exercised in full) on our redemption, and our warrants will expire worthless.

Our ability to successfully effect our initial business combination and to be successful thereafter will be largely dependent upon the efforts of our officers, directors and key personnel, some of whom may join us following our initial business combination.

Our operations are dependent upon a relatively small group of individuals and, in particular, our officers and directors. We believe that our success depends on the continued service of our officers and directors, at least until we have consummated our initial business combination. In addition, our officers and directors are not required to commit any specified amount of time to our affairs and, accordingly, will have conflicts of interest in allocating management time among various business activities, including identifying potential business combinations and monitoring the related due diligence. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or officers. The unexpected loss of the services of one or more of our directors or officers could have a detrimental effect on us.

The role of such persons in the target business, however, cannot presently be ascertained. Although some of such persons may remain with the target business in senior management or advisory positions following our initial business combination, it is likely that some or all of the management of the target business will remain in place. While we intend to closely scrutinize any individuals we engage after our initial business combination, our assessment of these individuals may not prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether a particular business combination is the most advantageous.

Our key personnel may be able to remain with us after the consummation of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the consummation of the business combination. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the consummation of our initial business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination. There is no certainty, however, that any of our key personnel will remain with us after the consummation of our initial business combination. Our key personnel may not remain in senior management or advisory positions with us. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effectuate our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business' management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted.

The officers and directors of an acquisition candidate may resign upon consummation of our initial business combination. The loss of an acquisition target's key personnel could negatively impact the operations and profitability of our post-combination business.

The role of an acquisition candidate's key personnel upon the consummation of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that some members of the management team of an acquisition candidate will not wish to remain in place.

Certain of our officers and directors are affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in allocating their time and determining to which entity a particular business opportunity should be presented.

Following the completion of this offering and until we consummate our business combination, we intend to engage in the business of identifying and combining with one or more businesses. Certain of our executive officers and directors are affiliated with entities that are engaged in a similar business.

Our officers may become aware of business opportunities which may be appropriate for presentation to us and the other entities to which they owe certain fiduciary duties. Accordingly, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented.

For example, some of our officers and directors are affiliated with Chardan Capital Markets LLC, which is also our sponsor and the underwriter in this offering. Such officers and directors owe a pre-existing fiduciary duty to Chardan Capital Markets LLC, meaning that they will present opportunities to Chardan Capital Markets LLC prior to presenting them to us, if, for example, a potential target company is open to either raising funds in an offering or engaging in a transaction with a SPAC. This may limit the number of potential targets they present to us for purposes of completing a business combination.

Any conflict of interest may not be resolved in our favor and potential target businesses may be presented to another entity prior to its presentation to us.

Certain shares beneficially owned by our officers and directors will not participate in liquidation distributions and, therefore, our officers and directors may have a conflict of interest in determining whether a particular target business is appropriate for our initial business combination.

Our officers and directors have waived their right to redeem any shares in connection with our initial business combination, or to receive distributions with respect to their founder shares upon our liquidation if we are unable to consummate our initial business combination. Accordingly, these securities will be worthless if we do not consummate our initial business combination. Any warrants they hold, like those held by the public, will also be worthless if we do not consummate an initial business combination. The personal and financial interests of our directors and officers may influence their motivation in timely identifying and selecting a target business and completing a business combination. Consequently, our directors' and officers' discretion in identifying and selecting a suitable target business may result in a conflict of interest when determining whether the terms, conditions and timing of a particular business combination are appropriate and in our stockholders' best interest.

We may engage in our initial business combination with one or more target businesses that have relationships with entities that may be affiliated with our executive officers, directors or existing holders, which may raise potential conflicts of interest.

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In light of the involvement of our sponsor, officers and directors with other entities, we may decide to acquire one or more businesses affiliated with our sponsor, officers and directors. Our directors also serve as officers and board members for other entities. Our sponsor, officers and directors are not currently aware of any specific opportunities for us to consummate our initial business combination with any entities with which they are affiliated, and there have been no preliminary discussions concerning a business combination with any entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for our initial business combination as set forth in "Proposed Business — Effecting our initial business combination — Selection of a target business and structuring of our initial business combination" and such transaction was approved by a majority of our disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm, or another independent entity that commonly renders valuation opinions on the type of target business we seek to acquire, regarding the fairness to our stockholders from a financial point of view of a business combination with one or more domestic or international businesses affiliated with our executive officers, directors or existing holders, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest. Our directors have a fiduciary duty to act in the best interests of our stockholders, whether or not a conflict of interest may exist.

Because our sponsor will lose its entire initial investment in us if our initial business combination is not consummated and our officers and directors have significant financial interests in us, a conflict of interest may arise in determining whether a particular acquisition target is appropriate for our initial business combination.

In March 2018, our sponsor purchased an aggregate of 1,437,500 shares for an aggregate purchase price of \$25,000. On September 14, 2018, we effected a 4 for 1 dividend in the nature of a stock split that resulted in there being an aggregate of 2,012,500 shares outstanding (resulting in a purchase price of approximately \$0.012 per share). The founder shares will be worthless if we do not consummate an initial business combination. In addition, our sponsor has agreed that it or its designees will purchase an aggregate of 2,900,000 private warrants at a price of \$0.40 per private warrant, for an aggregate purchase price of \$1,160,000 that will also be worthless if we do not consummate our initial business combination.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete our initial business combination, which may adversely affect our financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt, we may choose to incur substantial debt to complete our initial business combination. If we incur any indebtedness without a waiver from the lender of any right, title, interest or claim of any kind in or to any monies held in the trust account, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after our initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand;
- our inability to obtain necessary additional financing if the debt security contains covenants restricting our ability to obtain such financing while the debt security is outstanding;
- our inability to pay dividends on our shares of common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our shares of common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering, which will cause us to be solely dependent on a single business, which may have a limited number of products or services. This lack of diversification may negatively impact our operations and profitability.

The net proceeds from this offering together with the funds we will receive from the sale of the private warrants (excluding \$875,000 of net proceeds that will not be held in the trust account) will provide us with approximately \$70,000,000 (or approximately \$80,500,000 if the underwriters' over-allotment option is exercised in full) that we may use to complete our initial business combination.

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By consummating our initial business combination with only a single entity, our lack of diversification may subject us to numerous economic, competitive and regulatory developments. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities, which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be solely dependent upon the performance of a single business, property or asset, or dependent upon the development or market acceptance of a single or limited number of products or services. This lack of diversification may subject us to numerous economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously consummate business combinations with multiple prospective targets, which may hinder our ability to consummate our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete the initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to consummate our initial business combination with a private company about which little information is available.

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. By definition, very little public information exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in our initial business combination with a company that is not as profitable as we suspected, if at all.

We may not be able to maintain control of a target business after our initial business combination.

We may structure our initial business combination to acquire less than 100% of the equity interests or assets of a target business, but we will only consummate such business combination if we will become the majority stockholder of the target (or control the target through contractual arrangements in limited circumstances for regulatory compliance purposes) or are otherwise not required to register as an investment company under the Investment Company Act or to the extent permitted by law we may acquire interests in a variable interest entity, in which we may have less than a majority of the voting rights in such entity, but in which we are the primary beneficiary. Even though we may own a majority interest in the target, our stockholders prior to the business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that we will not be able to maintain our control of the target business.

Holders of warrants will not participate in liquidating distributions if we are unable to complete an initial business combination within the required time period.

If we are unable to complete an initial business combination within the required time period and we liquidate the funds held in the trust account, the warrants will expire and holders will not receive any of such proceeds with respect to the warrants. The foregoing may provide a financial incentive to public stockholders to vote in favor of any proposed initial business combination as each of their warrants would entitle the holder to receive or purchase additional shares of common stock, resulting in an increase in their overall economic stake in us. If a business combination is not approved, the warrants will expire and will be worthless.

If we do not maintain a current and effective prospectus relating to the shares of common stock issuable upon exercise of the warrants, public holders will only be able to exercise such warrants on a “cashless basis” which would result in a fewer number of shares being issued to the holder had such holder exercised the warrants for cash.

If we do not maintain a current and effective prospectus relating to the shares of common stock issuable upon exercise of the public warrants at the time that holders wish to exercise such warrants, they will only be able to exercise them on a “cashless basis” provided that an exemption from registration is available. As a result, the number of shares of common stock that a holder will receive upon exercise of its public warrants will be fewer than it would have been had such holder exercised its warrant for cash. Further, if an exemption from registration is not available, holders would not be able to exercise their warrants on a cashless basis and would only be able to exercise their warrants for cash if a current and effective prospectus relating to the shares of common stock issuable upon exercise of the warrants is available. Under the terms of the warrant agreement, we have agreed to use our best efforts to meet these conditions and to maintain a current and effective prospectus relating to the shares of common stock issuable upon exercise of the warrants until the expiration of the warrants. However, we cannot assure you that we will be able to do so. If we are unable to do so, the potential “upside” of the holder’s investment in us may be reduced or the warrants may expire worthless. Notwithstanding the foregoing, the private warrants may be exercisable for unregistered shares of common stock for cash even if the prospectus relating to the shares of common stock issuable upon exercise of the warrants is not current and effective.

An investor will only be able to exercise a warrant for cash if the issuance of common stock upon such exercise has been registered or qualified or is deemed exempt under the securities laws of the state of residence of the holder of the warrants.

No public warrants will be exercisable for cash and we will not be obligated to issue shares of common stock unless the shares of common stock issuable upon such exercise has been registered or qualified or deemed to be exempt under the securities laws of the state of residence of the holder of the warrants. At the time that the warrants become exercisable, we expect to continue to be listed on a national securities exchange, which would provide an exemption from registration in every state. However, we cannot assure you of this fact. If the common shares issuable upon exercise of the warrants are not qualified or exempt from qualification in the jurisdictions in which the holders of the warrants reside, the warrants may be deprived of any value, the market for the warrants may be limited and they may expire worthless if they cannot be sold.

Our management's ability to require holders of our warrants to exercise such warrants on a cashless basis will cause holders to receive fewer shares of common stock upon their exercise of the warrants than they would have received had they been able to exercise their warrants for cash.

If we call our public warrants for redemption after the redemption criteria described elsewhere in this prospectus have been satisfied, our management will have the option to require any holder that wishes to exercise his warrant (including any warrants held by our sponsor and/or its permitted transferees) to do so on a "cashless basis." If our management chooses to require holders to exercise their warrants on a cashless basis, the number of shares of common stock received by a holder upon exercise will be fewer than it would have been had such holder exercised his warrant for cash. This will have the effect of reducing the potential "upside" of the holder's investment in our company.

We may amend the terms of the warrants in a way that may be adverse to holders with the approval by the holders of a majority of the then outstanding warrants.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision. The warrant agreement requires the approval by the holders of a majority of the then outstanding warrants (including the private warrants) in order to make any change that adversely affects the interests of the registered holders.

We have no obligation to net cash settle the warrants.

In no event will we have any obligation to net cash settle the warrants. Accordingly, the warrants may expire worthless.

The ability of our public stockholders to exercise their redemption rights may not allow us to effectuate the most desirable business combination or optimize our capital structure.

If our initial business combination requires us to use substantially all of our cash to pay the purchase price, because we will not know how many public stockholders may exercise redemption rights, we may either need to reserve part of the trust account for possible payment upon such redemption, or we may need to arrange third party financing to help fund our initial business combination. In the event that the acquisition involves the issuance of our stock as consideration, we may be required to issue a higher percentage of our stock to make up for a shortfall in funds. Raising additional funds to cover any shortfall may involve dilutive equity financing or incurring indebtedness at higher than desirable levels. This may limit our ability to effectuate the most attractive business combination available to us.

In connection with any meeting held to approve an initial business combination, we will offer each public stockholder the option to vote in favor of the proposed business combination and still seek redemption of his, her or its shares.

In connection with any meeting held to approve an initial business combination, we will offer each public stockholder (but not our initial stockholders, officers or directors) the right to have his, her or its shares of common stock redeemed for cash (subject to the limitations described elsewhere in this prospectus) regardless of whether such stockholder votes for or against such proposed business combination; provided that a stockholder must in fact vote for or against a proposed business combination in order to have his, her or its shares of common stock redeemed for cash. If a stockholder fails to vote for or against a proposed business combination, that stockholder would not be able to have his shares of common stock so redeemed. We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and a majority of the outstanding shares of common stock voted are voted in favor of the business combination. This is different than other similarly structured blank check companies where stockholders are offered the right to redeem their shares only when they vote against a proposed business combination. This threshold and the ability to seek redemption while voting in favor of a proposed business combination may make it more likely that we will consummate our initial business combination.

A public stockholder who fails to vote either in favor of or against a proposed business combination will not be able to have his shares redeemed for cash.

In order for a public stockholder to have his shares redeemed for cash in connection with any proposed business combination, that public stockholder must vote either in favor of or against a proposed business combination. If a public stockholder fails to vote in favor of or against a proposed business combination, whether that stockholder abstains from the vote or simply does not vote, that stockholder would not be able to have his shares of common stock so redeemed to cash in connection with such business combination.

We will require public stockholders who wish to redeem their shares of common stock in connection with a proposed business combination or amendment to our certificate of incorporation to effect the substance or timing of their redemption obligation if we fail to timely complete a business combination to comply with specific requirements for redemption that may make it more difficult for them to exercise their redemption rights prior to the deadline for exercising their rights.

We will require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the expiration date set forth in the tender offer documents mailed to such holders, or in the event we distribute proxy materials, up to two business days prior to the vote on the proposal to approve the business combination or amendment to our certificate of incorporation to affect the substance or timing of our redemption obligation to redeem all public shares if we cannot complete an initial business combination, or to deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option. In order to obtain a physical stock certificate, a stockholder's broker and/or clearing broker, DTC and our transfer agent will need to act to facilitate this request. It is our understanding that stockholders should generally allot at least two weeks to obtain physical certificates from the transfer agent. However, because we do not have any control over this process or over the brokers or DTC, it may take significantly longer than two weeks to obtain a physical stock certificate. While we have been advised that it takes a short time to deliver shares through the DWAC System, this may not be the case. Under our certificate of incorporation, we are required to provide at least 10 days advance notice of any stockholder meeting, which would be the minimum amount of time a stockholder would have to determine whether to exercise redemption rights. Accordingly, if it takes longer than we anticipate for stockholders to deliver their shares, stockholders who wish to redeem may be unable to meet the deadline for exercising their redemption rights and thus may be unable to redeem their shares.

Redeeming stockholders may be unable to sell their securities when they wish to in the event that the proposed business combination is not approved.

We will require public stockholders who wish to redeem their shares of common stock in connection with any proposed business combination to comply with the delivery requirements discussed above for redemption. If such proposed business combination is not consummated, we will promptly return such certificates to the tendering public stockholders. Accordingly, investors who attempted to redeem their shares in such a circumstance will be unable to sell their securities after the failed acquisition until we have returned their securities to them. The market price for our shares of common stock may decline during this time and you may not be able to sell your securities when you wish, even while other stockholders that did not seek redemption may be able to sell their securities.

Because of our structure, other companies may have a competitive advantage and we may not be able to consummate an attractive business combination.

We expect to encounter intense competition from entities other than blank check companies having a business objective similar to ours, including venture capital funds, leveraged buyout funds and operating businesses competing for acquisitions. Many of these entities are well established and have extensive experience in identifying and effecting business combinations directly or through affiliates. Many of these competitors possess greater technical, human and other resources than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. Therefore, our ability to compete in acquiring certain sizable target businesses may be limited by our available financial resources. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, seeking stockholder approval of our initial business combination may delay the consummation of a transaction. Additionally, our rights, and the future dilution they represent (entitling the holders to receive shares of common stock on consummation of our initial business combination), may not be viewed favorably by certain target businesses. Any of the foregoing may place us at a competitive disadvantage in successfully negotiating our initial business combination.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or even less (whether or not the underwriters' over-allotment option is exercised in full) on our redemption, and the warrants will expire worthless.

Although we believe that the net proceeds of this offering will be sufficient to allow us to consummate our initial business combination, because we have not yet identified any prospective target business we cannot ascertain the capital requirements for any particular transaction or our costs to operate or locate a transaction. If the net proceeds of this offering prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to repurchase for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. Financing may not be available on acceptable terms, if at all. The current economic environment has made it especially difficult for companies to obtain acquisition financing. To the extent that additional financing proves to be unavailable when needed to consummate our initial business combination, we would be compelled to either restructure the transaction or abandon that particular initial business combination and seek an alternative target business candidate. If we are unable to complete our initial business combination, our public stockholders may only receive \$10.00 per share or even less (whether or not the underwriters' over-allotment option is exercised in full) on our redemption, and the warrants will expire worthless. In addition, even if we do not need additional financing to consummate our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination.

Our sponsor controls a substantial interest in us and thus may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon closing of this offering, our initial stockholders and our sponsor (and/its designees) collectively will own 20% of our issued and outstanding shares of common stock (assuming they do not purchase any units in this offering). Accordingly, they may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our certificate of incorporation. If our sponsor purchases any units in this offering or if we or our sponsor purchase any additional shares of common stock in the aftermarket or in privately negotiated transactions, this would increase their control. Neither our sponsor nor, to our knowledge, any of our officers or directors, has any current intention to purchase additional securities. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our shares of common stock.

Our initial stockholders paid an aggregate of \$25,000, or approximately \$0.012 per founder share and, accordingly, you will experience immediate and substantial dilution from the purchase of our shares of common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the shares of common stock included in the unit and none to the warrants included in the unit) and the pro forma net tangible book value per share after this offering constitutes the dilution to you and the other investors in this offering. Our initial stockholders acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon closing of this offering, you and the other public stockholders will incur an immediate and substantial dilution of approximately 77.4% or \$7.74 per share (the difference between the pro forma net tangible book value per share of \$2.26 and the initial offering price of \$10.00 per share immediately upon the closing of this offering), or approximately 79.8% dilution or \$7.98 per share (the difference between the pro forma net tangible book value per share of \$2.02 and the initial offering price of \$10.00 per share) if the over-allotment is fully exercised.

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters, both prior to our inception and thereafter, with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the shares of common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

As of the date of this prospectus there is currently no market for our securities. Prospective stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions. Once listed on the NYSE American stock exchange, an active trading market for our securities may never develop or, if developed, it may not be sustained. Additionally, if our securities become delisted from the NYSE American for any reason, and are quoted on the OTC Bulletin Board, an inter-dealer automated quotation system for equity securities not listed on a national exchange, the liquidity and price of our securities may be more limited than if we were listed on the NYSE American or another national exchange. You may be unable to sell your securities unless a market can be established and sustained.

Once initially listed on the NYSE American stock exchange, our securities may not continue to be listed on the NYSE American in the future, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

Our securities will be initially listed on the NYSE American upon consummation of this offering. However, we cannot assure you of this or that our securities will continue to be listed on the NYSE American in the future. Additionally, in connection with our business combination, the NYSE American may require us to file a new initial listing application and meet its initial listing requirements as opposed to its more lenient continued listing requirements. We cannot assure you that we will be able to meet those initial listing requirements at that time. If the NYSE American delists our securities from trading on its exchange, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- a reduced liquidity with respect to our securities;
- a determination that our shares of common stock are a "penny stock" which will require brokers trading in our shares of common stock to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for our shares of common stock;
- a limited amount of news and analyst coverage for our company; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

Because we must furnish our stockholders with target business financial statements prepared in accordance with U.S. generally accepted accounting principles or international financial reporting standards, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules, which require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards, or IFRS as issued by the International Accounting Standards Board or the IASB, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. We will include the substantially the same financial statement disclosure in connection with any tender offer documents we use, whether or not they are required under the tender offer rules. These financial statement requirements may limit the pool of potential target businesses we may consummate our initial business combination with because some targets may be unable to provide such statements in time for us to disclose such statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

Compliance obligations under the Sarbanes-Oxley Act of 2002 may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending June 30, 2020. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to all public companies because a target company with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

We are an “emerging growth company” and we cannot be certain if the reduced disclosure requirements applicable to emerging growth companies will make our securities less attractive to investors.

We are an “emerging growth company,” as defined in the JOBS Act. We will remain an “emerging growth company” for up to five years. However, if our non-convertible debt issued within a three-year period or revenues exceeds \$1.07 billion, or the market value of our shares of common stock that are held by non-affiliates exceeds \$700 million on the last day of the second fiscal quarter of any given fiscal year, we would cease to be an emerging growth company as of the following fiscal year. As an emerging growth company, we are not being required to comply with the auditor attestation requirements of section 404 of the Sarbanes-Oxley Act, we have reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and we are exempt from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. Additionally, as an emerging growth company, we have elected to delay the adoption of new or revised accounting standards that have different effective dates for public and private companies until those standards apply to private companies. As such, our financial statements may not be comparable to companies that comply with public company effective dates. We cannot predict if investors will find our shares less attractive because we may rely on these provisions. If some investors find our shares less attractive as a result, there may be a less active trading market for our shares and our share price may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such an election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, will not adopt the new or revised standard until the time private companies are required to adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accountant standards used.

Risks Associated with Acquiring and Operating a Business outside of the United States

We may effect our initial business combination with a company located outside of the United States.

If we effect our initial business combination with a company located outside of the United States, we would be subject to any special considerations or risks associated with companies operating in the target business’ home jurisdiction, including any of the following:

- rules and regulations or currency redemption or corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- exchange listing and/or delisting requirements;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- longer payment cycles;

- tax issues, such as tax law changes and variations in tax laws as compared to the United States;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- crime, strikes, riots, civil disturbances, terrorist attacks and wars; and
- deterioration of political relations with the United States. We may not be able to adequately address these additional risks. If we were unable to do so, our operations might suffer.

There are costs and difficulties inherent in managing cross-border business operations.

Managing a business, operations, personnel or assets in another country is challenging and costly. Any management that we may have (whether based abroad or in the United States) may be inexperienced in cross-border business practices and unaware of significant differences in accounting rules, legal regimes and labor practices. Even with a seasoned and experienced management team, the costs and difficulties inherent in managing cross-border business operations, personnel and assets can be significant (and much higher than in a purely domestic business) and may negatively impact our financial and operational performance.

Social unrest, acts of terrorism, regime changes, changes in laws and regulations, political upheaval, or policy changes or enactments may occur in a country in which we may operate after we effect our initial business combination.

Political events in another country may significantly affect our business, assets or operations. Social unrest, acts of terrorism, regime changes, changes in laws and regulations, political upheaval, and policy changes or enactments could negatively impact our business in a particular country.

Many countries have difficult and unpredictable legal systems and underdeveloped laws and regulations that are unclear and subject to corruption and inexperience.

Our ability to seek and enforce legal protections, including with respect to intellectual property and other property rights, or to defend ourselves with regard to legal actions taken against us in a given country, may be difficult or impossible, which could adversely impact our operations, assets or financial condition.

Rules and regulations in many countries are often ambiguous or open to differing interpretation by responsible individuals and agencies at the municipal, state, regional and federal levels. The attitudes and actions of such individuals and agencies are often difficult to predict and inconsistent.

Delay with respect to the enforcement of particular rules and regulations, including those relating to customs, tax, environmental and labor, could cause serious disruption to operations abroad and negatively impact our results.

If relations between the United States and foreign governments deteriorate, it could cause potential target businesses or their goods and services to become less attractive.

The relationship between the United States and foreign governments could be subject to sudden fluctuation and periodic tension. For instance, the United States may announce its intention to impose quotas on certain imports. Such import quotas may adversely affect political relations between the two countries and result in retaliatory countermeasures by the foreign government in industries that may affect our ultimate target business. Changes in political conditions in foreign countries and changes in the state of U.S. relations with such countries are difficult to predict and could adversely affect our operations or cause potential target businesses or their goods and services to become less attractive. Because we are not limited to any specific industry, there is no basis for investors in this offering to evaluate the possible extent of any impact on our ultimate operations if relations are strained between the United States and a foreign country in which we acquire a target business or move our principal manufacturing or service operations.

If our management following our initial business combination is unfamiliar with United States securities laws, they may have to expend time and resources becoming familiar with such laws.

Following our initial business combination, our management may resign from their positions as officers or directors of the company and the management of the target business at the time of the business combination will remain in place. Management of the target business may not be familiar with United States securities laws. If new management is unfamiliar with our laws, they may have to expend time and resources becoming familiar with such laws. This could be expensive and time-consuming and could lead to various regulatory issues, which may adversely affect our operations.

Currency policies may cause a target business' ability to succeed in the international markets to be diminished.

In the event we acquire a non-U.S. target, all revenues and income would likely be received in a foreign currency, the dollar equivalent of our net assets and distributions, if any, could be adversely affected by reductions in the value of the local currency. The value of the currencies in our target regions fluctuate and are affected by, among other things, changes in political and economic conditions. Any change in the relative value of such currency against our reporting currency may affect the attractiveness of any target business or, following consummation of our initial business combination, our financial condition and results of operations. Additionally, if a currency appreciates in value against the dollar prior to the consummation of our initial business combination, the cost of a target business as measured in dollars will increase, which may make it less likely that we are able to consummate such transaction.

Because foreign law could govern our material agreements, we may not be able to enforce our rights within such jurisdiction or elsewhere.

Foreign law could govern our material agreements. The target business may not be able to enforce any of its material agreements or that remedies will be available outside of such foreign jurisdiction's legal system. The system of laws and the enforcement of existing laws and contracts in such jurisdiction may not be as certain in implementation and interpretation as in the United States. The judiciaries in certain foreign countries may be relatively inexperienced in enforcing corporate and commercial law, leading to a higher than usual degree of uncertainty as to the outcome of any litigation, any such jurisdictions may not favor outsiders or could be corrupt. As a result, the inability to enforce or obtain a remedy under any of our future agreements could result in a significant loss of business and business opportunities.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this prospectus, which reflect our current views with respect to future events and financial performance, and any other statements of a future or forward-looking nature, constitute “forward-looking statements” for the purpose of the federal securities laws. Our forward-looking statements include, but are not limited to, statements regarding our or our management’s expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words “anticipate,” “believe,” “continue,” “could,” “estimate,” “expect,” “intends,” “may,” “might,” “plan,” “possible,” “potential,” “predict,” “project,” “should,” “will,” “would” and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to complete our initial business combination;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination, as a result of which they would then receive expense reimbursements;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses;
- the ability of our officers and directors to generate a number of potential investment opportunities;
- the delisting of our securities from the NYSE American stock exchange or an inability to have our securities listed on the NYSE American following a business combination;
- our public securities’ potential liquidity and trading;
- the lack of a market for our securities; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. Future developments affecting us may not be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading “Risk Factors” beginning on page 18. Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

USE OF PROCEEDS

We are offering 7,000,000 units at a price of \$10.00 per unit. We estimate that the net proceeds of this offering, together with the funds we receive from the sale of the private warrants (all of which will be deposited into the trust account), will be used as set forth in the following table:

	Without Over- Allotment Option	Over- Allotment Option Exercised
<i>Gross proceeds</i>		
From offering	\$ 70,000,000	\$ 80,500,000
From sale of private warrants	1,160,000	1,160,000
Total gross proceeds	<u>\$ 71,160,000</u>	<u>\$ 81,660,000</u>
<i>Offering expenses⁽¹⁾</i>		
Underwriting discount	\$ 0 ⁽²⁾	\$ 0 ⁽²⁾
Legal fees and expenses	125,000	125,000
NYSE American listing fee	55,000	55,000
Printing and engraving expenses	20,000	20,000
Accounting fees and expenses	30,000	30,000
FINRA filing fee	12,575	12,575
SEC registration fee	10,022	10,022
Miscellaneous expenses	32,403	32,403
Total offering expenses	<u>\$ 285,000</u>	<u>\$ 285,000</u>
<i>Net proceeds</i>		
Held in trust	\$ 70,000,000 ⁽³⁾	\$ 80,500,000 ⁽³⁾
Not held in trust	875,000	875,000
Total net proceeds	<u>\$ 70,875,000</u>	<u>\$ 81,375,000</u>
<i>Use of net proceeds not held in the trust account⁽⁴⁾⁽⁵⁾</i>		
Legal, accounting and other third party expenses attendant to the search for target businesses and to the due diligence investigation, structuring and negotiation of a business combination	\$ 150,000	17.1%
Due diligence of prospective target businesses by officers, directors and initial stockholders	150,000	17.1%
	40,000	4.6%
Legal and accounting fees relating to SEC reporting obligations		
Working capital to cover miscellaneous expenses, D&O insurance, general corporate purposes, liquidation obligations and reserves	535,000	61.2%
Total	<u>\$ 875,000</u>	<u>100.0%</u>

(1) A portion of the offering expenses, including the SEC registration fee, the FINRA filing fee, the non-refundable portion of the NYSE American stock exchange listing fee and a portion of the legal and audit fees, have been paid from the funds we borrowed from our sponsor. These funds will be repaid out of the proceeds of this offering available to us.

(2) Our sponsor will pay the \$500,000 in underwriting fees and qualified independent underwriter fees and receive a non-interest bearing promissory note in exchange for the payment of such amount. The promissory note will be payable at the closing of a business combination.

(3) The funds held in the trust account will be used to acquire a target business, to pay holders who wish to convert or sell their shares for a portion of the funds held in the trust account and potentially to pay our expenses relating thereto. Our expenses relating to the acquisition of a target business would either come from the funds held in the trust account or additional funds otherwise available to us outside of the trust account, including cash held by the target business. Any remaining funds will be disbursed to the combined company and be used as working capital to finance the operations of the target business.

- (4) The amount of proceeds not held in trust will remain constant at \$875,000 even if the over-allotment is exercised.
- (5) These are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring our initial business combination based upon the level of complexity of that business combination. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would be deducted from our excess working capital.

A total of \$10.00 per share (whether or not the underwriters' over-allotment option is exercised in full) of the net proceeds from this offering and the sale of the private warrants described in this prospectus will be placed in a trust account in the United States at Morgan Stanley, maintained by Continental Stock Transfer & Trust Company acting as trustee and will be invested only in U.S. government treasury bills, notes and bonds with a maturity of 180 days or less or in money market funds meeting certain conditions under Rule 2a-7 under the Investment Company Act and which invest solely in U.S. Treasuries. Except for all interest income that may be released to us to pay our tax obligations, as discussed below, none of the funds held in the trust account will be released from the trust account until the earlier of: (i) the consummation of our initial business combination within 24 months from the closing of this offering and (ii) a redemption to public stockholders prior to any voluntary winding-up in the event we do not consummate our initial business combination within the applicable period.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using shares or debt securities, or not all of the funds released from the trust account are used for payment of the purchase price in connection with our business combination, we may apply the cash released from the trust account that is not applied to the purchase price for general corporate purposes, including for maintenance or expansion of operations of acquired businesses, the payment of principal or interest due on indebtedness incurred in consummating the initial business combination, to fund the purchase of other companies or for working capital.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of our initial business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating our initial business combination is less than the actual amount necessary to do so, or the amount of interest available to use from the trust account is minimal as a result of the current interest rate environment, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. In this event, we could seek such additional capital through loans or additional investments from members of our management team, but such members of our management team are not under any obligation to advance funds to, or invest in, us.

As of the date of this prospectus, our sponsor loaned us a total of \$85,500 to be used for a portion of the expenses of this offering. The loans are non-interest bearing and payable on the date on which we consummate the offering.

In addition, in order to finance transaction costs in connection with an intended initial business combination, our sponsor or an affiliate of our sponsor or our officers and directors may, but are not obligated to, loan us funds as may be required. If we consummate our initial business combination, we would repay such loaned amounts. The notes would either be paid upon consummation of our initial business combination, without interest, or, at the lender's discretion, up to \$500,000 of the notes may be converted upon consummation of our business combination into additional private warrants to purchase shares of common stock at a conversion price of \$0.40 per private warrant (which, for example, would result in the holders being issued private warrants to purchase 1,250,000 shares of common stock if \$500,000 of notes were so converted). Such private warrants will be identical to the private warrants to be issued at the closing of this offering.

In no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001. Furthermore, the redemption threshold may be further limited by the terms and conditions of our initial business combination. In such case, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination.

A public stockholder will be entitled to receive funds from the trust account only upon the earlier to occur of: (i) our consummation of our initial business combination, and then only in connection with those shares of common stock that such stockholder properly elected to redeem, subject to the limitations described herein, (ii) the redemption of our public shares if we are unable to consummate our initial business combination within 24 months following the closing of this offering, subject to applicable law, or (iii) if we seek to amend our certificate of incorporation to affect the substance or timing of our obligation to redeem all public shares if we cannot complete an initial business combination within 24 months of the closing of this offering and such amendment is duly approved. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account.

Our initial stockholders have agreed to waive their redemption rights with respect to any shares they own in connection with the consummation of our initial business combination, including their founder shares and public shares that they have purchased during or after the offering, if any. In addition, our initial stockholders have agreed to waive their rights to liquidating distributions with respect to its founder shares if we fail to consummate our initial business combination within 24 months from the closing of this offering. However, if our initial stockholders acquire public shares in or after this offering, they will be entitled to receive liquidating distributions with respect to such public shares if we fail to consummate our initial business combination within the required time period.

DIVIDEND POLICY

We have not paid any cash dividends on our shares of common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time and subject to the Delaware law. In addition, our board of directors is not currently contemplating and does not anticipate declaring any share dividends in the foreseeable future, except if we increase the size of the offering pursuant to Rule 462(b) under the Securities Act, in which case we will effect a share dividend immediately prior to the consummation of the offering in such amount as to maintain our initial stockholders' ownership at 20% of the issued and outstanding shares of common stock upon the consummation of this offering (assuming no purchase in this offering and not taking into account ownership of the private warrants). Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per share, assuming no value is attributed to the warrants included in the units we are offering by this prospectus, and the pro forma net tangible book value per share after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with sale and exercise of warrants, including the private warrants. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of shares of common stock which may be redeemed for cash), by the number of outstanding shares of common stock.

At September 30, 2018, our net tangible book value was \$(67,727) or approximately \$(0.03) per share. After giving effect to the sale of 7,000,000 shares of common stock included in the units we are offering by this prospectus and the proceeds received from the sale of the private warrants, the deduction of underwriting discounts and estimated expenses of this offering, our pro forma net tangible book value at September 30, 2018 would have been \$5,000,005 or \$2.26 per share, representing an immediate increase in net tangible book value of \$2.29 per share to the initial stockholders and an immediate dilution of 77.4% per share or \$7.74 to new investors not exercising their conversion/tender rights. For purposes of presentation, our pro forma net tangible book value after this offering is \$65,398,320 less than it otherwise would have been because, if we effect a business combination, the ability of public stockholders to exercise conversion rights or sell their shares to us in any tender offer may result in the conversion or tender of up to 6,539,832 shares sold in this offering.

The following table illustrates the dilution to the new investors on a per-share basis, assuming no value is attributed to the redeemable warrants, including the private warrants:

Public offering price		\$	10.00
Net tangible book value before this offering	\$	(0.03)	
Increase attributable to new investors, private sales and capital contribution		<u>2.29</u>	
Pro forma net tangible book value after this offering			<u>2.26</u>
Dilution to new investors		<u>\$</u>	<u>7.74</u>
Percentage of dilution to new investors			77.4%

The following table sets forth information with respect to our initial stockholders and the new investors:

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percentage	Amount	Percentage	
Initial stockholders ⁽¹⁾	1,750,000	20.0%	\$ 25,000	0.04%	\$ 0.01
New investors	<u>7,000,000</u>	<u>80.0%</u>	<u>70,000,000</u>	<u>99.96%</u>	<u>\$ 10.00</u>
	<u>8,750,000</u>	<u>100.00%</u>	<u>\$ 70,025,000</u>	<u>100.00%</u>	

(1) Assumes the over-allotment option has not been exercised and an aggregate of 262,500 shares of common stock held by our initial stockholders have been forfeited as a result thereof.

The pro forma net tangible book value after the offering is calculated as follows:

Numerator: ⁽¹⁾	
Net tangible book value before this offering	(67,727)
Net proceeds from this offering and private placement of private warrants	70,875,000
Plus: Offering costs accrued for and paid in advance, excluded from tangible book value	91,052
Less: Sponsor note payable	(500,000)
Less: Proceeds held in trust subject to conversion/tender	<u>(65,398,320)</u>
	<u>5,000,005</u>
Denominator:	
Shares of common stock issued and outstanding prior to this offering ⁽¹⁾	1,750,000
Shares of common stock to be sold in this offering	7,000,000
Less: Shares subject to conversion/tender	<u>(6,539,832)</u>
	<u>2,210,168</u>

(1) Assumes the over-allotment option has not been exercised and an aggregate of 262,500 shares of common stock held by our initial stockholders have been forfeited by us as a result thereof.

CAPITALIZATION

The following table sets forth our capitalization at September 30, 2018 and as adjusted to give effect to the sale of our units and the private warrants and the application of the estimated net proceeds derived from the sale of such securities.

	September 30, 2018	
	Actual	As Adjusted ⁽¹⁾
Promissory note – related party ⁽²⁾	\$ 73,500	\$ 500,000
Shares of common stock, \$0.0001 par value, none and 6,539,832 shares are subject to possible conversion/tender, respectively		65,398,320
Preferred shares, \$0.0001 par value, 1,000,000 shares authorized; none issued or outstanding	—	—
Shares of common stock, \$0.0001 par value, 30,000,000 shares authorized, 2,012,500 shares issued and outstanding, actual; 2,210,168 shares issued and outstanding ⁽³⁾ (including 6,539,832 shares subject to possible conversion/tender), as adjusted	201	221
Additional paid-in capital	24,799	5,001,459
Accumulated deficit	(1,675)	(1,675)
Total stockholders' equity	23,325	5,000,005
Total capitalization	\$ 96,825	\$ 70,898,325

- (1) Includes the \$1,160,000 we will receive from the sale of the private warrants (assuming no exercise of the over-allotment option).
- (2) As of September 30, 2018, our sponsor loaned us an aggregate of \$73,500 to be used to pay formation and a portion of the expenses of this offering. The loans are non-interest bearing and payable on the date on which we consummate the offering. In addition, our sponsor will pay the \$500,000 in underwriting fees and qualified independent underwriter fees and receive a non-interest bearing promissory note in exchange for the payment of such amount. The promissory note will be payable at the closing of a business combination.
- (3) Assumes the over-allotment option has not been exercised and an aggregate of 262,500 shares of common stock held by our initial stockholders have been forfeited as a result thereof.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

We were incorporated on November 1, 2017 as a Delaware corporation to serve as a vehicle to effect a merger, share exchange, asset acquisition, share purchase, recapitalization, reorganization or similar business combination with one or more target businesses. Our efforts to identify a prospective target business will not be limited to a particular industry or geographic location. We intend to utilize cash derived from the proceeds of this offering, our securities, debt or a combination of cash, securities and debt, in effecting a business combination. The issuance of additional shares in our business combination:

- may significantly reduce the equity interest of our stockholders;
- may subordinate the rights of holders of common stock if we issue preferred shares with rights senior to those afforded to our shares of common stock;
- will likely cause a change in control if a substantial number of our shares of common stock are issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and most likely will also result in the resignation or removal of our present officers and directors; and
- may adversely affect prevailing market prices for our securities.

Similarly, if we issue debt securities, it could result in:

- default and foreclosure on our assets if our operating revenues after a business combination are insufficient to pay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we have made all principal and interest payments when due if the debt security contains covenants that required the maintenance of certain financial ratios or reserves and we breach any such covenant without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt security is payable on demand; and
- our inability to obtain additional financing, if necessary, if the debt security contains covenants restricting our ability to obtain additional financing while such security is outstanding.

As indicated in the accompanying financial statements, at September 30, 2018, we had \$23,280 in cash and deferred offering costs of \$91,052. Further, we expect to continue to incur significant costs in the pursuit of our acquisition plans. Our plans to raise capital or to consummate our initial business combination may not be successful.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

As indicated in the accompanying financial statements, at September 30, 2018, we had \$23,280 in cash and a working capital deficit of \$67,727. Further, we have incurred and expect to continue to incur significant costs in pursuit of our financing and acquisition plans. Management's plans to address this uncertainty through this offering are discussed above. Our plans to raise capital or to consummate our initial business combination may not be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern.

Our liquidity needs have been satisfied to date through receipt of \$25,000 from the sale of the insider shares and loans from our sponsor in an aggregate amount of \$85,500 that is more fully described below. We estimate that the net proceeds from (1) the sale of the units in this offering, after deducting offering expenses of approximately \$285,000 and underwriting discounts and commissions and qualified independent underwriter fees of \$500,000 (2) the sale of the private warrants for a purchase price of \$1,160,000, and (3) the loan of \$500,000 by our sponsor will be \$70,875,000 (or \$81,375,000 if the over-allotment option is exercised in full). Of this amount, \$70,000,000 (or \$80,500,000 if the over-allotment option is exercised in full) will be held in the trust account. The remaining \$875,000 (whether or not the over-allotment option is exercised in full) will not be held in the trust account.

We intend to use substantially all of the net proceeds of this offering, including the funds held in the trust account, to acquire a target business or businesses and to pay our expenses relating thereto. To the extent that our share capital is used in whole or in part as consideration to effect our initial business combination, the remaining proceeds held in the trust account as well as any other net proceeds not expended will be used as working capital to finance the operations of the target business. Such working capital funds could be used in a variety of ways including continuing or expanding the target business' operations, for strategic acquisitions and for marketing, research and development of existing or new products. Such funds could also be used to repay any operating expenses or finders' fees which we had incurred prior to the completion of our initial business combination if the funds available to us outside of the trust account were insufficient to cover such expenses.

Over the next 24 months (assuming a business combination is not consummated prior thereto), we will be using the funds held outside of the trust account for identifying and evaluating prospective acquisition candidates, performing business due diligence on prospective target businesses, traveling to and from the offices, plants or similar locations of prospective target businesses, reviewing corporate documents and material agreements of prospective target businesses, selecting the target business to acquire and structuring, negotiating and consummating the business combination. Out of the funds available outside the trust account, we anticipate that we will incur approximately:

- \$150,000 of expenses for the search for target businesses and for the legal, accounting and other third-party expenses attendant to the due diligence investigations, structuring and negotiating of a business combination;
- \$150,000 of expenses for the due diligence and investigation of a target business by our officers, directors and initial stockholders;
- \$40,000 of expenses in legal and accounting fees relating to our SEC reporting obligations; and
- \$535,000 for general working capital that will be used for miscellaneous expenses, including director and officer liability insurance premiums.

If our estimates of the costs of undertaking in-depth due diligence and negotiating our initial business combination is less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to consummate our initial business combination or because we become obligated to redeem a significant number of our public shares upon consummation of our initial business combination, in which case we may issue additional securities or incur debt in connection with such business combination. Subject to compliance with applicable securities laws, we would only consummate such financing simultaneously with the consummation of our initial business combination. Following our initial business combination, if cash on hand is insufficient, we may need to obtain additional financing in order to meet our obligations.

Related Party Transactions

As of September 30, 2018, 2018, our sponsor loaned us an aggregate of \$73,500 to us, on a non-interest bearing basis, for payment of offering expenses on our behalf.

In addition, Chardan Investments, LLC, our sponsor, will pay the \$500,000 in underwriting fees and qualified independent underwriter fees and receive a non-interest bearing promissory note in exchange for the payment of such amount. The promissory note will be payable at the closing of a business combination.

In addition, our sponsor, has committed to purchase from us an aggregate of 2,900,000 warrants, or "private warrants," at \$0.40 per private warrant (for a total purchase price of \$1,160,000), with each warrant exercisable for one share of common stock at an exercise price of \$11.50 per share. These purchases will take place on a private placement basis simultaneously with the consummation of this offering. All of the proceeds we receive from these purchases will be placed in the trust account described below.

If needed to finance transaction costs in connection with searching for a target business or consummating an intended initial business combination, our initial stockholders, officers, directors or their affiliates may, but are not obligated to, loan us funds as may be required. In the event that the initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts, but no proceeds from our trust account would be used for such repayment. Such loans would be evidenced by promissory notes. The notes would either be paid upon consummation of our initial business combination, without interest, or, at the lender's discretion, up to \$500,000 of the notes may be converted upon consummation of our business combination into additional private warrants to purchase shares of common stock at a conversion price of \$0.40 per private warrant (which, for example, would result in the holders being issued private warrants to purchase 1,250,000 shares of common stock if \$500,000 of notes were so converted). Such private warrants will be identical to the private warrants to be issued at the closing of this offering. We believe the purchase price of these private warrants will approximate the fair value of such private warrants when issued. However, if it is determined, at the time of issuance, that the fair value of such private warrants exceeds the purchase price, we would record compensation expense for the excess of the fair value of the private warrants on the day of issuance over the purchase price in accordance with Accounting Standards Codification ("ASC") 718 — Compensation — Stock Compensation.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act for the fiscal year ending June 30, 2020. As of the date of this prospectus, we have not completed an assessment, nor have our auditors tested our systems, of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and, if necessary, to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expense in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain our independent auditors to audit and render an opinion on such report when, or if, required by Section 404. The independent auditors may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering, including amounts in the trust account, will be invested in United States government treasury bills, bonds or notes having a maturity of 180 days or less, or in money market funds meeting the applicable conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940 and that invest solely in U.S. treasuries. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Results

As of the date of this prospectus, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have conducted no operations to date.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an “emerging growth company” and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As such, our financial statements may not be comparable to companies that comply with public company effective dates.

PROPOSED BUSINESS

Introduction

We are a blank check company formed under the laws of the State of Delaware on November 1, 2017. We were formed for the purpose of effecting a merger, share exchange, asset acquisition, share purchase, reorganization or similar business combination with one or more businesses, which we refer to throughout this prospectus as our initial business combination. Our efforts to identify a prospective target business will not be limited to a particular geographic region or industry, although we intend to focus on North America in the healthcare industry. We do not have any specific business combination under consideration or contemplation, and we have not, nor has anyone on our behalf, contacted any prospective target business or had any discussions, formal or otherwise, with respect to such a transaction.

Background and Competitive Advantages

Our sponsor was founded in November 2017 and is affiliated with Chardan Capital Markets LLC, the representative of the underwriters in this offering, an investment firm and a provider of investment banking services, primarily focused on emerging growth companies in the healthcare industry. Chardan conducts business across North America, Europe, Asia (including Israel) and Australia. Since its inception, Chardan has executed over 400 equity capital markets transactions, raising approximately \$19 billion of capital in both public and private markets.

Our management team is led by Dr. Gbola Amusa, Jonas Grossman and George Kaufman; each has extensive experience in healthcare both before and during their current tenure at Chardan.

Dr. Gbola Amusa currently leads Chardan's equity research team, a team that has published over 500 research notes since 2013, with a major focus on covering biotechnology companies, particularly those with disruptive potential in the genetic medicines space.

Jonas Grossman leads Chardan's capital markets team which has executed over 400 transactions since inception. In addition to its broader emerging growth and SPAC activities, the team has completed over 130 offerings for healthcare companies raising over \$5.0 billion since 2005 and over 60 offerings for healthcare companies raising over \$3.5 billion since the beginning of 2016. Chardan has a healthcare-focused corporate access team which sponsors two healthcare conferences and manages in excess of 100 non-deal road shows per year for both private and public healthcare companies. The corporate access team serves as a nexus for issuers and healthcare investors (venture capital, private equity, and asset managers) in North America, Europe and Australia.

George Kaufman leads Chardan's investment banking group, which, in addition to working on the deals described in the preceding paragraph, has advised on the business combinations of 11 SPACs, as well as participated in key roles in the 4 previous Chardan-branded SPACs.

Together, Mr. Grossman, Mr. Kaufman, and their teams have acted as underwriter on 68 SPAC IPO's since 2004 that generated gross proceeds of approximately \$9.0 billion. Since the beginning of 2016, Chardan has ranked as the most active book running or lead-managing underwriter of SPAC IPO's, acting in such capacity on 25 SPAC IPO's that raised gross proceeds of approximately \$3.4 billion in that period.

We believe that the network of contacts and relationships of our management team will provide us with an important source of prospective target businesses. In addition, we anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment market participants, private equity groups, investment banking firms, consultants, accounting firms and large business enterprises.

We have also assembled a group of independent directors who have a broad range of operational, scientific and industry experience within healthcare. Over the course of their careers, our directors have developed a broad international network of contacts and corporate relationships, and they have gained extensive experience with acquisitions, divestitures and corporate strategy and implementation, which we believe will significantly benefit us as we evaluate potential acquisition or merger candidates as well as following the completion of our initial business combination.

We believe that our management team is well positioned to identify attractive risk-adjusted returns in the marketplace and that our contacts and transaction sources, ranging from industry executives, private owners, private equity funds, and investment bankers, in addition to the geographical reach of our affiliates, will enable us to pursue a broad range of opportunities.

Acquisition Strategy

Our acquisition strategy is to identify, acquire and, after our initial business combination, to build a public company. Our selection process will leverage our team's network of industry, venture capital, hedge fund, private equity and lending community relationships as well as relationships with management teams of public and private companies, investment bankers, attorneys and accountants, which we believe should provide us with a number of business combination opportunities. We intend to deploy a proactive, thematic sourcing strategy and to focus on companies where we believe the combination of the relationships, capital, capital markets expertise and operating experience of executives at Chardan Investments, can help accelerate the target business' growth and performance. We will initially focus on emerging growth healthcare companies in healthcare niches including, but not limited to, biotechnology, medical technology and digital health.

Industry Opportunity

- *Large Healthcare Markets*

The healthcare industry consists of sectors within the economic system providing curative, preventive, rehabilitative, and palliative care for patients. The industry includes organizations providing such goods and services, as well as the doctors, nurses, and other healthcare employees. Total healthcare spending in the United States reached nearly \$3.4 trillion in 2016 and is expected to grow by an average 5.6 percent annually over 2016-2025, according to a CMS report released in February 2017. Total healthcare expenditures are thus expected rise to 19.9 percent of the US Gross Domestic Product.

- *Supportive Macro Dynamics*

The healthcare market globally mirrors a similar trend in the US of an increased contribution to the economy, due to the aging of the global population and other durable macro dynamics. For example, in good part due to the impact of healthcare on society, the global life expectancy increased from 31 years in 1900 to 72 years in 2014. As a disproportionate amount of overall healthcare spending is associated with diseases of aging, the aging of the global population will continue to drive increased healthcare consumption. In addition, less developed countries have gone through an unprecedented period of healthcare insurance and infrastructure expansion that has led the countries to have significantly higher contributions to the global healthcare marketplace.

- *A Broad Universe of Potential Targets*

The target universe of healthcare opportunities is extensive, considering healthcare's overall contribution to the economy. A factor that further broadens the universe is the high amount of innovation occurring within healthcare. In the wake of the genomics revolution, the pace of innovation is accelerating. With the streamlining of the externalization of breakthrough science from academic institutions, particularly in the United States, as mandates shifted from protecting intellectual property to externalizing it, increasing numbers of potentially disruptive healthcare innovations exist that may be underappreciated or underfunded. Early-stage companies need capital and advisory services to reach their commercial potential.

- *Macro Factors will Create Winners and Losers*

The healthcare industry is primed for new technologies and business models due to the increasing cost of healthcare and due to the increasing pressure to add value to the system. We anticipate certain lower-value segments of healthcare will be burdened by the pressures of cost cutting, while companies or segments that deliver superior products and services, with better clinical and non-clinical outcomes, will thrive. Successful companies will be data driven, consumer focused, and operationally efficient. Successful organizations will transfer best-in-class standards globally. Our team will take a holistic approach to investment opportunities and conduct stringent due diligence to screen such companies. We see opportunities in particular for companies that address global healthcare cost pressures by: succeeding in disruptive innovation, thus justifying monies spent by delivering cures or other breakthrough outcomes; delivering cost savings, to address global healthcare cost pressures; or providing access to medicines, as the marginal benefits from healthcare spending are highest when providing goods and services to those who do not already receive them.

- *Chardan is Already Positioned in Exciting Segments*

Chardan is focused on sectors with the highest potential for investment returns due to creating real value for society, specifically through disruptive innovation, generation of cost savings, and provision of access to medicines. For example, Chardan has focused on gene therapy/genetic medicines. Gene therapy involves insertion of genetic material into cells of the patients to provide the cells a new function or to restore missing or inappropriate functioning. In 2017, three gene therapies were approved for the first time in the United States, namely, Kymriah, Yescarta, and Luxturna. The sector outperformed broader biotech markets as big cap pharma increased the pace of acquisitions for gene therapy companies, as exemplified by the acquisition of AveXis in 2018. The sector has attracted a substantial funding in past five years on the potential of gene therapies to improve the effectiveness of existing treatments options. Other segments where Chardan is positioned include medical technology and digital healthcare, where better clinical outcomes and cost savings are possible.

Investment Criteria

We are focused on companies in disruptive and other value-added subsegments of healthcare that have the potential for significant gains in the next five years. Our ideal company will be institutionally backed, with a high-quality management team and a demonstrated ability to raise money from the private capital markets. The segments we will target include biotechnology, medical technology and digital health.

The focus of our management team is to create stockholder value by leveraging its experience to efficiently guide an emerging healthcare company towards commercialization. Consistent with our strategy, we have identified the following general criteria and guidelines that we believe are important in evaluating prospective target businesses. While we intend to use these criteria and guidelines in evaluating prospective businesses, we may deviate from these criteria and guidelines should we see fit to do so:

- *Healthcare Company Poised for Rapid Growth*

We intend to primarily seek to acquire one or more growth businesses with a total equity value of greater than 5 to 10 times the amount of the proceeds of this offering. We believe that there are a substantial number of potential target businesses with appropriate valuations that can benefit from a public listing and new capital for growth to support significant revenue and earnings growth or to advance clinical programs. We do not intend to acquire a start-up company.

- *Niche Leader and Specialized Business with High Growth Potential*

We intend to seek target companies that have significant and underexploited expansion opportunities in a niche sector. This can be accomplished through a combination of accelerating organic growth and finding attractive add-on acquisition targets. Our management team has significant experience in identifying such targets and in helping target management assess the strategic and financial fit. Similarly, our management has the expertise to assess the likely synergies and a process to help a target integrate acquisitions. Additionally, our management team has extensive experience assisting healthcare companies raise money as they navigate the regulatory approval process.

- *Benefits from Being a U.S. Public Company (Value Creation and Marketing Opportunities)*

We intend to seek target companies that should offer attractive risk-adjusted equity returns for our stockholders. We intend to seek to acquire a target on terms and in a manner that leverage our experience. We expect to evaluate a Company based on its potential to successfully achieve regulatory approval and commercialize its product(s). We also expect to evaluate financial returns based on (i) risk-adjusted peak sales potential (ii) the potential of pipeline products and the scientific platform (iii) the ability to achieve the system cost savings, (iv) the ability to accelerate growth via other options, including through the opportunity for follow-on acquisitions, and (v) the prospects for creating value through other value creation initiatives. Potential upside, for example, from the growth in the target business' earnings or an improved capital structure, will be weighed against any identified downside risks.

- *Potential Benefit from Globalization Trends and Possession of Competitive Advantages*

Target companies exhibit unrecognized value or other characteristics that we believe have been misvalued by the marketplace based on our company-specific analyses and due diligence. For a potential target company, this process will include, among other things, a review and analysis of the company's capital structure, quality of current or future earnings, preclinical or clinical data, potential for operational improvements, corporate governance, customers, material contracts, and the industry and trends. We intend to leverage the operational experience and disciplined investment approach of our team to identify opportunities to unlock value that our experience in complex situations allows us to pursue.

These criteria are not intended to be exhaustive. Any evaluation relating to the merits of a particular initial business combination may be based, to the extent relevant, on these general guidelines as well as other considerations, factors and criteria that our management may deem relevant.

Effecting a Business Combination

General

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the private placement of the private warrants, our shares, new debt, or a combination of these, as the consideration to be paid in our initial business combination. We may seek to consummate our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth (such as a company that has begun operations but is not yet at the stage of commercial manufacturing and sales), which would subject us to the numerous risks inherent in such companies and businesses, although we will not be permitted to effectuate our initial business combination with another blank check company or a similar company with nominal operations.

If our initial business combination is paid for using shares or debt securities, or not all of the funds released from the trust account are used for payment of the purchase price in connection with our business combination or used for redemptions of purchases of our common stock, we may apply the cash released to us from the trust account that is not applied to the purchase price for general corporate purposes, including for maintenance or expansion of operations of acquired businesses, the payment of principal or interest due on indebtedness incurred in consummating our initial business combination, to fund the purchase of other companies or for working capital.

We have not identified any acquisition targets. From the period prior to our formation through the date of this prospectus, there have been no communications, evaluations or discussions between any of our officers, directors or our sponsor and any of their contacts or relationships regarding a potential initial business combination. Additionally, we have not engaged or retained any agent or other representative to identify or locate any suitable acquisition candidate. Subject to the requirement that our initial business combination must be with one or more target businesses or assets having an aggregate fair market value of at least 80% of the value of the trust account (excluding any taxes payable) at the time of the agreement to enter into such initial business combination, we have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses. Accordingly, there is no current basis for investors in this offering to evaluate the possible merits or risks of the target business with which we may ultimately complete our initial business combination. Although our management will assess the risks inherent in a particular target business with which we may combine, this assessment may not result in our identifying all risks that a target business may encounter. Furthermore, some of those risks may be outside of our control, meaning that we can do nothing to control or reduce the chances that those risks will adversely impact a target business.

We may seek to raise additional funds through a private offering of debt or equity securities in connection with the consummation of our initial business combination, and we may effectuate our initial business combination using the proceeds of such offering rather than using the amounts held in the trust account. Subject to compliance with applicable securities laws, we would consummate such financing only simultaneously with the consummation of our business combination. In the case of an initial business combination funded with assets other than the trust account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by law or the NYSE American stock exchange, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

Sources of Target Businesses

We anticipate that target business candidates will be brought to our attention from various unaffiliated sources, including investment bankers, venture capital funds, private equity groups, leveraged buyout funds, management buyout funds and other members of the financial community. Target businesses may be brought to our attention by such unaffiliated sources as a result of being solicited by us through calls or mailings. These sources also may introduce us to target businesses in which they think we may be interested on an unsolicited basis, since many of these sources will have read this prospectus and know what types of businesses we are targeting. Our officers and directors, as well as their affiliates, also may bring to our attention target business candidates that they become aware of through their business contacts as a result of formal or informal inquiries or discussions they may have, as well as attending trade shows or conventions. In addition, we expect to receive a number of proprietary deal flow opportunities that would not otherwise necessarily be available to us as a result of the business relationships of our officers and directors. While we do not presently anticipate engaging the services of professional firms or other individuals that specialize in business acquisitions on any formal basis, we may engage these firms or other individuals in the future, in which event we may pay a finder's fee, consulting fee or other compensation to be determined in an arm's length negotiation based on the terms of the transaction. We will engage a finder only to the extent our management determines that the use of a finder may bring opportunities to us that may not otherwise be available to us or if finders approach us on an unsolicited basis with a potential transaction that our management determines is in our best interest to pursue. Payment of finder's fees is customarily tied to completion of a transaction, in which case any such fee will be paid out of the funds held in the trust account. Although some of our officers and directors may enter into employment or consulting agreements with the acquired business following our initial business combination, the presence or absence of any such arrangements will not be used as a criterion in our selection process of an acquisition candidate.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with such a company, we, or a committee of independent directors, would obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions on the type of target business we seek to acquire that such an initial business combination is fair to our unaffiliated stockholders from a financial point of view.

Selection of a Target Business and Structuring of a Business Combination

Subject to the requirement that our initial business combination must be with one or more target businesses or assets having an aggregate fair market value of at least 80% of the value of the trust account (excluding any taxes payable) at the time of the agreement to enter into such initial business combination, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses. In any case, we will only consummate an initial business combination in which we become the majority shareholder of the target (or control the target through contractual arrangements in limited circumstances for regulatory compliance purposes as discussed below) or are otherwise not required to register as an investment company under the Investment Company Act or to the extent permitted by law we may acquire interests in a variable interest entity, in which we may have less than a majority of the voting rights in such entity, but in which we are the primary beneficiary. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our initial business combination. To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth (such as a company that has begun operations but is not yet at the stage of commercial manufacturing and sales), we may be affected by numerous risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we may not properly ascertain or assess all significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review that will encompass, among other things, meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspection of facilities, as well as a review of financial and other information which will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which a business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination. We will not pay any finders or consulting fees to members of our management team, or any of their respective affiliates, for services rendered to or in connection with our initial business combination.

Fair Market Value of Target Business or Businesses

The target business or businesses or assets with which we effect our initial business combination must have a collective fair market value equal to at least 80% of the value of the trust account (excluding any taxes payable) at the time of the agreement to enter into such initial business combination. If we acquire less than 100% of one or more target businesses in our initial business combination, the aggregate fair market value of the portion or portions we acquire must equal at least 80% of the value of the trust account at the time of the agreement to enter into such initial business combination. However, we will always acquire at least a controlling interest in a target business. The fair market value of a portion of a target business or assets will likely be calculated by multiplying the fair market value of the entire business by the percentage of the target we acquire. We may seek to consummate our initial business combination with an initial target business or businesses with a collective fair market value in excess of the balance in the trust account. In order to consummate such an initial business combination, we may issue a significant amount of debt, equity or other securities to the sellers of such business and/or seek to raise additional funds through a private offering of debt, equity or other securities. If we issue securities in order to consummate such an initial business combination, our stockholders could end up owning a minority of the combined company's voting securities as there is no requirement that our stockholders own a certain percentage of our company (or, depending on the structure of the initial business combination, an ultimate parent company that may be formed) after our business combination. Because we have no specific business combination under consideration, we have not entered into any such arrangement to issue our debt or equity securities and have no current intention of doing so.

The fair market value of a target business or businesses or assets will be determined by our board of directors based upon standards generally accepted by the financial community, such as actual and potential gross margins, the values of comparable businesses, earnings and cash flow, book value, enterprise value and, where appropriate, upon the advice of appraisers or other professional consultants. Investors will be relying on the business judgment of our board of directors, which will have significant discretion in choosing the standard used to establish the fair market value of a particular target business. If our board of directors is not able to independently determine that the target business or assets has a sufficient fair market value to meet the threshold criterion, we will obtain an opinion from an unaffiliated, independent investment banking firm or another independent entity that commonly renders valuation opinions on the type of target business we seek to acquire with respect to the satisfaction of such criterion. Notwithstanding the foregoing, unless we consummate a business combination with an affiliated entity, we are not required to obtain an opinion from an independent investment banking firm, or another independent entity that commonly renders valuation opinions on the type of target business we seek to acquire, that the price we are paying is fair to our stockholders.

Lack of Business Diversification

For an indefinite period of time after consummation of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business. Unlike other entities that have the resources to complete business combinations with multiple entities in one or several industries, it is probable that we will not have the resources to diversify our operations and mitigate the risks of being in a single line of business. By consummating our initial business combination with only a single entity, our lack of diversification may:

- subject us to negative economic, competitive and regulatory developments, any or all of which may have a substantial adverse impact on the particular industry in which we operate after our initial business combination, and
- cause us to depend on the marketing and sale of a single product or limited number of products or services.

Limited Ability to Evaluate the Target's Management Team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business' management may not prove to be correct. The future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. Consequently, members of our management team may not become a part of the target's management team, and the future management may not have the necessary skills, qualifications or abilities to manage a public company. Further, it is also not certain whether one or more of our directors will remain associated in some capacity with us following our initial business combination. Moreover, members of our management team may not have significant experience or knowledge relating to the operations of the particular target business. Our key personnel may not remain in senior management or advisory positions with the combined company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

Following our initial business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We may not have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders May Not Have the Ability to Approve an Initial Business Combination

In connection with any proposed business combination, we will either (1) seek stockholder approval of our initial business combination at a meeting called for such purpose at which public stockholders may seek to convert their public shares, regardless of whether they vote for or against the proposed business combination, into their *pro rata* share of the aggregate amount then on deposit in the trust account (net of taxes payable) or (2) provide our public stockholders with the opportunity to sell their public shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their *pro rata* share of the aggregate amount then on deposit in the trust account (net of taxes payable), in each case subject to the limitations described herein. Notwithstanding the foregoing, our initial stockholders have agreed, pursuant to written letter agreements with us, not to convert any public shares held by them into their *pro rata* share of the aggregate amount then on deposit in the trust account. If we determine to engage in a tender offer, such tender offer will be structured so that each stockholder may tender any or all of his, her or its public shares rather than some *pro rata* portion of his, her or its shares. The decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us based on a variety of factors such as the timing of the transaction and whether the terms of the transaction would otherwise require us to seek stockholder approval. If we so choose and we are legally permitted to do so, we have the flexibility to avoid a stockholder vote and allow our stockholders to sell their shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act which regulate issuer tender offers. In that case, we will file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination as is required under the SEC's proxy rules. We will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, solely if we seek stockholder approval, a majority of the issued and outstanding shares of common stock voted are voted in favor of the business combination.

We chose our net tangible asset threshold of \$5,000,001 to ensure that we would avoid being subject to Rule 419 promulgated under the Securities Act. However, if we seek to consummate an initial business combination with a target business that imposes any type of working capital closing condition or requires us to have a minimum amount of funds available from the trust account upon consummation of such initial business combination, our net tangible asset threshold may limit our ability to consummate such initial business combination (as we may be required to have a lesser number of shares converted or sold to us) and may force us to seek third party financing which may not be available on terms acceptable to us or at all. As a result, we may not be able to consummate such initial business combination and we may not be able to locate another suitable target within the applicable time period, if at all. Public stockholders may therefore have to wait 24 months from the closing of this offering in order to be able to receive a *pro rata* share of the trust account.

Our initial stockholders and our officers and directors have agreed (1) to vote any shares of common stock owned by them in favor of any proposed business combination, (2) not to convert any shares of common stock in connection with a stockholder vote to approve a proposed initial business combination and (3) not sell any shares of common stock in any tender in connection with a proposed initial business combination. As a result, if we sought stockholder approval of a proposed transaction, we would need only 437,501 of our public shares (or approximately 6.3% of our public shares) to be voted in favor of the transaction in order to have such transaction approved (assuming that only a quorum was present at the meeting, that the over-allotment option is not exercised and that the initial stockholders do not purchase any units in this offering or units or shares in the after-market).

None of our officers, directors, initial stockholders or their affiliates has indicated any intention to purchase units or shares of common stock in this offering or from persons in the open market or in private transactions. However, if we hold a meeting to approve a proposed business combination and a significant number of stockholders vote, or indicate an intention to vote, against such proposed business combination, our officers, directors, initial stockholders or their affiliates could make such purchases in the open market or in private transactions in order to influence the vote. Notwithstanding the foregoing, our officers, directors, initial stockholders and their affiliates will not make purchases of common stock if the purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act, which are rules designed to stop potential manipulation of a company's stock.

Conversion/Tender Rights

At any meeting called to approve an initial business combination, public stockholders may seek to convert their public shares, regardless of whether they vote for or against the proposed business combination, into their *pro rata* share of the aggregate amount then on deposit in the trust account, less any taxes then due but not yet paid. Notwithstanding the foregoing, our initial stockholders have agreed, pursuant to written letter agreements with us, not to convert any public shares held by them into their *pro rata* share of the aggregate amount then on deposit in the trust account. If we hold a meeting to approve an initial business combination, a holder will always have the ability to vote against a proposed business combination and not seek conversion of his shares.

Alternatively, if we engage in a tender offer, each public stockholder will be provided the opportunity to sell his public shares to us in such tender offer. The tender offer rules require us to hold the tender offer open for at least 20 business days. Accordingly, this is the minimum amount of time we would need to provide holders to determine whether they want to sell their public shares to us in the tender offer or remain an investor in our company.

Our initial stockholders, officers and directors will not have conversion rights with respect to any shares of common stock owned by them, directly or indirectly, whether acquired prior to this offering or purchased by them in this offering or in the aftermarket.

We may also require public stockholders, whether they are a record holder or hold their shares in "street name," to either tender their certificates (if any) to our transfer agent or to deliver their shares to the transfer agent electronically using Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, at the holder's option, at any time at or prior to the vote on the business combination. The proxy solicitation materials that we will furnish to stockholders in connection with the vote for any proposed business combination will indicate whether we are requiring stockholders to satisfy such delivery requirements. Accordingly, a stockholder would have from the time our proxy statement is mailed through the vote on the business combination to deliver his shares if he wishes to seek to exercise his conversion rights. Under Delaware law and our bylaws, we are required to provide at least 10 days' advance notice of any stockholder meeting, which would be the minimum amount of time a stockholder would have to determine whether to exercise conversion rights. As a result, if we require public stockholders who wish to convert their shares of common stock into the right to receive a *pro rata* portion of the funds in the trust account to comply with the foregoing delivery requirements, holders may not have sufficient time to receive the notice and deliver their shares for conversion. Accordingly, investors may not be able to exercise their conversion rights and may be forced to retain our securities when they otherwise would not want to.

There is a nominal cost associated with this tendering process and the act of certificating the shares or delivering them through the DWAC System. The transfer agent will typically charge the tendering broker \$45 and it would be up to the broker whether or not to pass this cost on to the converting holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise conversion rights. The need to deliver shares is a requirement of exercising conversion rights regardless of the timing of when such delivery must be effectuated. However, in the event we require stockholders seeking to exercise conversion rights to deliver their shares prior to the consummation of the proposed business combination and the proposed business combination is not consummated, this may result in an increased cost to stockholders.

Any request to convert or tender such shares once made, may be withdrawn at any time up to the vote on the proposed business combination or expiration of the tender offer. Furthermore, if a holder of a public share delivered his certificate in connection with an election of their conversion or tender and subsequently decides prior to the vote on the business combination or the expiration of the tender offer not to elect to exercise such rights, he may simply request that the transfer agent return the certificate (physically or electronically).

If the initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their conversion or tender rights would not be entitled to convert their shares for the applicable *pro rata* share of the trust account. In such case, we will promptly return any shares delivered by public holders.

Liquidation of Trust Account if No Business Combination

If we do not complete a business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.

Under the Delaware General Corporation Law, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The *pro rata* portion of our trust account distributed to our public stockholders upon the redemption of 100% of our outstanding public shares in the event we do not complete our initial business combination within the required time period may be considered a liquidation distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the Delaware General Corporation Law intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any redemptions are made to stockholders, any liability of stockholders with respect to a redemption is limited to the lesser of such stockholder's *pro rata* share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the *pro rata* portion of our trust account distributed to our public stockholders upon the redemption of 100% of our public shares in the event we do not complete our initial business combination within the required time period is not considered a liquidation distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the Delaware General Corporation Law, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidation distribution. It is our intention to redeem our public shares as soon as reasonably possible following the 18th or 21st month from the closing of this offering and, therefore, we do not intend to comply with the above procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280 of the Delaware General Corporation Law, Section 281(b) of the Delaware General Corporation Law requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent 10 years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to seeking to complete an initial business combination, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses.

We will seek to have all third parties (including any vendors or other entities we engage after this offering) and any prospective target businesses enter into valid and enforceable agreements with us waiving any right, title, interest or claim of any kind they may have in or to any monies held in the trust account. The underwriters in this offering will execute such a waiver agreement.

As a result, the claims that could be made against us will be limited, thereby lessening the likelihood that any claim would result in any liability extending to the trust. We therefore believe that any necessary provision for creditors will be reduced and should not have a significant impact on our ability to distribute the funds in the trust account to our public stockholders. Nevertheless, there is no guarantee that vendors, service providers and prospective target businesses will execute such agreements. In the event that a potential contracted party was to refuse to execute such a waiver, we will execute an agreement with that entity only if our management first determines that we would be unable to obtain, on a reasonable basis, substantially similar services or opportunities from another entity willing to execute such a waiver. Examples of instances where we may engage a third party that refused to execute a waiver would be the engagement of a third party consultant who cannot sign such an agreement due to regulatory restrictions, such as our auditors who are unable to sign due to independence requirements, or whose particular expertise or skills are believed by management to be superior to those of other consultants that would agree to execute a waiver or a situation in which management does not believe it would be able to find a provider of required services willing to provide the waiver. There is also no guarantee that, even if they execute such agreements with us, they will not seek recourse against the trust account. Our insiders have agreed that they will be jointly and severally liable to us if and to the extent any claims by a vendor for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below \$10.00 per public share, except as to any claims by a third party who executed a valid and enforceable agreement with us waiving any right, title, interest or claim of any kind they may have in or to any monies held in the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Our board of directors has evaluated our insiders' financial net worth and believes they will be able to satisfy any indemnification obligations that may arise. However, our insiders may not be able to satisfy their indemnification obligations, as we have not required our insiders to retain any assets to provide for their indemnification obligations, nor have we taken any further steps to ensure that they will be able to satisfy any indemnification obligations that arise. Moreover, our insiders will not be liable to our public stockholders and instead will only have liability to us. As a result, if we liquidate, the per-share distribution from the trust account could be less than approximately \$10.00 due to claims or potential claims of creditors. We will distribute to all of our public stockholders, in proportion to their respective equity interests, an aggregate sum equal to the amount then held in the trust account, inclusive of any interest not previously released to us, (subject to our obligations under Delaware law to provide for claims of creditors as described below).

If we are unable to consummate an initial business combination and are forced to redeem 100% of our outstanding public shares for a portion of the funds held in the trust account, we anticipate notifying the trustee of the trust account to begin liquidating such assets promptly after such date and anticipate it will take no more than 10 business days to effectuate the redemption of our public shares. Our insiders have waived their rights to participate in any redemption with respect to their insider shares. We will pay the costs of any subsequent liquidation from our remaining assets outside of the trust account. If such funds are insufficient, our insiders have agreed to pay the funds necessary to complete such liquidation (currently anticipated to be no more than approximately \$15,000) and have agreed not to seek repayment of such expenses. Each holder of public shares will receive a full pro rata portion of the amount then in the trust account, plus any pro rata interest earned on the funds held in the trust account and not previously released to us or necessary to pay our taxes. The proceeds deposited in the trust account could, however, become subject to claims of our creditors that are in preference to the claims of public stockholders.

Our public stockholders shall be entitled to receive funds from the trust account only in the event of our failure to complete our initial business combination in the required time period or if the stockholders seek to have us convert their respective shares of common stock upon a business combination which is actually completed by us. In no other circumstances shall a stockholder have any right or interest of any kind to or in the trust account.

If we are forced to file a bankruptcy case or an involuntary bankruptcy case is filed against us which is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per share redemption or conversion amount received by public stockholders may be less than \$10.00.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith, thereby exposing itself and us to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. Claims may be brought against us for these reasons.

Certificate of Incorporation

Our certificate of incorporation contains certain requirements and restrictions relating to this offering that will apply to us until the consummation of our initial business combination. If we hold a stockholder vote to amend any provisions of our certificate of incorporation relating to stockholder's rights or pre-business combination activity (including the substance or timing within which we have to complete a business combination), we will provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding public shares, in connection with any such vote. Our insiders have agreed to waive any conversion rights with respect to any insider shares and any public shares they may hold in connection with any vote to amend our certificate of incorporation. Specifically, our certificate of incorporation provides, among other things, that:

- prior to the consummation of our initial business combination, we shall either (1) seek stockholder approval of our initial business combination at a meeting called for such purpose at which public stockholders may seek to convert their shares of common stock, regardless of whether they vote for or against the proposed business combination, into a portion of the aggregate amount then on deposit in the trust account, or (2) provide our stockholders with the opportunity to sell their shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account, in each case subject to the limitations described herein;
- we will consummate our initial business combination only if public stockholders do not exercise conversion rights in an amount that would cause our net tangible assets to be less than \$5,000,001 and a majority of the outstanding shares of common stock voted are voted in favor of the business combination;
- if our initial business combination is not consummated within 24 months of the closing of this offering, then our existence will terminate and we will distribute all amounts in the trust account to all of our public holders of shares of common stock;
- upon the consummation of this offering, \$70,000,000, or \$80,500,000 if the over-allotment option is exercised in full, shall be placed into the trust account;
- we may not consummate any other business combination, merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar transaction prior to our initial business combination; and
- prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (i) receive funds from the trust account or (ii) vote on any initial business combination.

Potential Revisions to Agreements with Insiders

Each of our insiders has entered into letter agreements with us pursuant to which each of them has agreed to do certain things relating to us and our activities prior to a business combination. We could seek to amend these letter agreements without the approval of stockholders, although we have no intention to do so. In particular:

- Restrictions relating to liquidating the trust account if we failed to consummate a business combination in the time-frames specified above could be amended, but only if we allowed all stockholders to redeem their shares in connection with such amendment;
- Restrictions relating to our insiders being required to vote in favor of a business combination or against any amendments to our organizational documents could be amended to allow our insiders to vote on a transaction as they wished;
- The requirement of members of the management team to remain our officer or director until the closing of a business combination could be amended to allow persons to resign from their positions with us if, for example, the current management team was having difficulty locating a target business and another management team had a potential target business;
- The restrictions on transfer of our securities could be amended to allow transfer to third parties who were not members of our original management team;
- The obligation of our management team to not propose amendments to our organizational documents could be amended to allow them to propose such changes to our stockholders;
- The obligation of insiders to not receive any compensation in connection with a business combination could be modified in order to allow them to receive such compensation;
- The requirement to obtain a valuation for any target business affiliated with our insiders, in the event it was too expensive to do so.

Except as specified above, stockholders would not be required to be given the opportunity to redeem their shares in connection with such changes. Such changes could result in:

- Our having an extended period of time to consummate a business combination (although with less in trust as a certain number of our stockholders would certainly redeem their shares in connection with any such extension);
- Our insiders being able to vote against a business combination or in favor of changes to our organizational documents;
- Our operations being controlled by a new management team that our stockholders did not elect to invest with;
- Our insiders receiving compensation in connection with a business combination; and
- Our insiders closing a transaction with one of their affiliates without receiving an independent valuation of such business.

We will not agree to any such changes unless we believed that such changes were in the best interests of our stockholders (for example, if we believed such a modification were necessary to complete a business combination). Each of our officers and directors have fiduciary obligations to us requiring that they act in our best interests and the best interests of our stockholders.

Competition

In identifying, evaluating and selecting a target business for our initial business combination, we may encounter intense competition from other entities having a business objective similar to ours, including other blank check companies, private equity groups and leveraged buyout funds, and operating businesses seeking strategic acquisitions. Many of these entities are well established and have significant experience identifying and effecting business combinations directly or through affiliates. Moreover, many of these competitors possess greater financial, technical, human and other resources than us. Our ability to acquire larger target businesses will be limited by our available financial resources. This inherent limitation gives others an advantage in pursuing the acquisition of a target business. Furthermore, the requirement that we acquire a target business or businesses having a fair market value equal to at least 80% of the value of the trust account (excluding any taxes payable) at the time of the agreement to enter into the business combination, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights and the number of our outstanding warrants and the future dilution they potentially represent, may not be viewed favorably by certain target businesses. Any of these factors may place us at a competitive disadvantage in successfully negotiating our initial business combination.

Facilities

We currently maintain our executive offices at 17 State Street, 21st Floor, New York, NY 10004. Our sponsor is making this space available to us free of charge. We consider our current office space adequate for our current operations.

Employees

We currently have two executive officers. These individuals are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time they will devote in any time period will vary based on whether a target business has been selected for our initial business combination and the stage of the business combination process we are in. We do not intend to have any full time employees prior to the consummation of our initial business combination.

Periodic Reporting and Audited Financial Statements

We have registered our units, shares of common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual report will contain financial statements audited and reported on by our independent registered public accountants.

We will provide stockholders with audited financial statements of the prospective target business as part of any proxy solicitation sent to stockholders to assist them in assessing the target business. In all likelihood, the financial information included in the proxy solicitation materials will need to be prepared in accordance with U.S. GAAP or IFRS, depending on the circumstances, and the historical financial statements may be required to be audited in accordance with the standards of the PCAOB. The financial statements may also be required to be prepared in accordance with U.S. GAAP for the Form 8-K announcing the closing of an initial business combination, which would need to be filed within four business days thereafter. We cannot assure you that any particular target business identified by us as a potential acquisition candidate will have the necessary financial information. To the extent that this requirement cannot be met, we may not be able to acquire the proposed target business.

We will be required to comply with the internal control requirements of the Sarbanes-Oxley Act beginning for the fiscal year ending June 30, 2019. A target company may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

We are an emerging growth company as defined in the JOBS Act and will remain such for up to five years. However, if our non-convertible debt issued within a three-year period or our total revenues exceed \$1.07 billion or the market value of our shares of common stock that are held by non-affiliates exceeds \$700 million on the last day of the second fiscal quarter of any given fiscal year, we would cease to be an emerging growth company as of the following fiscal year. As an emerging growth company, we have elected, under Section 107(b) of the JOBS Act, to take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any of our officers or directors in their capacity as such, and we and our officers and directors have not been subject to any such proceeding in the 12 months preceding the date of this prospectus.

Comparison to Offerings of Blank Check Companies Subject to Rule 419

The following table compares and contrasts the terms of our offering and the terms of an offering of blank check companies under Rule 419 promulgated by the SEC assuming that the gross proceeds, underwriting discounts and underwriting expenses for the Rule 419 offering are the same as this offering and that the underwriters will not exercise their over-allotment option. None of the terms of a Rule 419 offering will apply to this offering because we will be listed on a national securities exchange, we will have net tangible assets in excess of \$5,000,001 upon the successful consummation of this offering and will file a Current Report on Form 8-K, including an audited balance sheet demonstrating this fact.

	<u>Terms of the Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Escrow of offering proceeds	\$70,000,000 of the net offering proceeds and proceeds from the sale of the private warrants will be deposited into a trust account in the United States, maintained by Continental Stock Transfer & Trust Company, acting as trustee.	\$62,550,000 of the offering proceeds would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.
Investment of net proceeds	The \$70,000,000 of the net offering proceeds and proceeds from the sale of the private warrants held in trust will only be invested in United States government treasury bills, bonds or notes with a maturity of 180 days or less or in money market funds meeting the applicable conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940 and that invest solely in United States government treasuries.	Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act of 1940 or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.

	<u>Terms of the Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Limitation on fair value or net assets of target business	The initial target business that we acquire must have a fair market value equal to at least 80% of the balance in our trust account at the time of the execution of a definitive agreement for our initial business combination.	We would be restricted from acquiring a target business unless the fair value of such business or net assets to be acquired represent at least 80% of the maximum offering proceeds.
Trading of securities issued	The units may commence trading on or promptly after the date of this prospectus. The shares of common stock and warrants comprising the units will begin to trade separately on the 90th day after the date of this prospectus unless Chardan informs us of its decision to allow earlier separate trading (based upon its assessment of the relative strengths of the securities markets and small capitalization and blank check companies in general, and the trading pattern of, and demand for, our securities in particular), provided we have filed with the SEC a Current Report on Form 8-K, which includes an audited balance sheet reflecting our receipt of the proceeds of this offering.	No trading of the units or the underlying securities would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
Exercise of the warrants	The warrants cannot be exercised until the completion of a business combination and, accordingly, will be exercised only after the trust account has been terminated and distributed.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.

Election to remain an investor

Terms of the Offering

We will either (1) give our stockholders the opportunity to vote on the business combination or (2) provide our public stockholders with the opportunity to sell their public shares to us in a tender offer for cash equal to their *pro rata* share of the aggregate amount then on deposit in the trust account, less taxes. If we hold a meeting to approve a proposed business combination, we will send each stockholder a proxy statement containing information required by the SEC. Under our certificate of incorporation, we must provide at least 10 days advance notice of any meeting of stockholders. Accordingly, this is the minimum amount of time we would need to provide holders to determine whether to exercise their rights to convert their shares into cash at such a meeting or to remain an investor in our company. Alternatively, if we do not hold a meeting and instead conduct a tender offer, we will conduct such tender offer in accordance with the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination as we would have included in a proxy statement. The tender offer rules require us to hold the tender offer open for at least 20 business days. Accordingly, this is the minimum amount of time we would need to provide holders to determine whether they want to sell their shares to us in the tender offer or remain an investor in our company.

Terms Under a Rule 419 Offering

A prospectus containing information required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company, in writing, within a period of no less than 20 business days and no more than 45 business days from the effective date of the post-effective amendment, to decide whether he or she elects to remain a stockholder of the company or require the return of his or her investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account would automatically be returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all of the deposited funds in the escrow account must be returned to all investors and none of the securities will be issued.

Business combination deadline

Pursuant to our certificate of incorporation, if we do not complete an initial business combination within 24 months from the consummation of this offering, it will trigger our automatic winding up, dissolution and liquidation.

If an acquisition has not been consummated within 18 months after the effective date of the initial registration statement, funds held in the trust or escrow account would be returned to investors.

Interest earned on the funds in the trust account

Terms of the Offering

There can be released to us, from time to time any interest earned on the funds in the trust account that we may need to pay our tax obligations. The remaining interest earned on the funds in the trust account will not be released until the earlier of the completion of a business combination and our entry into liquidation upon failure to effect a business combination within the allotted time.

Terms Under a Rule 419 Offering

All interest earned on the funds in the trust account will be held in trust for the benefit of public stockholders until the earlier of the completion of a business combination and our liquidation upon failure to effect a business combination within the allotted time.

Release of funds

Except for interest earned on the funds held in the trust account that may be released to us to pay our tax obligations, the proceeds held in the trust account will not be released until the earlier of the completion of a business combination (in which case, the proceeds released to us will be net of the funds used to pay converting or tendering stockholders, as the trustee will directly send the appropriate portion of the amount held in trust to the converting or tendering stockholders at the time of the business combination) and the liquidation of our trust account upon failure to effect a business combination within the allotted time.

The proceeds held in the escrow account would not be released until the earlier of the completion of a business combination or the failure to effect a business combination within the allotted time.

MANAGEMENT

Directors and Executive Officers

Our current directors and executive officers are as follows:

<u>Name</u>	<u>Position</u>
Gbola Amusa	Executive Chairman of the Board
Jonas Grossman	President, Chief Executive Officer and Director
George Kaufman	Chief Financial Officer and Head of Strategy and Director
Michael Rice	Director
Richard Giroux	Director
Matthew Rossen	Director
Eric Kusseluk M.D.	Director
Elliot Gnedý	Director

Dr. Gbola Amusa, 44, has been our Executive Chairman since March 2018. Dr. Amusa has served as Partner, Director of Research, and Head of Healthcare Equity Research at Chardan Capital Markets since December 2014. At Chardan, he has established the healthcare vision by focusing on disruptive healthcare segments, such as gene therapy/genetic medicines, that have the highest potential for significant investment returns. Dr. Amusa was previously Managing Director, Head of European Pharma Research, and Global Pharma & Biotech Coordinator at UBS (from 2007 to 2013), where he oversaw 25 analysts. Prior to UBS, Dr. Amusa was a Senior Research Analyst and Head of European Pharma research at Sanford Bernstein. He started his career in finance at Goldman Sachs as an Associate in the Healthcare Investment Banking Group, where he worked on large transactions including the Amgen/ImmuneX merger. Additionally, Dr. Amusa was previously a Healthcare Finance & Strategy Consultant working with governments, companies, leading foundations and think tanks. He holds an M.D. from Washington University Medical School, an M.B.A. with High Honors (GPA 4.0/4.0) from the University of Chicago Booth School of Business, and a B.S.E. with Honors from Duke University.

Jonas Grossman, 44, has been our Chief Executive Officer since November 2017. Mr. Grossman has served as Partner and Head of Capital Markets for Chardan Capital Markets, LLC, a New York headquartered broker/dealer, since December 2003. Mr. Grossman has served as President of Chardan Capital Markets, LLC since September 2015. Since 2003, Mr. Grossman has overseen the firm's deal origination, syndication, secondary market sales and trading and corporate access initiatives. He has extensive transactional experience having led or managed over 400 transactions during his tenure at Chardan. Since December 2006, Mr. Grossman has served as a founding partner for Cornix Advisors, LLC, a New York based hedge fund. From 2001 until 2003, Mr. Grossman worked at Ramius Capital Group, LLC, a global multi-strategy hedge fund where he served as Vice President and Head Trader. Mr. Grossman has served as a director for China Broadband [NASDAQ: SSC] from January 2008 until November 2010. He holds a B.A. in Economics from Cornell University and an M.B.A. from NYU's Stern School of Business.

George Kaufman, 42, has been our Chief Financial Officer and Head of Strategy since March 2018. Mr. Kaufman has served as Managing Director and Head of Investment Banking for Chardan Capital Markets, LLC since January 2006. Mr. Kaufman established the investment banking, brokerage and marketing protocols and standards at Chardan since joining the firm in 2004. Mr. Kaufman has extensive experience with SPACs, M&A transactions and financings especially in association with emerging growth companies. Mr. Kaufman founded Detroit Coffee Company, LLC, a national roaster, wholesaler and retail distributor of high-end specialty coffees in January 2002 and currently serves as its chief executive officer and has been a director of Prime Acquisition Corp. a European real estate company, since May 2014. Mr. Kaufman received a Bachelor of Arts degree in Economics from the University of Vermont in 1999.

Michael Rice, 53, will serve as director following the completion of this offering. Mr. Rice has experience in portfolio management, corporate management, investment banking and capital markets. Mr. Rice has been the co-founder of LifeSci Advisors and LifeSci Capital since March 2010. From April 2007 to November 2008 Mr. Rice was the co-head of health care investment banking at Canaccord Adams, where he was involved in debt and equity financing. Mr. Rice was also a Managing Director at Think Equity Partners from April 2005 to April 2007, where he was responsible for managing Healthcare Capital Markets. Prior to that, from August 2003 to March 2005 Mr. Rice served as a Managing Director at Banc of America serving large hedge funds and private equity healthcare funds. Previously, he was a Managing Director at JPMorgan/Hambrecht & Quist. Mr. Rice has been a Director of RDD Pharma Ltd. since January 2016 and Navidea Biopharmaceuticals Inc. since May 2016. Mr. Rice received his BA from the University of Maryland. We believe Mr. Rice's long-running healthcare advisory experience as well as his previous company board positions make him well qualified to serve as a director for the Chardan Healthcare Acquisition Corporation.

Richard Giroux, 46, will serve as director following the completion of this offering. Mr. Giroux is a Founder and has been the Chief Operating Officer of MeiraGTx (NASDAQ:MGTX) since the company's formation in 2015. He brings more than 20 years of leadership and capital markets experience in finance and healthcare to his position. Prior to joining MeiraGTx, Rich was a partner at Sarissa Capital Management LP, an activist healthcare hedge fund, from 2014 to 2015. In 2010, Mr. Giroux helped launch and operate Meadowvale Partners, a multi-strategy hedge fund, where he was a founding partner and healthcare portfolio manager from 2009 to 2013. Prior to Meadowvale, he was a partner at Sivik Global Healthcare (formerly Argus Partners) from 2001-2008, a long/short global equity healthcare fund. From 1996 to 2001, he worked in the equity derivative divisions of Goldman Sachs and Salomon Smith Barney where he structured, marketed and traded derivative and cash products for domestic and international hedge funds and asset allocators. Mr. Giroux received his BA in Economics from Yale University in 1995.

Matthew Rossen, 41, will serve as director following the completion of this offering. Mr. Rossen has 20 years' experience in the pharmaceutical and biotech arena, working across multiple therapeutic categories including Anti-Infectives, Alzheimer's, Cardiovascular, Hematology, Pain and Sleep Science. Since January 2018, Mr. Rossen has been a Senior Director of Business Development for Jazz Pharmaceuticals. Prior to working in business development, from 2012 to 2017, Mr. Rossen had been leading the commercial efforts of the Hematology Oncology division at Jazz Pharmaceuticals. Prior thereto, from 2001 to 2010 Mr. Rossen worked at Pfizer Inc., where spent 10 years in positions of increasing responsibility across a number of functions including Operations and Manufacturing, US and WW Marketing and Commercial Development. He holds a B.S. in Kinesiology and Applied Human Physiology from the University of Colorado and received his MBA from NYU's Stern School of Business. We believe Mr. Rossen is well qualified to serve as a director due to his deep understanding of and appreciation for the investments needed to ensure development and commercial success in the Biosciences sector.

Dr. Eric Kusseluk, 43, will serve as director following the completion of this offering. Dr. Kusseluk is a Dermatologist who has been in private practice at NYU Langone Medical center since 2007. In addition to seeing patients, he has been associate professor at NYU since 2014, where he teaches the physicians, residents and medical students about practicing medicine and running a private practice. He has also done multiple clinical studies ranging from testing medical products to analyzing data on sentinel node biopsies. Before his medical career, he also worked in finance at Cantor Fitzgerald from 1997 to 1998. Dr. Kusseluk received an M.D. from Jefferson Medical College of Thomas Jefferson University and a B.A. in economics from Cornell University. We believe Dr. Kusseluk's work in healthcare and finance including his ability to assess biotechnology assets make him well qualified to serve as a director.

Elliot Gnedý, 37, will serve as director following the completion of this offering. Mr. Gnedý has been the Vice President of Commercial Finance at FuelCell Energy Inc., a leading manufacturer and operator of power generation facilities, since 2013. In his current role he is responsible for the origination, structuring, syndication, and execution of

financial transactions for FuelCell Energy Inc. He has 15+ years of experience in energy finance, corporate finance, and accounting, including direct sale M&A, sale leaseback, partnership flip, and term financing. Prior to joining FuelCell Energy Inc., Mr. Gnedy was with Global Capital Finance LLC from 2009 to 2013, working on both buy-side and sell-side M&A transactions for developers, financial institutions, and infrastructure funds. He has also held various roles at Ernst and Young's Financial Service Office in New York from 2004 to 2008, and at the Investor's Bank and Trust Company from 2003 to 2004. Elliot earned a B.S. from Lehigh University and an MBA from the Stern School of Business at NYU. We believe Mr. Gnedy's significant experience in finance and accounting make him well qualified to serve as a member of our board of directors.

Special Advisor

Sukumar Nagendran, MD has agreed to be our special advisor. Dr. Nagendran has been a Director of Solid Biosciences Inc board, since September 13, 2018. Dr. Nagendran was the Chief Medical Officer and Senior Vice President of AveXis, Inc. from September 2015 until June 2018. Dr. Nagendran was responsible for overseeing and driving all clinical development and medical affairs strategies and efforts for AveXis and its pipeline. He served as Vice President/Head of Global Medical Affairs at Quest Diagnostics Inc. from April 2012 until September 2015. He has held key leadership positions across multiple medical functions to drive support for many innovative products, including clinical trials/operations, field medical, medical product team, national and regional payer efforts, publications, advocacy and genetic counseling activities/oversight. He was instrumental in building the medical affairs function at Quest Diagnostics, the largest lab/diagnostics provider in the world. Dr. Nagendran is a Mayo Alumni Laureate and founding member of the Robert Wood Johnson Legacy Society. He is also the sponsor for the Vivian Fonseca- Nagendran Scholar award at the American Diabetes Association to enhance research in minority populations and the Sukumar and Ann Nagendran International Medical Study Scholarship at Rutgers Medical School. He served as Vice President and Head of Medical Affairs at Reata Pharma. Prior to that, he was therapeutic-area head for new product development, medical affairs, clinical operations and biometrics, in which he oversaw several therapeutic areas, including oncology, cardiovascular disease and diabetes, for Daiichi Sankyo. He has held other senior positions related to clinical development and medical affairs for Pfizer and Novartis. He also has significant clinical practice experience. In his career, Dr. Nagendran practiced in a large internal-medicine physician group and was a staff physician at three hospitals in Phoenix, Arizona. In addition, he is formerly a member of the PrimeCare managed care committee for Phoenix-based Banner Health Systems, one of the largest nonprofit healthcare systems in the United States. Dr. Nagendran's research on gene therapy, cardiovascular disease, diabetes, oncology, pulmonary medicine and other areas of medicine has been published in a number of peer-reviewed publications, including NEJM, Endocrine Practice, Current Medical Research & Opinion, Neurology and Journal of Clinical Lipidology. He serves as a Member of Advisory Board of Medocity, Inc. He serves as a Member of Advisory Board of Medivo/Prognos Inc. and an Advisor of Brandix I3. He completed his internal medicine training at The Mayo Clinic in Rochester, Minnesota and was inducted into the prestigious Mayo Alumni Laureate Group. He received his M.D. at Rutgers Medical School. Dr. Nagendran earned a bachelor's degree in biochemistry from Rutgers University and earned his doctorate in medicine from UMDNJ-Robert Wood Johnson Medical School in New Jersey, where he was awarded academic excellence awards in Internal Medicine, Radiology, Psychiatry and the Robert Wood Johnson Alumni award for the class of 1994.

Executive Compensation

No executive officer has received any cash compensation for services rendered to us. No compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our existing stockholders, including our directors, or any of their respective affiliates, prior to, or for any services they render in order to effectuate, the consummation of a business combination. However, such individuals will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. There is no limit on the amount of these out-of-pocket expenses and there will be no review of the reasonableness of the expenses by anyone other than our board of directors and audit committee, which includes persons who may seek reimbursement, or a court of competent jurisdiction if such reimbursement is challenged.

Director Independence

The NYSE American stock exchange requires that a majority of our board must be composed of "independent directors," which is defined generally as a person other than an officer or employee of the company or its subsidiaries or any other individual having a relationship, which, in the opinion of the company's board of directors would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director.

Upon the effective date of the registration statement of which this prospectus forms a part, Messrs. Rice, Giroux, Rossen, Kusseluk, and Gnedý have become our independent directors. Our independent directors will have regularly scheduled meetings at which only independent directors are present. Any affiliated transactions will be on terms that our board believes are no less favorable to us than could be obtained from independent parties.

Audit Committee

Effective as of the date of this prospectus, we have established an audit committee of the board of directors, which will consist of Rossen, Kusseluk, and Gnedý, each of whom is an independent director under the NYSE American's listing standards. Mr. Gnedý is the Chairperson of the audit committee. The audit committee's duties, which are specified in our Audit Committee Charter, include, but are not limited to:

- reviewing and discussing with management and the independent auditor the annual audited financial statements, and recommending to the board whether the audited financial statements should be included in our Form 10-K;

- discussing with management and the independent auditor significant financial reporting issues and judgments made in connection with the preparation of our financial statements;
- discussing with management major risk assessment and risk management policies;
- monitoring the independence of the independent auditor;
- verifying the rotation of the lead (or coordinating) audit partner having primary responsibility for the audit and the audit partner responsible for reviewing the audit as required by law;
- reviewing and approving all related-party transactions;
- inquiring and discussing with management our compliance with applicable laws and regulations;
- pre-approving all audit services and permitted non-audit services to be performed by our independent auditor, including the fees and terms of the services to be performed;
- appointing or replacing the independent auditor;
- determining the compensation and oversight of the work of the independent auditor (including resolution of disagreements between management and the independent auditor regarding financial reporting) for the purpose of preparing or issuing an audit report or related work;
- establishing procedures for the receipt, retention and treatment of complaints received by us regarding accounting, internal accounting controls or reports which raise material issues regarding our financial statements or accounting policies; and
- approving reimbursement of expenses incurred by our management team in identifying potential target businesses.

Financial Experts on Audit Committee

Pursuant to NYSE American rules, the audit committee will at all times be composed exclusively of “independent directors” who are able to read and understand fundamental financial statements, including a company’s balance sheet, income statement and cash flow statement.

In addition, we must certify to the NYSE American that the committee has, and will continue to have, at least one member who has past employment experience in finance or accounting, requisite professional certification in accounting, or other comparable experience or background that results in the individual’s financial sophistication. The board of directors has determined that Mr. Gnedý qualifies as an “audit committee financial expert,” as defined under rules and regulations of the NYSE American and the SEC.

Nominating Committee

Effective as of the date of this prospectus, we have established a nominating committee of the board of directors, which will consist of Rossen, Kusseluk, and Gnedý, each of whom is an independent director under the NYSE American’s listing standards. Mr. Rossen is the Chairperson of the nominating committee. The nominating committee is responsible for overseeing the selection of persons to be nominated to serve on our board of directors. The nominating committee considers persons identified by its members, management, stockholders, investment bankers and others.

Guidelines for Selecting Director Nominees

The guidelines for selecting nominees, which are specified in the Nominating Committee Charter, generally provide that persons to be nominated:

- should have demonstrated notable or significant achievements in business, education or public service;

- should possess the requisite intelligence, education and experience to make a significant contribution to the board of directors and bring a range of skills, diverse perspectives and backgrounds to its deliberations; and
- should have the highest ethical standards, a strong sense of professionalism and intense dedication to serving the interests of the stockholders.

The nominating committee will consider a number of qualifications relating to management and leadership experience, background and integrity and professionalism in evaluating a person's candidacy for membership on the board of directors. The nominating committee may require certain skills or attributes, such as financial or accounting experience, to meet specific board needs that arise from time to time and will also consider the overall experience and makeup of its members to obtain a broad and diverse mix of board members. The nominating committee does not distinguish among nominees recommended by stockholders and other persons.

Compensation Committee

Effective as of the date of this prospectus, we will establish a compensation committee of the board of directors, which will consist of Messrs. Rossen, Kusseluk, and Gnedy, each of whom is an independent director under the NYSE American's listing standards. Mr. Kusseluk is the Chairperson of the compensation committee. The compensation committee's duties, which are specified in our Compensation Committee Charter, include, but are not limited to:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer's based on such evaluation;
- reviewing and approving the compensation of all of our other executive officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our executive officers and employees;
- if required, producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

Notwithstanding the foregoing, as indicated above, no compensation of any kind, including finders, consulting or other similar fees, will be paid to any of our existing stockholders, including our directors, or any of their respective affiliates, prior to, or for any services they render in order to effectuate, the consummation of a business combination. Accordingly, it is likely that prior to the consummation of an initial business combination, the compensation committee will only be responsible for the review and recommendation of any compensation arrangements to be entered into in connection with such initial business combination.

Code of Ethics

Upon consummation of this offering, we will adopt a code of ethics that applies to all of our executive officers, directors and employees. The code of ethics codifies the business and ethical principles that govern all aspects of our business.

Conflicts of Interest

Potential investors should be aware of the following potential conflicts of interest:

- None of our officers and directors is required to commit their full time to our affairs and, accordingly, they may have conflicts of interest in allocating their time among various business activities.
- In the course of their other business activities, our officers and directors may become aware of investment and business opportunities which may be appropriate for presentation to our company as well as the other entities with which they are affiliated. Our management has pre-existing fiduciary duties and contractual obligations and if there is a conflict of interest in determining to which entity a particular business opportunity should be presented, any pre-existing fiduciary obligation will be presented the opportunity before we are presented with it.
- Our officers and directors may in the future become affiliated with entities, including other blank check companies, engaged in business activities similar to those intended to be conducted by our company.
- The insider shares owned by our officers and directors will be released from escrow only if a business combination is successfully completed and subject to certain other limitations. Additionally, our officers and directors will not receive distributions from the trust account with respect to any of their insider shares if we do not complete a business combination. In addition, our officers and directors may loan funds to us after this offering and may be owed reimbursement for expenses incurred in connection with certain activities on our behalf which would only be repaid if we complete an initial business combination. For the foregoing reasons, the personal and financial interests of our directors and executive officers may influence their motivation in identifying and selecting a target business, completing a business combination in a timely manner and securing the release of their shares.

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to the corporation and its stockholders for the opportunity not to be brought to the attention of the corporation.

Accordingly, as a result of multiple business affiliations, our officers and directors may have similar legal obligations relating to presenting business opportunities meeting the above-listed criteria to multiple entities. Furthermore, our certificate of incorporation provides that the doctrine of corporate opportunity will not apply with respect to any of our officers or directors in circumstances where the application of the doctrine would conflict with any fiduciary duties or contractual obligations they may have. In order to minimize potential conflicts of interest which may arise from multiple affiliations, our officers and directors (other than our independent directors) have agreed to present to us for our consideration, prior to presentation to any other person or entity, any suitable opportunity to acquire a target business, until the earlier of: (1) our consummation of an initial business combination and (2) 24 months from the date of this prospectus. This agreement is, however, subject to any pre-existing fiduciary and contractual obligations such officer or director may from time to time have to another entity. Accordingly, if any of them becomes aware of a business combination opportunity which is suitable for an entity to which he or she has pre-existing fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such business combination opportunity to such entity, and only present it to us if such entity rejects the opportunity. We do not believe, however, that the pre-existing fiduciary duties or contractual obligations of our officers and directors will materially undermine our ability to complete our business combination because in most cases the affiliated companies are closely held entities controlled by the officer or director or the nature of the affiliated company's business is such that it is unlikely that a conflict will arise

The following table summarizes the other relevant pre-existing fiduciary or contractual obligations of our officers and directors:

Name of Affiliated Company	Name of Individual	Priority/Preference relative to Chardan Healthcare Acquisition Corp.
Chardan Capital Markets LLC	Gbola Amusa	Chardan Capital Markets LLC will have priority over us
Chardan Capital Markets LLC	Jonas Grossman	Chardan Capital Markets LLC will have priority over us
Chardan Capital Markets LLC	George Kaufman	Chardan Capital Markets LLC will have priority over us
Prime Acquisition Corp.	George Kaufman	We do not believe that Prime Acquisition Corp. will result in a conflict because Prime focusses on the real estate industry in Europe
LifeSci Advisors, LLC	Michael Rice	LifeSci Advisors, LLC will have priority over us
MeiraGTx	Richard Giroux	MeiraGTx will have priority over us
Jazz Pharmaceuticals	Matthew Rossen	Jazz Pharmaceuticals will have priority over us
FuelCell Energy Inc.	Elliot Gnedý	FuelCell Energy Inc. will have priority over us

As noted above, some of our officers and directors are affiliated with Chardan Capital Markets LLC, which is also our sponsor and the underwriter in this offering. Such officers and directors owe a pre-existing fiduciary duty to Chardan Capital Markets LLC, meaning that they will present opportunities to Chardan Capital Markets LLC prior to presenting them to us, if, for example, a potential target company is open to either raising funds in an offering or engaging in a transaction with a SPAC. This may limit the number of potential targets they present to us for purposes of completing a business combination.

In connection with the vote required for any business combination, all of our existing stockholders, including all of our officers and directors, have agreed to vote their respective insider shares in favor of any proposed business combination. In addition, they have agreed to waive their respective rights to participate in any liquidation distribution with respect to those shares of common stock acquired by them prior to this offering. If they purchase shares of common stock in this offering or in the open market, however, they would be entitled to participate in any liquidation distribution in respect of such shares but have agreed not to convert such shares (or sell their shares in any tender offer) in connection with the consummation of our initial business combination or an amendment to our certificate of incorporation relating to pre-business combination activity.

All ongoing and future transactions between us and any of our officers and directors or their respective affiliates will be on terms believed by us to be no less favorable to us than are available from unaffiliated third parties. Such transactions will require prior approval by our audit committee and a majority of our uninterested “independent” directors, or the members of our board who do not have an interest in the transaction, in either case who had access, at our expense, to our attorneys or independent legal counsel. We will not enter into any such transaction unless our audit committee and a majority of our disinterested “independent” directors determine that the terms of such transaction are no less favorable to us than those that would be available to us with respect to such a transaction from unaffiliated third parties.

To further minimize conflicts of interest, we have agreed not to consummate our initial business combination with an entity that is affiliated with any of our officers, directors or initial stockholders, unless we have obtained (i) an opinion from an independent investment banking firm that the business combination is fair to our unaffiliated stockholders from a financial point of view and (ii) the approval of a majority of our disinterested and independent directors (if we have any at that time). Furthermore, in no event will any of our initial stockholders, officers, directors, special advisors or their respective affiliates be paid any finder’s fee, consulting fee or other similar compensation prior to, or for any services they render in order to effectuate, the consummation of our initial business combination.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our shares of common stock as of the date of this prospectus and as adjusted to reflect the sale of our shares of common stock included in the units offered by this prospectus (assuming none of the individuals listed purchase units in this offering), by:

- each person known by us to be the beneficial owner of more than 5% of our issued and outstanding shares of common stock;
- each of our officers and directors; and
- all of our officers and directors as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. The following table does not reflect record of beneficial ownership of any shares of common stock issuable upon exercise of the warrants, as the warrants are not exercisable within 60 days of the date of this prospectus.

Name and Address of Beneficial Owner ⁽¹⁾	Prior to Offering		After Offering ⁽²⁾	
	Amount and Nature of Beneficial Ownership	Approximate Percentage of Outstanding Shares of Common Stock	Amount and Nature of Beneficial Ownership	Approximate Percentage of Outstanding Shares of Common Stock
Gbola Amusa	0	0	0	0
Jonas Grossman	1,970,000 ⁽³⁾	97.9%	1,707,500	19.5%
George Kaufman	0	0	0	0
Michael Rice	7,500	*	7,500	*
Richard Giroux	7,500	*	7,500	*
Matthew Rossen	7,500	*	7,500	*
Eric Kusseluk MD	7,500	*	7,500	*
Elliot Gnedy	7,500	*	7,500	*
All officers and directors as a group (7 individuals)	2,007,500	99.8%	1,745,000	19.9%
Chardan Investments, LLC ⁽⁴⁾	1,970,000	97.9%	1,707,500	19.5%

* Less than 1%.

(1) Unless otherwise indicated, the business address of each of the individuals is c/o Chardan Healthcare Acquisition Corp., 17 State Street, 21st Floor, New York, NY 10004.

(2) Assumes no exercise of the over-allotment option and, therefore, an aggregate of 262,500 shares of common stock held by our initial stockholders are forfeited.

(3) Consists of shares of common stock owned by Chardan Investments, LLC, for which Jonas Grossman is the managing member.

(4) Jonas Grossman is the managing member of Chardan Investments, LLC.

Immediately after this offering, our initial stockholders will beneficially own 20% of the then issued and outstanding shares of common stock (assuming none of them purchase any units offered by this prospectus). None of our initial stockholders, officers and directors has indicated to us that he intends to purchase securities in this offering. Because of the ownership block held by our initial stockholders, such individuals may be able to effectively exercise control over all matters requiring approval by our stockholders, including the election of directors and approval of significant corporate transactions other than approval of our initial business combination.

If the underwriters do not exercise all or a portion of the over-allotment option, our initial stockholders will have up to an aggregate 262,500 shares of common stock subject to forfeiture. Only a number of shares necessary to maintain our initial stockholders' collective 20% ownership interest in our shares of common stock after giving effect to the offering and the exercise, if any, of the underwriters' over-allotment option will be forfeited.

All of the insider shares issued and outstanding prior to the date of this prospectus will be placed in escrow with Continental Stock Transfer & Trust Company, as escrow agent, until (1) with respect to 50% of the insider shares, the earlier of six months after the date of the consummation of our initial business combination and the date on which the closing price of our common stock equals or exceeds \$12.50 per share (as adjusted for share splits, share capitalizations, reorganizations and recapitalizations) for any 20 trading days within any 30-trading day period commencing after our initial business combination and (2) with respect to the remaining 50% of the insider shares, six months after the date of the consummation of our initial business combination, or earlier, in either case, if, subsequent to our initial business combination, we consummate a liquidation, merger, share exchange or other similar transaction which results in all of our stockholders having the right to exchange their shares for cash, securities or other property. Up to 262,500 of the insider shares may also be released from escrow earlier than this date for forfeiture and cancellation if the over-allotment option is not exercised in full as described above.

During the escrow period, the holders of these shares will not be able to sell or transfer their securities except (i) for transfers to our officers, directors or their respective affiliates (including for transfers to an entity's members upon its liquidation), (ii) to relatives and trusts for estate planning purposes, (iii) by virtue of the laws of descent and distribution upon death, (iv) pursuant to a qualified domestic relations order, (v) by certain pledges to secure obligations incurred in connection with purchases of our securities, (vi) by private sales made at or prior to the consummation of a business combination at prices no greater than the price at which the shares were originally purchased or (vii) to us for no value for cancellation in connection with the consummation of our initial business combination, in each case (except for clause (vii)) where the transferee agrees to the terms of the escrow agreement, but will retain all other rights as our stockholders, including, without limitation, the right to vote their shares of common stock and the right to receive cash dividends, if declared. If dividends are declared and payable in shares of common stock, such dividends will also be placed in escrow. If we are unable to effect a business combination and liquidate the trust account, none of our initial stockholders will receive any portion of the liquidation proceeds with respect to their insider shares.

Mountain Wood, LLC, an affiliate of our sponsor, has committed to purchase from us an aggregate of 2,900,000 warrants, or "private warrants," at \$0.40 per private warrant (for a total purchase price of \$1,160,000), with each warrant exercisable for one share of common stock at an exercise price of \$11.50 per share. These purchases will take place on a private placement basis simultaneously with the consummation of this offering. All of the proceeds we receive from these purchases will be placed in the trust account described below. The proceeds from the private placement of the private warrants will be added to the proceeds of this offering and placed in a trust account in the United States maintained by Continental Stock Transfer & Trust Company, as trustee. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds from the sale of the private warrants will be included in the liquidating distribution to the holders of our public shares. The private warrants are identical to the warrants sold as part of the public units in this offering except that (i) each private warrant is exercisable for one share of common stock at an exercise price of \$11.50 per share, and (ii) the private warrants will be non-redeemable and may be exercised on a cashless basis, in each case so long as they continue to be held by the initial purchasers or their permitted transferees.

In order to meet our working capital needs following the consummation of this offering, our initial stockholders, officers and directors or their affiliates may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion. Each loan would be evidenced by a promissory note. The notes would either be paid upon consummation of our initial business combination, without interest, or, at the lender's discretion, up to \$500,000 of the notes may be converted upon consummation of our business combination into additional private warrants to purchase shares of common stock at a conversion price of \$0.40 per private warrant (which, for example, would result in the holders being issued private warrants to purchase 1,250,000 shares of common stock if \$500,000 of notes were so converted). Such private warrants will be identical to the private warrants to be issued at the closing of this offering. Our stockholders have approved the issuance of the private warrants and underlying securities upon conversion of such notes, to the extent the holder wishes to so convert them at the time of the consummation of our initial business combination. If we do not complete a business combination, the loans will not be repaid.

Chardan Investments, LLC is our "promoter," as that term is defined under the Federal securities laws.

CERTAIN TRANSACTIONS

In March 2018, our sponsor purchased an aggregate of 1,437,500 shares for an aggregate purchase price of \$25,000. On September 14, 2018, we effected a 1.4 for 1 dividend in the nature of a stock split that resulted in there being an aggregate of 2,012,500 shares outstanding (resulting in a purchase price of approximately \$0.012).

If the underwriters do not exercise all or a portion of their over-allotment option, our initial stockholders have agreed that up to an aggregate of 262,500 shares of common stock in proportion to the portion of the over-allotment option that was not exercised are subject to forfeiture and would be immediately cancelled.

If the underwriters determine the size of the offering should be increased (including pursuant to Rule 462(b) under the Securities Act) or decreased, a share capitalization or a contribution back to capital, as applicable, would be effectuated in order to maintain our initial stockholder's ownership at 20% of the number of shares issued and outstanding after the closing of this offering.

Mountain Wood, LLC, an affiliate of our sponsor, has committed to purchase from us an aggregate of 2,900,000 warrants, or "private warrants," at \$0.40 per private warrant (for a total purchase price of \$1,160,000), with each warrant exercisable for one share of common stock at an exercise price of \$11.50 per share. These purchases will take place on a private placement basis simultaneously with the consummation of this offering. All of the proceeds we receive from these purchases will be placed in the trust account described below. These additional private warrants will be purchased in a private placement that will occur simultaneously with the purchase of units resulting from the exercise of the over-allotment option. The proceeds from the private placement of the private warrants will be added to the proceeds of this offering and placed in a trust account in the United States at Morgan Stanley maintained by Continental Stock Transfer & Trust Company, as trustee. If we do not complete our initial business combination within 24 months from the closing of this offering, the proceeds from the sale of the private warrants will be included in the liquidating distribution to the holders of our public shares. The private warrants are identical to the warrants sold as part of the public units in this offering except that (i) each private warrant is exercisable for one share of common stock at an exercise price of \$11.50 per share, and (ii) the private warrants will be non-redeemable and may be exercised on a cashless basis, in each case so long as they continue to be held by the initial purchasers or their permitted transferees.

In order to meet our working capital needs following the consummation of this offering, our initial stockholders, officers and directors and their respective affiliates may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion. Each loan would be evidenced by a promissory note. The notes would either be paid upon consummation of our initial business combination, without interest, or, at the lender's discretion, up to \$500,000 of the notes may be converted upon consummation of our business combination into additional private warrants to purchase shares of common stock at a conversion price of \$0.40 per private warrant (which, for example, would result in the holders being issued private warrants to purchase 1,250,000 shares of common stock if \$500,000 of notes were so converted). Such private warrants will be identical to the private warrants to be issued at the closing of this offering. Our stockholders have approved the issuance of the private warrants and underlying securities upon conversion of such notes, to the extent the holder wishes to so convert them at the time of the consummation of our initial business combination. If we do not complete a business combination, the loans would not be repaid.

The holders of our insider shares issued and outstanding on the date of this prospectus, as well as the holders of the private warrants (and all underlying securities) and any securities our initial stockholders, officers, directors or their affiliates may be issued in payment of working capital loans made to us, will be entitled to registration rights pursuant to an agreement to be signed prior to or on the effective date of this offering. The holders of a majority of these securities are entitled to make up to two demands that we register such securities. The holders of the majority of the insider shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these shares of common stock are to be released from escrow. The holders of a majority of the private units or securities issued in payment of working capital loans made to us can elect to exercise these registration rights at any time after we consummate a business combination. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our consummation of a business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

As of the date of this prospectus, our sponsor has loaned us \$85,500 to cover expenses related to this offering. The loans are non-interest bearing and payable on the date on which we consummate the offering. We intend to repay the advance from the proceeds of this offering not placed in the trust account.

In addition, our sponsor will pay the \$500,000 in underwriting fees and qualified independent underwriter fees and receive a non-interest bearing promissory note in exchange for the payment of such amount. The promissory note will be payable at the closing of a business combination.

We will reimburse our officers and directors for any reasonable out-of-pocket business expenses incurred by them in connection with certain activities on our behalf such as identifying and investigating possible target businesses and business combinations. There is no limit on the amount of out-of-pocket expenses reimbursable by us; provided, however, that to the extent such expenses exceed the available proceeds not deposited in the trust account and the interest income earned on the amounts held in the trust account, such expenses would not be reimbursed by us unless we consummate an initial business combination. Our audit committee will review and approve all reimbursements and payments made to any initial stockholder or member of our management team, or our or their respective affiliates, and any reimbursements and payments made to members of our audit committee will be reviewed and approved by our Board of Directors, with any interested director abstaining from such review and approval.

No compensation or fees of any kind, including finder's fees, consulting fees or other similar compensation, will be paid to any of our initial stockholders, officers or directors who owned our shares of common stock prior to this offering, or to any of their respective affiliates, prior to or with respect to the business combination (regardless of the type of transaction that it is).

All ongoing and future transactions between us and any of our officers and directors or their respective affiliates will be on terms believed by us to be no less favorable to us than are available from unaffiliated third parties. Such transactions, including the payment of any compensation, will require prior approval by a majority of our uninterested "independent" directors (to the extent we have any) or the members of our board who do not have an interest in the transaction, in either case who had access, at our expense, to our attorneys or independent legal counsel. We will not enter into any such transaction unless our disinterested "independent" directors (or, if there are no "independent" directors, our disinterested directors) determine that the terms of such transaction are no less favorable to us than those that would be available to us with respect to such a transaction from unaffiliated third parties.

Related Party Policy

Our Code of Ethics, which we will adopt upon consummation of this offering, will require us to avoid, wherever possible, all related party transactions that could result in actual or potential conflicts of interests, except under guidelines approved by the board of directors (or the audit committee). Related-party transactions are defined as transactions in which (1) the aggregate amount involved will or may be expected to exceed \$120,000 in any calendar year, (2) we or any of our subsidiaries is a participant, and (3) any (a) executive officer, director or nominee for election as a director, (b) greater than 5% beneficial owner of our common stock, or (c) immediate family member, of the persons referred to in clauses (a) and (b), has or will have a direct or indirect material interest (other than solely as a result of being a director or a less than 10% beneficial owner of another entity). A conflict of interest situation can arise when a person takes actions or has interests that may make it difficult to perform his or her work objectively and effectively. Conflicts of interest may also arise if a person, or a member of his or her family, receives improper personal benefits as a result of his or her position.

Our audit committee, pursuant to its written charter, will be responsible for reviewing and approving related-party transactions to the extent we enter into such transactions. All ongoing and future transactions between us and any of our officers and directors or their respective affiliates will be on terms believed by us to be no less favorable to us than are available from unaffiliated third parties. Such transactions will require prior approval by our audit committee and a majority of our uninterested "independent" directors, or the members of our board who do not have an interest in the transaction, in either case who had access, at our expense, to our attorneys or independent legal counsel. We will not enter into any such transaction unless our audit committee and a majority of our disinterested "independent" directors determine that the terms of such transaction are no less favorable to us than those that would be available to us with respect to such a transaction from unaffiliated third parties. Additionally, we require each of our directors and executive officers to complete a directors' and officers' questionnaire that elicits information about related party transactions.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize potential conflicts of interest, we have agreed not to consummate a business combination with an entity which is affiliated with any of our initial stockholders unless we obtain an opinion from an independent investment banking firm that the business combination is fair to our unaffiliated stockholders from a financial point of view. Furthermore, in no event will any of our existing officers, directors or initial stockholders, or any entity with which they are affiliated, be paid any finder's fee, consulting fee or other compensation prior to, or for any services they render in order to effectuate, the consummation of a business combination.

DESCRIPTION OF SECURITIES

General

Our certificate of incorporation currently authorizes the issuance of 30,000,000 shares of common stock, par value \$0.0001, and 1,000,000 preferred shares, par value \$0.0001. As of the date of this prospectus, 2,012,500 shares of common stock are issued and outstanding, held our sponsor, our directors, and affiliates of our management team. No preferred shares are issued or outstanding.

Units

Each unit consists of one share of common stock and one warrant. Each warrant entitles the holder thereof to purchase one-half (1/2) of a share of common stock at a price of \$11.50 per whole share, subject to adjustment as described in this prospectus. Each warrant will become exercisable on the later of one year after the closing of this offering or the consummation of an initial business combination, and will expire five years after the completion of an initial business combination, or earlier upon redemption. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares. This means that only an even number of public warrants may be exercised at any given time by a warrant holder. For example, if a warrant holder holds one public warrant to purchase one-half (1/2) of one share, such warrant shall not be exercisable. If a warrant holder holds two public warrants, such public warrants will be exercisable for one share.

The shares of common stock and warrants comprising the units will not be separately traded until 90 days of the effective date of this prospectus unless Chardan informs us of its decision to allow earlier separate trading, but in no event will the shares of common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet reflecting our receipt of the gross proceeds of this offering. We will file a Current Report on Form 8-K which includes this audited balance sheet upon the consummation of this offering, which is anticipated to take place three business days after the date of this prospectus. The audited balance sheet will include proceeds we received from the exercise of the over-allotment option if such option is exercised prior to the filing of the Current Report on Form 8-K. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Common Stock

Our holders of record of our common stock are entitled to one vote for each share held on all matters to be voted on by stockholders. In connection with any vote held to approve our initial business combination, our insiders, officers and directors, have agreed to vote their respective shares of common stock owned by them immediately prior to this offering, including both the insider shares and any shares acquired in this offering or following this offering in the open market, in favor of the proposed business combination.

We will consummate our initial business combination only if public stockholders do not exercise conversion rights in an amount that would cause our net tangible assets to be less than \$5,000,001 and a majority of the outstanding shares of common stock voted are voted in favor of the business combination.

Pursuant to our certificate of incorporation, if we do not consummate our initial business combination within 24 months from the closing of this offering, we will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem 100% of the outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject (in the case of (ii) and (iii) above) to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our insiders have agreed to waive their rights to share in any distribution with respect to their insider shares.

Our stockholders have no conversion, preemptive or other subscription rights and there are no sinking fund or redemption provisions applicable to the shares of common stock, except that public stockholders have the right to sell their shares to us in any tender offer or have their shares of common stock converted to cash equal to their pro rata share of the trust account if they vote on the proposed business combination and the business combination is completed. If we hold a stockholder vote to amend any provisions of our certificate of incorporation relating to stockholder's rights or pre-business combination activity (including the substance or timing within which we have to complete a business combination), we will provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest earned on the funds held in the trust account and not previously released to us to pay our franchise and income taxes, divided by the number of then outstanding public shares, in connection with any such vote. In either of such events, converting stockholders would be paid their pro rata portion of the trust account promptly following consummation of the business combination or the approval of the amendment to the certificate of incorporation. If the business combination is not consummated or the amendment is not approved, stockholders will not be paid such amounts.

Preferred Stock

There are no shares of preferred stock outstanding. Our certificate of incorporation filed with the State of Delaware authorizes the issuance of 1,000,000 shares of preferred stock with such designation, rights and preferences as may be determined from time to time by our board of directors. No shares of preferred stock are being issued or registered in this offering. Accordingly, our board of directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of common stock. However, the underwriting agreement prohibits us, prior to a business combination, from issuing preferred stock which participates in any manner in the proceeds of the trust account, or which votes as a class with the common stock on our initial business combination. We may issue some or all of the preferred stock to effect our initial business combination. In addition, the preferred stock could be utilized as a method of discouraging, delaying or preventing a change in control of us. Although we do not currently intend to issue any shares of preferred stock, we reserve the right to do so in the future.

Warrants

No warrants are currently outstanding. Each warrant entitles the registered holder to purchase one-half (1/2) of a share of common stock at a price of \$11.50 per whole share, subject to adjustment as discussed below, at any time commencing on the later of one year after the closing of this offering or the consummation of an initial business combination. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares. This means that only an even number of public warrants may be exercised at any given time by a warrant holder. However, no public warrants will be exercisable for cash unless we have an effective and current registration statement covering the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to such shares of common stock. Notwithstanding the foregoing, if a registration statement covering the shares of common stock issuable upon exercise of the public warrants is not effective within 120 days from the closing of our initial business combination, warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. The warrants will expire five years from the closing of our initial business combination at 5:00 p.m., New York City time.

The private warrants will be identical to the public warrants underlying the units being offered by this prospectus except that (i) each private warrant is exercisable for one share of common stock at an exercise price of \$11.50 per share, and (ii) such private warrants will be exercisable for cash (even if a registration statement covering the shares of common stock issuable upon exercise of such warrants is not effective) or on a cashless basis, at the holder's option, and will not be redeemable by us, in each case so long as they are still held by the initial purchasers or their affiliates.

We may call the outstanding warrants for redemption (excluding the private warrants), in whole and not in part, at a price of \$.01 per warrant:

- at any time while the warrants are exercisable,
- upon not less than 30 days' prior written notice of redemption to each warrant holder,
- if, and only if, the reported last sale price of the shares of common stock equals or exceeds \$16.00 per share, for any 20 trading days within a 30-day trading period ending on the third business day prior to the notice of redemption to warrant holders, and
- if, and only if, there is a current registration statement in effect with respect to the shares of common stock underlying such warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

The right to exercise will be forfeited unless the warrants are exercised prior to the date specified in the notice of redemption. On and after the redemption date, a record holder of a warrant will have no further rights except to receive the redemption price for such holder's warrant upon surrender of such warrant.

The redemption criteria for our warrants have been established at a price which is intended to provide warrant holders a reasonable premium to the initial exercise price and provide a sufficient differential between the then-prevailing share price and the warrant exercise price so that if the share price declines as a result of our redemption call, the redemption will not cause the share price to drop below the exercise price of the warrants.

If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a "cashless basis." In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of common stock equal to the quotient obtained by dividing (x) the product of the number of shares of common stock underlying the warrants, multiplied by the difference between the exercise price of the warrants and the "fair market value" (defined below) by (y) the fair market value. The "fair market value" shall mean the average reported last sale price of our common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. Whether we will exercise our option to require all holders to exercise their warrants on a "cashless basis" will depend on a variety of factors including the price of our common shares at the time the warrants are called for redemption, our cash needs at such time and concerns regarding dilutive share issuances.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval, by written consent or vote, of the holders of a majority of the then outstanding warrants in order to make any change that adversely affects the interests of the registered holders.

The exercise price and number of shares of common stock issuable on exercise of the warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or our recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuances of shares of common stock at a price below their respective exercise prices.

The warrants may be exercised upon surrender of the warrant certificate on or prior to the expiration date at the offices of the warrant agent, with the exercise form on the reverse side of the warrant certificate completed and executed as indicated, accompanied by full payment of the exercise price, by certified or official bank check payable to us, for the number of warrants being exercised. The warrant holders do not have the rights or privileges of holders of shares of common stock and any voting rights until they exercise their warrants and receive shares of common stock. After the issuance of shares of common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

Except as described above, no public warrants will be exercisable for cash and we will not be obligated to issue shares of common stock unless at the time a holder seeks to exercise such warrant, a prospectus relating to the shares of common stock issuable upon exercise of the warrants is current and the shares of common stock have been registered or qualified or deemed to be exempt under the securities laws of the state of residence of the holder of the warrants. Under the terms of the warrant agreement, we have agreed to use our best efforts to meet these conditions and to maintain a current prospectus relating to the shares of common stock issuable upon exercise of the warrants until the expiration of the warrants. However, we cannot assure you that we will be able to do so and, if we do not maintain a current prospectus relating to the shares of common stock issuable upon exercise of the warrants, holders will be unable to exercise their warrants and we will not be required to settle any such warrant exercise. If the prospectus relating to the shares of common stock issuable upon the exercise of the warrants is not current or if the common stock is not qualified or exempt from qualification in the jurisdictions in which the holders of the warrants reside, we will not be required to net cash settle or cash settle the warrant exercise, the warrants may have no value, the market for the warrants may be limited and the warrants may expire worthless.

Warrant holders may elect to be subject to a restriction on the exercise of their warrants such that an electing warrant holder would not be able to exercise their warrants to the extent that, after giving effect to such exercise, such holder would beneficially own in excess of 9.9% of the shares of common stock outstanding.

No fractional shares will be issued upon exercise of the warrants. If, upon exercise of the warrants, a holder would be entitled to receive a fractional interest in a share, we will, upon exercise, round down to the nearest whole number the number of ordinary shares to be issued to the warrant holder.

Contractual Arrangements with respect to the Certain Warrants

We have agreed that so long as the private warrants are still held by the initial purchasers or their affiliates, we will not redeem such warrants and we will allow the holders to exercise such warrants on a cashless basis (even if a registration statement covering the shares of common stock issuable upon exercise of such warrants is not effective). However, once any of the foregoing warrants are transferred from the initial purchasers or their affiliates, these arrangements will no longer apply. Furthermore, because the private warrants will be issued in a private transaction, the holders and their transferees will be allowed to exercise the private warrants for cash even if a registration statement covering the shares of common stock issuable upon exercise of such warrants is not effective and receive unregistered shares of common stock.

Dividends

We have not paid any cash dividends on our shares of common stock to date and do not intend to pay cash dividends prior to the completion of a business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of a business combination. The payment of any dividends subsequent to a business combination will be within the discretion of our then board of directors. It is the present intention of our board of directors to retain all earnings, if any, for use in our business operations and, accordingly, our board does not anticipate declaring any dividends in the foreseeable future.

Our Transfer Agent and Warrant Agent

The transfer agent for our shares of common stock and warrant agent for our warrants is Continental Stock Transfer & Trust Company, 17 Battery Place, New York, New York 10004.

Certain Anti-Takeover Provisions of Delaware Law and our Certificate of Incorporation and By-Laws

We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of this offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a “business combination” with:

- a stockholder who owns 10% or more of our outstanding voting stock (otherwise known as an “interested stockholder”);
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Special meeting of stockholders

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by our chief executive officer or by our chairman.

Advance notice requirements for stockholder proposals and director nominations

Our bylaws provide that stockholders seeking to bring business before our annual meeting of stockholders, or to nominate candidates for election as directors at our annual meeting of stockholders must provide timely notice of their intent in writing. To be timely, a stockholder’s notice will need to be delivered to our principal executive offices not later than the close of business on the 90th day nor earlier than the opening of business on the 120th day prior to the scheduled date of the annual meeting of stockholders. Our bylaws also specify certain requirements as to the form and content of a stockholders’ meeting. These provisions may preclude our stockholders from bringing matters before our annual meeting of stockholders or from making nominations for directors at our annual meeting of stockholders.

Authorized but unissued shares

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

SECURITIES ELIGIBLE FOR FUTURE SALE

Immediately after this offering, we will have 8,750,000 shares of common stock issued and outstanding, or 10,062,500 shares of common stock if the over-allotment option is exercised in full. Of these shares, the 7,000,000 shares sold in this offering, or 8,050,000 shares if the over-allotment option is exercised in full, will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the remaining shares are restricted securities under Rule 144, in that they were issued in private transactions not involving a public offering. All of those shares will not be transferable except in limited circumstances described elsewhere in this prospectus.

Rule 144

A person who has beneficially owned restricted shares of common stock or warrants for at least six months would be entitled to sell their securities provided that (i) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale and (ii) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale. Persons who have beneficially owned restricted shares of common stock for at least six months but who are our affiliates at the time of, or any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period a number of shares that does not exceed the greater of either of the following:

- 1% of the number of shares of common stock then issued and outstanding, which will equal 87,500 shares immediately after this offering (or 100,625 if the over-allotment option is exercised in full); and
- the average weekly trading volume of the shares of common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Historically, the SEC staff had taken the position that Rule 144 is not available for the resale of securities initially issued by companies that are, or previously were, blank check companies, like us. The SEC has codified and expanded this position in the amendments discussed above by prohibiting the use of Rule 144 for resale of securities issued by any shell companies (other than business combination related shell companies) or any issuer that has been at any time previously a shell company. The SEC has provided an important exception to this prohibition, however, if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;

- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Form 8-K reports; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, it is likely that pursuant to Rule 144, our initial stockholders will be able to sell their insider shares freely without registration one year after we have completed our initial business combination assuming they are not an affiliate of ours at that time.

Registration Rights

The holders of our insider shares issued and outstanding on the date of this prospectus, as well as the holders of the private warrants (and underlying securities) and any securities issued to our initial stockholders, officers, directors or their affiliates in payment of working capital loans made to us, will be entitled to registration rights pursuant to an agreement to be signed prior to or on the effective date of this offering. The holders of a majority of these securities are entitled to make up to two demands that we register such securities. The holders of the majority of the insider shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these shares of common stock are to be released from escrow. The holders of a majority of the private warrants (and underlying securities) and securities issued in payment of working capital loans (or underlying securities) can elect to exercise these registration rights at any time after we consummate a business combination. In addition, the holders have certain “piggy-back” registration rights with respect to registration statements filed subsequent to our consummation of a business combination. We will bear the expenses incurred in connection with the filing of any such registration statements.

UNDERWRITING (CONFLICTS OF INTEREST)

We intend to offer our securities described in this prospectus through the underwriters named below. Chardan Capital Markets LLC is the representative for the underwriters. We have entered into an underwriting agreement with the representative. Subject to the terms and conditions of the underwriting agreement, each of the underwriters has severally agreed to purchase from us the number of units listed next to its name in the following table:

Underwriter	Number of Units
Chardan Capital Markets LLC	6,965,000
CIM Securities, LLC	35,000
Total	7,000,000

A copy of the underwriting agreement has been filed as an exhibit to the registration statement of which this prospectus forms a part.

Listing of our Securities

Our units, shares of common stock and warrants will be quoted on the NYSE American stock exchange under the symbols “CHAC.U,” “CHAC,” and “CHAC.WS,” respectively. Our units will be listed on the NYSE American on or promptly after the effective date of the registration statement. Following the date that our shares of common stock and warrants are eligible to trade separately, we anticipate that our shares of common stock and warrants will be listed separately and as a unit on the NYSE American . We cannot guarantee that our securities will continue to be listed on the NYSE American after this offering.

Over-allotment Option

We have granted the underwriters an option to buy up to 1,050,000 additional units. The underwriters may exercise this option solely for the purpose of covering over-allotments, if any, made in connection with this offering. The underwriters have 45 days from the date of this prospectus to exercise this option. If the underwriters exercise this option, they will each purchase additional units approximately in proportion to the amounts specified in the table above.

Commissions and Discounts

Units sold by the underwriters to the public will initially be offered at the offering price set forth on the cover of this prospectus. The underwriters will be entitled to a cash underwriting discount of \$400,000. The aggregate amount of the fee paid to the underwriters will remain constant at \$400,000, even if the over-allotment option is exercised. B. Riley FBR, Inc. will receive \$100,000 for acting as a qualified independent underwriter. Any units sold by the underwriters to securities dealers may be sold at a discount of up to \$0.06 per unit from the public offering price. If all of the units are not sold at the initial public offering price, the representative may change the offering price and the other selling terms. Upon execution of the underwriting agreement, the underwriters will be obligated to purchase the units at the prices and upon the terms stated therein, and, as a result, will thereafter bear any risk associated with changing the offering price to the public or other selling terms.

The following table shows the per unit and total underwriting discounts and commissions we will pay to the underwriters assuming both no exercise and full exercise of the underwriters' over-allotment option to purchase up to an additional 1,050,000 units.

	Per Unit	Without Over- allotment	With Over- allotment
Public offering price	\$ 10.00	\$ 70,000,000	\$ 80,500,000
Discount and qualified independent underwriter fees	\$ 0.071(2)	\$ 500,000	\$ 500,000
Proceeds before expenses ⁽¹⁾	\$ 9.939	\$ 69,500,000	\$ 80,000,000

(1) The offering expenses are estimated at \$285,000.

(2) The aggregate amount of the fee paid to the underwriters (including the amounts payable to the qualified independent underwriter) remains constant at \$500,000, even if the over-allotment option is exercised.

Pricing of Securities

We have been advised by the representative that the underwriters propose to offer the units to the public at the offering price set forth on the cover page of this prospectus.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the representative. Factors considered in determining the prices and terms of the units, including the shares of common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- our capital structure;
- the per share amount of net proceeds being placed into the trust account;
- an assessment of our management and their experience in identifying operating companies;
- general conditions of the securities markets at the time of the offering; and
- other factors as were deemed relevant.

However, although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities for an operating company in a particular industry since the underwriters are unable to compare our financial results and prospects with those of public companies operating in the same industry.

Regulatory Restrictions on Purchase of Securities

Rules of the SEC may limit the ability of the underwriters to bid for or purchase our units before the distribution of the units is completed. However, the underwriters may engage in the following activities in accordance with the rules:

- **Stabilizing Transactions.** The underwriters may make bids or purchases for the purpose of preventing or retarding a decline in the price of our units, as long as stabilizing bids do not exceed the offering price of \$10.00 and the underwriters comply with all other applicable rules.
- **Over-Allotments and Syndicate Coverage Transactions.** The underwriters may create a short position in our units by selling more of our units than are set forth on the cover page of this prospectus up to the amount of the over-allotment option. This is known as a covered short position. The underwriters may also create a short position in our units by selling more of our units than are set forth on the cover page of this prospectus and the units allowed by the over-allotment option. This is known as a naked short position. If the underwriters create a short position during the offering, the representative may engage in syndicate covering transactions by purchasing our units in the open market. The representative may also elect to reduce any short position by exercising all or part of the over-allotment option. Determining what method to use in reducing the short position depends on how the units trade in the aftermarket following the offering. If the unit price drops following the offering, the short position is usually covered with shares purchased by the underwriters in the aftermarket. However, the underwriters may cover a short position by exercising the over-allotment option even if the unit price drops following the offering. If the unit price rises after the offering, then the over-allotment option is used to cover the short position. If the short position is more than the over-allotment option, the naked short must be covered by purchases in the aftermarket, which could be at prices above the offering price.
- **Penalty Bids.** The representative may reclaim a selling concession from a syndicate member when the units originally sold by the syndicate member are purchased in a stabilizing or syndicate covering transaction to cover syndicate short positions.

Stabilization and syndicate covering transactions may cause the price of our securities to be higher than they would be in the absence of these transactions. The imposition of a penalty bid might also have an effect on the prices of our securities if it discourages resales of our securities.

Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of our securities. These transactions may occur on the NYSE American stock exchange, in the over-the-counter market or on any trading market. If any of these transactions are commenced, they may be discontinued without notice at any time.

Conflicts of Interest

Chardan Investments, LLC, our sponsor, is an affiliate of Chardan Capital Markets LLC, the representative of the underwriters in this offering, and certain of our officers and directors are affiliated with Chardan Capital Markets LLC. As a result, Chardan Capital Markets LLC is deemed to have a “conflict of interest” within the meaning of Rule 5121 of the Financial Industry Regulatory Authority (“Rule 5121”).

Accordingly, this offering is being made in compliance with the applicable requirements of Rule 5121. Rule 5121 requires that a “qualified independent underwriter,” as defined in Rule 5121, participate in the preparation of the registration statement and prospectus and exercise the usual standards of due diligence with respect thereto. B. Riley FBR, Inc. has agreed to act as a “qualified independent underwriter” for this offering. B. Riley FBR, Inc. will receive \$100,000 for acting as a qualified independent underwriter. We have agreed to indemnify B. Riley FBR, Inc. against certain liabilities incurred in connection with acting as a “qualified independent underwriter,” including liabilities under the Securities Act. In addition, no underwriter with a conflict of interest will confirm sales to any account over which it exercises discretionary authority without the specific prior written approval of the account holder.

Other Terms

Except as set forth above, we are not under any contractual obligation to engage any of the underwriters to provide any services for us after this offering, and have no present intent to do so. However, any of the underwriters may, among other things, introduce us to potential target businesses or assist us in raising additional capital, as needs may arise in the future. If any underwriter provides services to us after this offering, we may pay the underwriter fair and reasonable fees that would be determined at that time in an arm’s length negotiation; provided that no agreement will be entered into with the underwriter and no fees for such services will be paid to the underwriter prior to the date which is 90 days after the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriter’s compensation in connection with this offering.

Mountain Wood, LLC, an affiliate of our sponsor, has committed to purchase from us an aggregate of 2,900,000 warrants, or “private warrants,” at \$0.40 per private warrant (for a total purchase price of \$1,160,000), with each warrant exercisable for one share of common stock at an exercise price of \$11.50 per share. These purchases will take place on a private placement basis simultaneously with the consummation of this offering. All of the proceeds we receive from these purchases will be placed in the trust account described below. The private warrants, and the shares that are issuable upon exercise of the private warrants have been deemed compensation by FINRA and are therefore subject to a 360-day lock-up pursuant to Rule 5110(g)(1) of the FINRA Manual commencing on the effective date of the registration statement of which this prospectus forms a part. Pursuant to FINRA Rule 5110(g)(1), these securities will not be sold during the offering, or sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put or call transaction that would result in the economic disposition of the securities by any person for a period of 360 days immediately following the effective date of the registration statement of which this prospectus forms a part or commencement of sales of the public offering, except to any underwriter and selected dealer participating in the offering and their bona fide officers or partners, provided that all securities so transferred remain subject to the lockup restriction above for the remainder of the time period. We have granted the holders of private warrants the registration rights as described under the section “Shares Eligible for Future Sale — Registration Rights.”

Indemnification

We have agreed to indemnify the underwriters against some liabilities, including civil liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in this respect.

Resale Restrictions

We intend to distribute our securities in the Province of Ontario, Canada (the “Canadian Offering Jurisdiction”) by way of a private placement and exempt from the requirement that we prepare and file a prospectus with the securities regulatory authorities in such Canadian Offering Jurisdiction. Any resale of our securities in Canada must be made under applicable securities laws that will vary depending on the relevant jurisdiction, and which may require resales to be made under available statutory exemptions or under a discretionary exemption granted by the applicable Canadian securities regulatory authority. Canadian resale restrictions in some circumstances may apply to resales of interests made outside of Canada. Canadian purchasers are advised to seek legal advice prior to any resale of our securities. We may never be a “reporting issuer”, as such term is defined under applicable Canadian securities legislation, in any province or territory of Canada in which our securities will be offered and there currently is no public market for any of the securities in Canada, and one may never develop. Canadian investors are advised that we have no intention to file a prospectus or similar document with any securities regulatory authority in Canada qualifying the resale of the securities to the public in any province or territory in Canada.

Representations of Purchasers

A Canadian purchaser will be required to represent to us and the dealer from whom the purchase confirmation is received that:

- the purchaser is entitled under applicable provincial securities laws to purchase our securities without the benefit of a prospectus qualified under those securities laws;
- where required by law, that the purchaser is purchasing as principal and not as agent;
- the purchaser has reviewed the text above under Resale Restrictions; and
- the purchaser acknowledges and consents to the provision of specified information concerning its purchase of our securities to the regulatory authority that by law is entitled to collect the information.

Rights of Action — Ontario Purchasers Only

Under Ontario securities legislation, certain purchasers who purchase a security offered by this prospectus during the period of distribution will have a statutory right of action for damages, or while still the owner of our securities, for rescission against us in the event that this prospectus contains a misrepresentation without regard to whether the purchaser relied on the misrepresentation. The right of action for damages is exercisable not later than the earlier of 180 days from the date the purchaser first had knowledge of the facts giving rise to the cause of action and three years from the date on which payment is made for our securities. The right of action for rescission is exercisable not later than 180 days from the date on which payment is made for our securities. If a purchaser elects to exercise the right of action for rescission, the purchaser will have no right of action for damages against us. In no case will the amount recoverable in any action exceed the price at which our securities were offered to the purchaser and if the purchaser is shown to have purchased the securities with knowledge of the misrepresentation, we will have no liability. In the case of an action for damages, we will not be liable for all or any portion of the damages that are proven to not represent the depreciation in value of our securities as a result of the misrepresentation relied upon. These rights are in addition to, and without derogation from, any other rights or remedies available at law to an Ontario purchaser. The foregoing is a summary of the rights available to an Ontario purchaser. Ontario purchasers should refer to the complete text of the relevant statutory provisions.

Enforcement of Legal Rights

All of our directors and officers as well as the experts named herein are located outside of Canada and, as a result, it may not be possible for Canadian purchasers to effect service of process within Canada upon us or those persons. All of our assets and the assets of those persons are located outside of Canada and, as a result, it may not be possible to satisfy a judgment against us or those persons in Canada or to enforce a judgment obtained in Canadian courts against us or those persons outside of Canada.

Collection of Personal Information

If a Canadian purchaser is resident in or otherwise subject to the securities laws of the Province of Ontario, the Purchaser authorizes the indirect collection of personal information pertaining to the Canadian purchaser by the Ontario Securities Commission (the “OSC”) and each Canadian purchaser will be required to acknowledge and agree that the Canadian purchaser has been notified by us (i) of the delivery to the OSC of personal information pertaining to the Canadian purchaser, including, without limitation, the full name, residential address and telephone number of the Canadian purchaser, the number and type of securities purchased and the total purchase price paid in respect of the securities, (ii) that this information is being collected indirectly by the OSC under the authority granted to it in securities legislation, (iii) that this information is being collected for the purposes of the administration and enforcement of the securities legislation of Ontario, and (iv) that the title, business address and business telephone number of the public official in Ontario who can answer questions about the OSC’s indirect collection of the information is the Administrative Assistant to the Director of Corporate Finance, the Ontario Securities Commission, Suite 1903, Box 5520, Queen Street West, Toronto, Ontario, M5H 3S8, Telephone: (416) 593-8086, Facsimile: (416) 593-8252.

LEGAL MATTERS

Loeb & Loeb LLP, is acting as United States counsel in connection with the registration of our securities under the Securities Act and will pass on the validity of the securities offered in the prospectus. Schiff Hardin LLP, Washington, DC, is acting as counsel for the underwriters in this offering.

EXPERTS

The financial statements of Chardan Healthcare Acquisition Corp. as of June 30, 2018 and for the period from November 1, 2017 (inception) through June 30, 2018 appearing in this prospectus have been audited by Marcum LLP, independent registered public accounting firm, as set forth in their report, thereon (which contains an explanatory paragraph relating to substantial doubt about the ability of Chardan Healthcare Acquisition Corp. to continue as a going concern as described in Note 1 to the financial statements), appearing elsewhere in this prospectus, and are included in reliance on such report given on the authority of such firm as an experts in auditing and accounting.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1, which includes exhibits, schedules and amendments, under the Securities Act, with respect to this offering of our securities. Although this prospectus, which forms a part of the registration statement, contains all material information included in the registration statement, parts of the registration statement have been omitted as permitted by rules and regulations of the SEC. We refer you to the registration statement and its exhibits for further information about us, our securities and this offering. The registration statement and its exhibits, as well as our other reports filed with the SEC, can be inspected and copied at the SEC's public reference room at 100 F Street, N.E., Washington, D.C. 20549. The public may obtain information about the operation of the public reference room by calling the SEC at 1-800-SEC-0330. In addition, the SEC maintains a web site at <http://www.sec.gov> which contains the Form S-1 and other reports, proxy and information statements and information regarding issuers that file electronically with the SEC.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder and Board of Directors of
Chardan Healthcare Acquisition Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Chardan Healthcare Acquisition Corp. (the "Company") as of June 30, 2018 and the related statements of operations, changes in stockholder's equity and cash flows for the period from November 1, 2017 (inception) through June 30, 2018 and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of June 30, 2018 and the results of its operations and its cash flows for the period from November 1, 2017 (inception) through June 30, 2018, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph — Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, its business plan is dependent on the completion of a financing and the Company's cash and working capital as of June 30, 2018 are not sufficient to complete its planned activities. These conditions raise substantial doubt about the Company's ability to continue as a going concern within one year after the date the financial statements are issued. Management's plans in regard to these matters are also described in Note 1 and 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Chardan Healthcare Acquisition Corp. (the “Company”) is a newly organized blank check company incorporated in Delaware on November 1, 2017. The Company was formed for the purpose of entering into a merger, share exchange, asset acquisition, stock purchase, recapitalization, reorganization or other similar business transaction with one or more businesses or entities that the Company has not yet identified (a “Business Combination”). Although the Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination, the Company intends to focus on businesses operating in North America in the healthcare industry.

At September 30, 2018, the Company had not yet commenced operations. All activity through September 30, 2018 relates to the Company’s formation and the Proposed Offering (as defined below). The Company has selected June 30 as its fiscal year end.

The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through a proposed initial public offering of 7,000,000 units at \$10.00 per unit (or 8,050,000 units if the underwriters’ over-allotment option is exercised in full) (“Units”), which is discussed in Note 3 (the “Proposed Offering”) and the sale of 2,900,000 warrants (the “Private Placement Warrants”) at a price of \$0.40 per warrant in a private placement to Mountain Wood, LLC, an affiliate of Chardan Investments, LLC (the “Sponsor”), that will close simultaneously with the Proposed Offering. The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Offering and Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. The Company’s initial Business Combination must be with one or more target businesses that together have a fair market value equal to at least 80% of the balance in the Trust Account (as defined below) (excluding taxes payable on income earned on the Trust Account) at the time of the signing an agreement to enter into a Business Combination. The Company will only complete a Business Combination if the post-Business Combination company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. There is no assurance that the Company will be able to successfully effect a Business Combination. Upon the closing of the Proposed Offering, management has agreed that \$10.00 per Unit sold in the Proposed Offering and the proceeds from the sale of the Private Placement Warrants will be held in a trust account (“Trust Account”) and invested in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 180 days or less or in any open-ended investment company that holds itself out as a money market fund meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the consummation of a Business Combination or (ii) the distribution of the Trust Account as described below.

The Company will provide its stockholders with the opportunity to redeem all or a portion of their shares included in the Units sold in the Proposed Offering (the “Public Shares”) upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The stockholders will be entitled to redeem their shares for a pro rata portion of the amount then on deposit in the Trust Account (initially approximately \$10.00 per share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its franchise and income tax obligations). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants. The common stock subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the Proposed Offering, in accordance with Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.”

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

The Company will proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the outstanding shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other legal reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation, conduct the redemptions pursuant to the tender offer rules of the Securities and Exchange Commission (“SEC”), and file tender offer documents with the SEC prior to completing a Business Combination. If, however, a stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or other legal reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Company’s Sponsor and other initial stockholders (collectively, the “Initial Stockholders”) have agreed to (a) vote their Founder Shares (as defined in Note 5) and any Public Shares held by them in favor of a Business Combination and (b) not to convert any shares (including Founder Shares) in connection with a stockholder vote to approve a Business Combination or sell any such shares to the Company in a tender offer in connection with a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction.

Notwithstanding the foregoing, if the Company seeks stockholder approval of a Business Combination and the Company does not conduct redemptions pursuant to the tender offer rules, a stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined in Section 13(d)(3) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), will be restricted from redeeming their shares with respect to more than an aggregate of 20% of the Public Shares.

The Company will have until 24 months from the closing of the Proposed Offering to consummate a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but no more than five business days thereafter, redeem 100% of the outstanding Public Shares, at a per share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest earned (net of taxes payable), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidation distributions, if any), subject to applicable law, and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the remaining stockholders and the Company’s board of directors, proceed to commence a voluntary liquidation and thereby a formal dissolution of the Company, subject in each case to its obligations to provide for claims of creditors and the requirements of applicable law. The proceeds deposited in the Trust Account could, however, become subject to claims of creditors. Therefore, the actual per-share redemption amount could be less than \$10.00.

The Initial Stockholders have agreed to (i) waive their redemption rights with respect to Founder Shares and any Public Shares they may acquire during or after the Proposed Offering in connection with the consummation of a Business Combination, (ii) to waive their rights to liquidating distributions from the Trust Account with respect to their Founder Shares if the Company fails to consummate a Business Combination within the Combination Period and (iii) not to propose an amendment to the Company’s Amended and Restated Certificate of Incorporation that would affect the substance or timing of the Company’s obligation to redeem 100% of its Public Shares if the Company does not complete a Business Combination, unless the Company provides the public stockholders an opportunity to redeem their Public Shares in conjunction with any such amendment. However, the Initial Stockholders will be entitled to liquidating distributions with respect to any Public Shares acquired if the Company fails to consummate a Business Combination or liquidates within the Combination Period.

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a vendor for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below \$10.00 per share, except as to any claims by a third party who executed a waiver of any right, title, interest or claim of any kind in or to any monies held in the Trust Account or to any claims under the Company’s indemnity of the underwriters of the Proposed Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the “Securities Act”). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers, prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Going Concern Consideration

At September 30 2018, the Company had \$23,280 in cash and a working capital deficit of \$67,727. The Company has incurred and expects to continue to incur significant costs in pursuit of its financing and acquisition plans. These conditions raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued. Management plans to address this uncertainty through a Proposed Offering as discussed in Note 3. There is no assurance that the Company's plans to raise capital or to consummate a Business Combination will be successful within the Combination Period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation

The accompanying financial statements are presented in conformity with accounting principles generally accepted in the United States of America ("GAAP") and pursuant to the rules and regulations of the SEC.

Emerging growth company

In the opinion of management, the accompanying unaudited financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented. The interim results for the three months ended September 30, 2018 are not necessarily indicative of the results to be expected for the year ending June 30, 2019 or for any future interim periods.

Emerging growth company

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from our estimates.

Cash and cash equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of September 30, 2018 and June 30, 2018.

Deferred offering costs

Deferred offering costs consist of underwriting, legal, accounting and other expenses incurred through the balance sheet date that are directly related to the Proposed Offering and that will be charged to stockholder's equity upon the completion of the Proposed Offering. Should the Proposed Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

Income taxes

The Company complies with the accounting and reporting requirements of ASC Topic 740 "Income Taxes," which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in future taxable or deductible amounts, based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

ASC Topic 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. As of September 30, 2018 and June 30, 2018, there were no unrecognized tax benefits and no amounts accrued for interest and penalties. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position.

The Company may be subject to potential examination by federal, state and city taxing authorities in the areas of income taxes. These potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with federal, state and city tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

The provision for income taxes was deemed to be immaterial for the three months ended September 30, 2018 and for the period from November 1, 2017 (inception) through June 30, 2018.

Net loss per common share

The Company complies with accounting and disclosure requirements of ASC Topic 260, "Earnings Per Share." Net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding for the period, excluding shares of common stock subject to forfeiture. Weighted average shares were reduced for the effect of an aggregate of 262,500 shares of common stock that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Note 7). At September 30, 2018, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into common stock and then share in the earnings of the Company. As a result, diluted loss per common share is the same as basic loss per common share for the periods.

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

Concentration of credit risk

Financial instruments that potentially subject the Company to concentration of credit risk consist of a cash account in a financial institution which, at times may exceed the Federal depository insurance coverage of \$250,000. At September 30, 2018, the Company had not experienced losses on this account and management believes the Company is not exposed to significant risks on such account.

Fair value of financial instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC Topic 820, "Fair Value Measurements and Disclosures," approximates the carrying amounts represented in the accompanying balance sheets, primarily due to their short-term nature.

Recently issued accounting standards

Management does not believe that any recently issued, but not yet effective, accounting pronouncements, if currently adopted, would have a material effect on the Company's financial statements.

NOTE 3. PROPOSED OFFERING

Pursuant to the Proposed Offering, the Company will offer for sale 7,000,000 units (or 8,050,000 Units if the underwriters' over-allotment option is exercised in full), at a purchase price of \$10.00 per Unit. Each Unit will consist of one share of common stock and one warrant ("Public Warrant"). Each Public Warrant entitles the holder to purchase one-half of one share of common stock at an exercise price of \$11.50 per share (see Note 7).

NOTE 4. PRIVATE PLACEMENT

In connection with the Proposed Offering, the Mountain Wood, LLC is expected to purchase an aggregate of 2,900,000 Private Placement Warrants, or \$1,160,000 in the aggregate, in a private placement that will occur simultaneously with the consummation of the Proposed Offering. Each Private Placement Warrant is exercisable to purchase one share of common stock at an exercise price of \$11.50. The proceeds from the Private Placement Warrants will be added to the proceeds from the Proposed Offering to be held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds from the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the Private Placement Warrants.

NOTE 5. RELATED PARTY TRANSACTIONS

Founder Shares

In March 2018, the Company issued an aggregate of 1,437,500 shares of common stock to the Sponsor ("Founder Shares") for an aggregate purchase price of \$25,000. On September 14, 2018, the Company effectuated a 1.4-for-1 stock dividend resulting in an aggregate of 2,012,500 Founder Shares outstanding. All share and per-share amounts have been retroactively restated to reflect the stock dividend. The Founder Shares include an aggregate of up to 262,500 shares subject to forfeiture by the Sponsor to the extent that the underwriters' over-allotment is not exercised in full or in part, so that the Sponsor will own 20% of the Company's issued and outstanding shares after the Proposed Offering (assuming the Sponsor does not purchase any Public Shares in the Proposed Offering).

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

The Initial Stockholders have agreed that, subject to certain limited exceptions, 50% of the Founder Shares will not be transferred, assigned, sold or released from escrow until the earlier of (i) 6 months after the date of the consummation of a Business Combination or (ii) the date on which the closing price of the Company's shares of common stock equals or exceeds \$12.50 per share (as adjusted for stock splits, stock dividends, reorganizations and recapitalizations) for any 20 trading days within any 30-trading day period commencing after a Business Combination and the remaining 50% of the Founder Shares will not be transferred, assigned, sold or released from escrow until 6 months after the date of the consummation of a Business Combination, or earlier, in either case, if, subsequent to a Business Combination, the Company consummates a subsequent liquidation, merger, stock exchange or other similar transaction which results in all of the stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Notes – Related Party

The Company issued unsecured promissory notes (the "Promissory Notes") to the Sponsor, pursuant to which the Company may borrow up to an aggregate principal amount of \$73,500. The Promissory Notes are non-interest bearing and payable on the closing of the Proposed Offering. As of September 30, 2018 and June 30, 2018, \$ 73,500 and \$40,000 was outstanding under the Promissory Notes, respectively.

Related Party Loans

In order to finance transaction costs in connection with a Business Combination, the Sponsor, an affiliate of the Sponsor, or the Company's officers and directors may, but are not obligated to, loan the Company funds from time to time or at any time, as may be required ("Working Capital Loans"). Each Working Capital Loan would be evidenced by a promissory note. The Working Capital Loans would either be paid upon consummation of a Business Combination, without interest, or, at the holder's discretion, up to \$500,000 of the Working Capital Loans may be converted into private warrants at a price of \$0.40 per private warrant. The private warrants would be identical to the Private Placement Warrants. In the event that a Business Combination does not close, the Company may use a portion of the proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans.

NOTE 6. COMMITMENTS AND CONTINGENCIES

Registration Rights

The holders of the Founder Shares, Private Placement Warrants (and their underlying securities) and any securities that may be issued upon conversion of the Working Capital Loans will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of the Proposed Offering. The holders of a majority of these securities will be entitled to make up to two demands that the Company register such securities. The holders of the majority of the Founder Shares can elect to exercise these registration rights at any time commencing three months prior to the date on which these shares of common stock are to be released from escrow. The holders of a majority of the Private Placement Warrants (and their underlying securities) or securities issued in payment of Working Capital Loans made to the Company (in each case, including the underlying securities) can elect to exercise these registration rights at any time after the Company consummates a Business Combination. In addition, the holders will have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriters Agreement

The Company will grant the underwriters a 45-day option to purchase up to 1,050,000 additional Units to cover over-allotments at the Proposed Offering price, less the underwriting discounts and commissions.

The underwriters will be entitled to a cash underwriting discount and qualified independent underwriter fees of an aggregate of \$500,000. The aggregate amount of the fee paid to the underwriters and qualified independent underwriter will remain constant at \$500,000, even if the over-allotment option is exercised. The Sponsor has committed to pay this fee on behalf of the Company and receive a non-interest bearing promissory note from the Company in exchange for the payment of such amount. The promissory note will be payable at the closing of the Business Combination.

NOTE 7. STOCKHOLDER'S EQUITY

Preferred Stock — As of September 30, 2018 and June 30, 2018, the Company has no authorized shares of preferred stock. The Company plans on filing an Amended and Restated Certificate of Incorporation prior to the closing date of the Proposed Offering such that the Company will be authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designation, rights and preferences as may be determined from time to time by the Company's Board of Directors.

Common Stock — As of September 30, 2018, the Company is authorized to issue 3,000,000 shares of common stock with a par value of \$0.0001 per share as adjusted for the Company's amendment on September 14, 2018 to its certificate of incorporation to increase the number of shares it is authorized to issue to 3,000,000 with a par value of \$0.0001 per share. The Company plans on filing an Amended and Restated Certificate of Incorporation prior to the closing date of the Proposed Offering such that the Company will be authorized to issue 30,000,000 shares of common stock. Holders of the Company's common stock are entitled to one vote for each share. At September 30, 2018 and June 30, 2018, there were 2,012,500 shares of common stock issued and outstanding, of which 262,500 shares are subject to forfeiture to the extent that the underwriter's over-allotment option is not exercised in full so that the Company's Initial Stockholders will own 20% of the issued and outstanding shares after the Proposed Offering (assuming the Initial Stockholders do not purchase any Public Shares in the Proposed Offering).

Warrants — No fractional shares will be issued upon exercise of the Public Warrants. Therefore, Public Warrants must be exercised in multiples of two warrants. The Public Warrants will become exercisable on the consummation of a Business Combination; provided in that the Company has an effective and current registration statement covering the shares of common stock issuable upon the exercise of the Public Warrants and a current prospectus relating to such shares of common stock. The Company has agreed that as soon as practicable, the Company will use its best efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of common stock issuable upon exercise of the Public Warrants. The Company will use its best efforts to cause the same to become effective and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the Public Warrants in accordance with the provisions of the warrant agreement. Notwithstanding the foregoing, if a registration statement covering the shares of common stock issuable upon exercise of the public warrants is not effective within 120 days from the closing of a Business Combination, warrant holders may, until such time as there is an effective registration statement and during any period when we shall have failed to maintain an effective registration statement, exercise warrants on a cashless basis pursuant to an available exemption from registration under the Securities Act. If an exemption from registration is not available, holders will not be able to exercise their warrants on a cashless basis. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company may redeem the Public Warrants:

- in whole and not in part;
- at a price of \$0.01 per warrant;
- at any time during the exercise period;
- upon a minimum of 30 days' prior written notice of redemption;
- if, and only if, the last sale price of the Company's common stock equals or exceeds \$16.00 per share for any 20 trading days within a 30-trading day period ending on the third business day prior to the date on which the Company sends the notice of redemption to the warrant holders; and
- if, and only if, there is a current registration statement in effect with respect to the shares of common stock underlying such warrants at the time of redemption and for the entire 30-day trading period referred to above and continuing each day thereafter until the date of redemption.

The Private Placement Warrants will be identical to the Public Warrants underlying the Units being sold in the Proposed Offering except that the Private Placement Warrants will be exercisable for cash (even if a registration statement covering the shares of common stock issuable upon exercise of such warrants is not effective) or on a cashless basis, at the holder's option, and will not be non-redeemable by the Company, in each case, so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

CHARDAN HEALTHCARE ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a “cashless basis,” as described in the warrant agreement. The exercise price and number of shares of common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

NOTE 8. SUBSEQUENT EVENTS

The Company evaluates subsequent events and transactions that occur after the balance sheet date up to November 26, 2018, the date that the financial statements were issued. Other than a described below, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

The Company issued additional Promissory Notes to the Sponsor, pursuant to which the Company borrowed an aggregate principal amount of \$12,000. The Promissory Notes are non-interest bearing and payable on the closing of the Proposed Offering.

Until January 7, 2019 (25 days after the date of this prospectus), all dealers that buy, sell or trade our ordinary shares, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealers' obligation to deliver a prospectus when acting as underwriters and with respect to their unsold allotments or subscriptions.

No dealer, salesperson or any other person is authorized to give any information or make any representations in connection with this offering other than those contained in this prospectus and, if given or made, the information or representations must not be relied upon as having been authorized by us. This prospectus does not constitute an offer to sell or a solicitation of an offer to buy any security other than the securities offered by this prospectus, or an offer to sell or a solicitation of an offer to buy any securities by anyone in any jurisdiction in which the offer or solicitation is not authorized or is unlawful.
